logitech Yeti Premium Multi Pattern USB Microphone

Specifications:

- **Website:** www.wsh-hatten.de
- **Industry:** Education, Secondary School
- **Location:** Northern Germany
- **Solutions:** Rugged Combo 3, Crayon, Mevo, Yeti microphone

Product Information

Waldschule Hatten integrates digital tools and educational technology to provide a creative, focused, and enjoyable learning environment for students and teachers. The school equips students from grade 7 onwards with iPads and utilizes Logitech solutions like the Rugged Combo 3 protective case, Crayon digital pen, Mevo, and Yeti microphones to enhance the learning experience.

Usage Instructions

- **Rugged Combo 3:** The Rugged Combo 3 provides military-grade drop protection for iPads and offers 5 versatile use modes. The adjustable kickstand and foldable keyboard support typing, viewing, sketching, reading, taking photos, and more. The Smart Connector technology allows instant connection to the iPad without the need for pairing, ensuring a secure solution for testing and exams.
- **Crayon Digital Pen:**
The Logitech Crayon enables precise interaction with the curriculum. Its smart tip adjusts line weight with tilt and offers zero perceptible lag time. With a 7.5-hour battery life and fast charging capability, the Crayon is always ready for use.
- **Makerspace with Mevo and Yeti Microphones:**
The school has created a makerspace equipped with Logitech Mevo and Yeti microphones for podcasting and

video-making projects. Students can utilize this space to work on their projects and create content for class assignments with the support of teachers.

FAQ:

1. Q: Are the Logitech solutions easy to use for students?

A: Yes, the Logitech Rugged Combo 3 and Crayon are designed for ease of use, providing students with tools that enhance their digital learning experience.

2. Q: How can educators benefit from using these Logitech solutions?

A: Educators can experiment with new teaching methods and engage students in creative projects using tools like the Rugged Combo 3, Crayon, Mevo, and Yeti microphones.

3. Q: Is there technical support available for these Logitech products?

A: Logitech offers technical support through their website at [Logitech.com/education](https://www.logitech.com/education) for any queries or assistance related to their educational products.

WALDSCHULE HATTEN

PREPARING STUDENTS FOR TOMORROW, TODAY

Schools have the task of making children and teenagers fit for the challenges of both our future and our society. By building knowledge and skills, doors shall be opened to this future (...) That's why learning with digital devices is not simply a process of digitalization, which everyone is talking about right now. It is essential to preserving the existence of a peaceful society."

— Silke Müller

Principal of Waldschule Hatten

Waldschule Hatten is a secondary school in northern Germany, with approximately 850 students. Waldschule Hatten takes pride in pioneering the EU Digital Education framework implementation, as well as showing digital leadership through school and staff awards. Indeed, it is one of 16 Smart Schools, awarded by Bitkom (German Association for Information Technology, Telecommunications and

- New Media), and Principal Silke Müller was also announced as the first Digital Ambassador of Lower Saxony ("Digitalbotschafterin Niedersachsens").

- **LOCATION** Northern Germany SOLUTIONS Rugged Combo 3, Crayon, Mevo, Yeti microphone
- **7** All students from class 7 onwards have an iPad
- **16** One of 16 Smart Schools, as awarded by Bitkom (German Association for Information Technology, Telecommunications and New Media)

OVERVIEW

Waldschule Hatten seeks to create a best-in-class experience for students and teachers, following the European Union Education Policy successfully integrating digital tools and edtech to create a creative, focused & fun learning environment for students and educators.

CHALLENGE

As Waldschule Hatten aims to prepare students with skills and digital acumen, they knew they had to start putting that into practice today. But where to start? To prepare students for the careers of the future, it wasn't enough to simply start using digital tools; they needed to holistically integrate technology into learning and teaching experiences. The digital tools needed to feel like natural extensions for both educators and students and they needed to create environments that fostered creativity and provided measurable impact.

SOLUTION

- They started by equipping students and educators with the right base technology. The school made it mandatory for students from grade 7 on to be equipped with an iPad and sourced the right tools to enhance – not hinder – learning. Logitech solutions like the Rugged Combo 3 protective iPad case and the digital pen Crayon enabled students to navigate digital learning apps with ease and precision.
- The Rugged Combo 3 ensures the iPads are well-protected with military-grade drop protection, and ready for action with 5 versatile use modes. The adjustable kickstand and keyboard that folds back supports typing, viewing, sketching, reading, taking photos and more. And thanks to Smart Connector technology, the keyboard connects to the iPad instantly—no pairing required, ensuring students never need to charge the keyboard and providing a secure solution for testing and exams.
- Similarly, the Logitech Crayon enables students to interact with the curriculum with total precision and flexibility. With a smart tip that adjusts line weight with tilt and zero perceptible lag time, everything students write is clear and legible. And a 7.5-hour battery life and fast charging, ensures the Crayon is always ready to go.
- In addition, following an initiative started by the students themselves, Waldschule Hatten created a makerspace equipped with a studio set-up for podcasting and video making, using the Logitech Mevo and Logitech Yeti microphones. Students, with the support of engaged teachers, can use this space for their own projects and to create material for class projects.
- “It's important that educators are brave to experiment; try new things to see what works for you and your students. You can have fun while opening doors to the future.”
