Setup

1. Connect the satellite cable speakers to the subwoofer jack.

2. Connect the power cable to an electrical outlet.

3. Insert the 3.5mm plug of the wired remote control to the audio jack on your device (computer, tablet, smartphone, etc.)

4. Press the ON/OFF button on the remote control to turn on speaker system Z213.
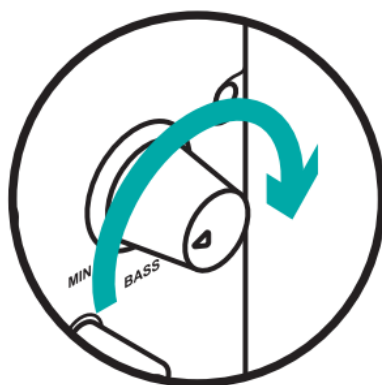

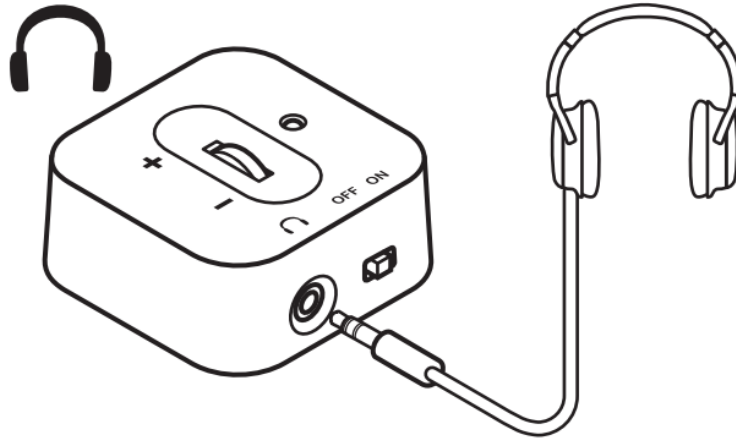

ℹ Functions

Speaker volume adjustment
Adjust the volume level Multimedia Speaker Z213 systems with a special wheel located in the middle of the wired remote control.
LOW
FREQUENCIES

Bass tuning

To adjust the bass level frequencies of the Multimedia Speaker Z213 system, turn the level control low frequencies located on the rear panel subwoofer, clockwise.

Headphone use

Most types of analog headphones with a 3.5 mm plug can be connect to headphone jack on the front of the wired remote control.

When headphones are connected, the sound speaker turns off automatically.

When headphones are connected to Multimedia speaker system Speaker Z213, regulation sound volume is carried out through an audio device (computer, tablet or smartphone). Sound volume in headphones cannot be changed with volume control on wired remote control.
