LOMTAP LPUS010 Backdrop Support System And 65W 5500K Softbox Umbrellas Light Kit

SAFETY PRECAUTIONS

1. Become thoroughly familiar with this product before use. Run through at least one practice assembly and breakdown before you schedule a shoot.
2. Never leave the lighting unsupervised when in use. Keep children or incompetent persons away from lighting equipment.
3. If the power cords show signs of wear or damage, they should be replaced or repaired by a qualified electrician before use.
4. Wait until the bulbs are completely cool before touching or removing them.
5. Never use it in a wet environment. Never let the product touch the water.
6. Never touch the product when your hands are wet.
7. Never move the appliance by pulling the cord. Make sure the cords do not come in contact with bulbs. Do not wind the cord around the appliance.
8. Place stands/tripods on a flat surface to prevent toppling.
9. Do not touch the metal parts near the bulbs while in use, these parts may become very hot.
10. Do not let the umbrella touch the light bulb when in use. Light bulbs will get hot and can ruin the softbox or start a fire.
11. Remember to turn off the power switch before replacing the lamp.

HOW TO REMOVE POLYESTER CREASES

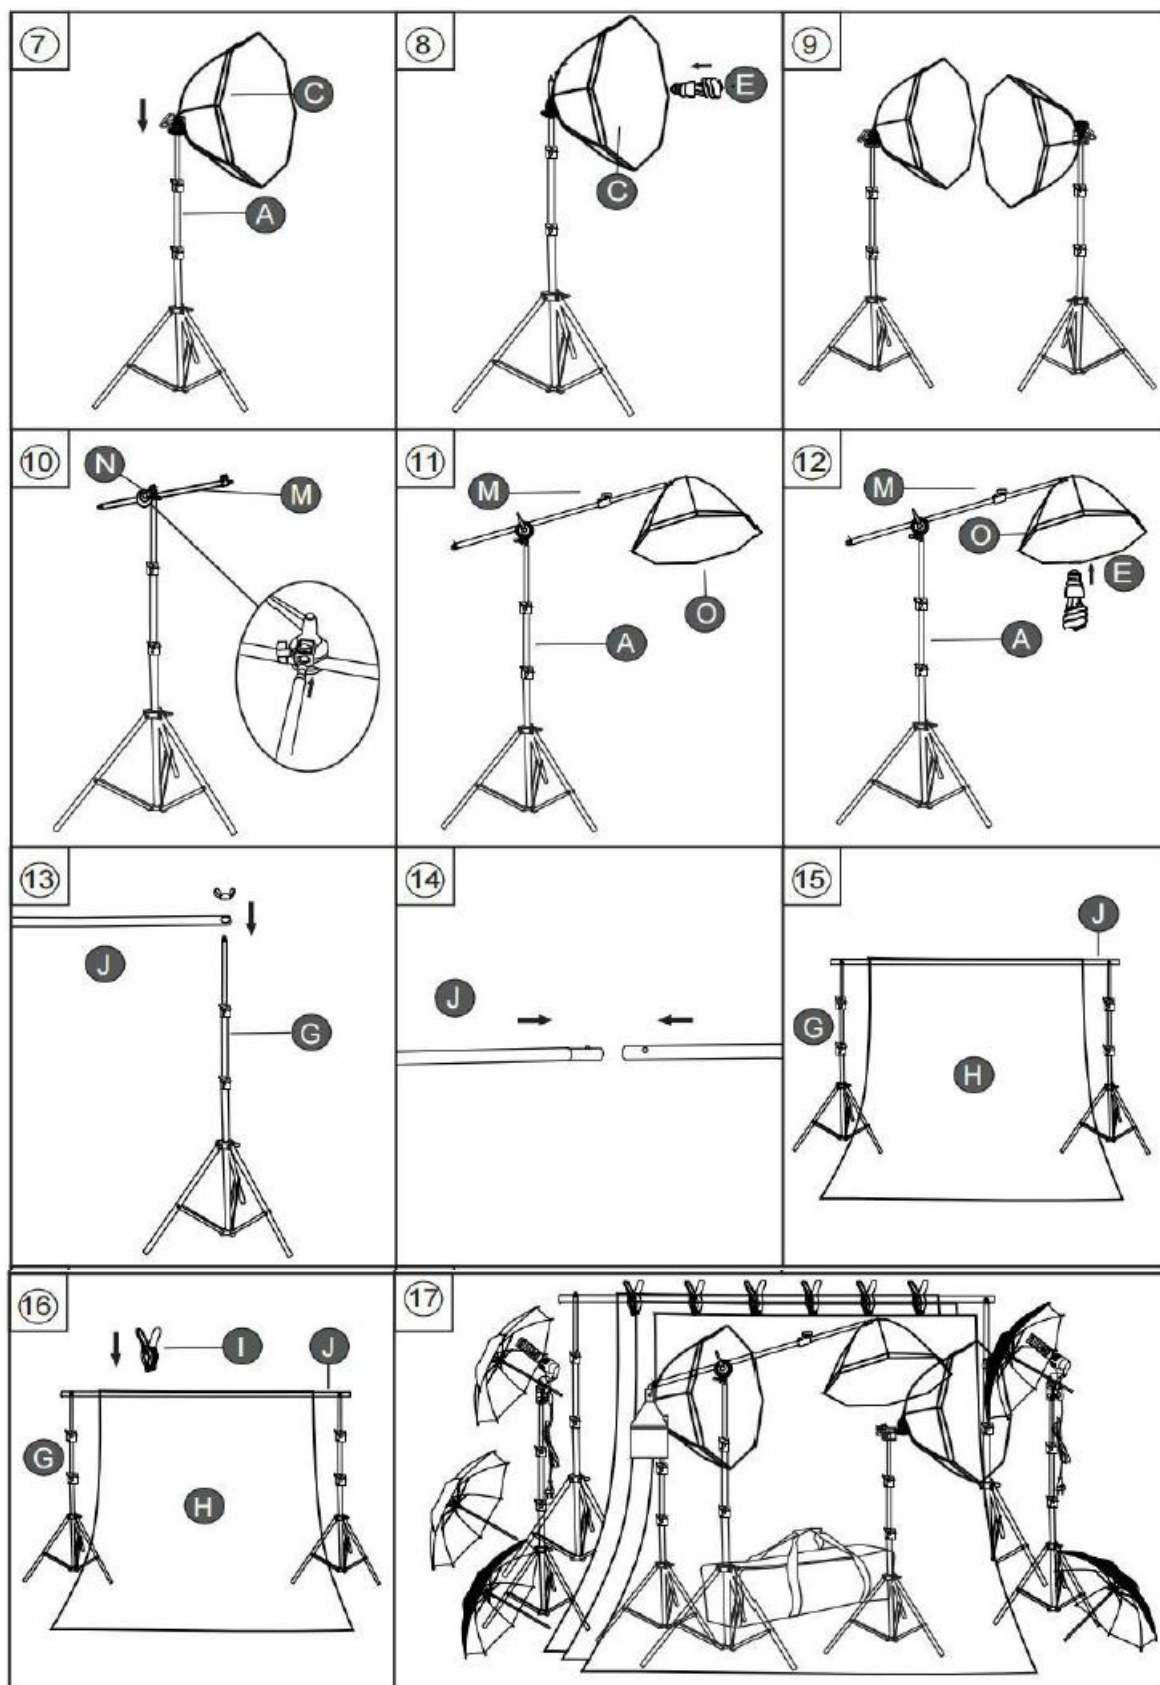

- Firstly, place the polyester fabric on the flat and hard stuff, and spread it flat.
- **Tips:** Usually, this processing method is for the hydrophilic polyester fabric.

- Secondly, find a wet towel and wipe the fabric gently.
- **Note:** Do not make the towel too wet, wipe the wrinkles several times with the towel.
- Thirdly, find something that sizes almost like the polyester fabric, such as a bed sheet, and press it on the fabric.
- **Tips:** You can put all hydrophilic polyester fabrics together to save time and effort. It might need to press one day or half a day.
- **Note:** It is not recommended that you wash the fabric, the colour will not be as bright as before after washing. Do not iron the polyester fabric, it may scorch.
