Lonsdor K518 PRO All in One Key Programmer

Specifications

- Product Name: K518 PRO All-in-One Key Programmer
- Software/Hardware Advantages:
  - Trendy tablet design with support frame, better user experience
  - Based on Android 8.1, a more optimized operation experience
  - CPU with Quad-core Cortex-A35, stronger computing power
  - Excellent and powerful ultra-high energy consumption ratio
  - The first to support 8A(H chip) chip generation
  - Added support for CANFD and Ethernet protocols
- Function Superiority:
  - More comprehensive functions and features based on K518
  - Wide model coverage, luxury, domestic, and popular cars are all supported
  - Programming directly via OBD, no need for networking and PIN code for most models
- Product Parameters: N/A
- Product List:
  - Portable Bag – Qty 1
  - Main Host – Qty 1
  - OBD II Cable – Qty 1
  - 12V Power Adaptor – Qty 1
  - Type-C USB Cable – Qty 1
  - Simu-Antenna – Qty 1
  - User Manual – Qty 1
  - Certificate – Qty 1
  - Extra Connector – Qty 3

Product Usage Instructions

Registration Guide

Note: after booting the device, please set and connect WiFi well, then go through the registration and activation process.

New user

1. For the first use, please prepare an available mobile phone or E-mail to help finish device registration and activation, click OK to start;
2. Boot the device and enter the registration & activation process;
3. Enter your name, password, mobile number, or E-mail to get the verification code, then enter the code and submit registration;
4. The new account is registered successfully, set the device's power-on password;
5. Submit the info, apply for binding the account to the device;
6. Verified by the server, successful registration;
7. Initialize menu, etc;
8. Reboot and enter the device system.

Registered user

9. For the first use, please prepare the corresponding mobile phone or E-mail of the registered account to help finish device registration and activation, click OK to start;
10. Boot the device and enter the registration & activation process;
11. Enter the registered mobile number or E-mail to get the verification code, then enter the code and submit the login;
12. Account login successful, set the device's power-on password;
13. Submit the info, apply for binding the account to the device;
14. Verified by the server, successful registration;
15. Initialize menu, etc;
16. Reboot and enter the device system.

Introduction

Product Name: K518 PRO All-in-One Key Programmer

Software/Hardware Advantages

- Trendy tablet design with support frame, better user experience
- Based on Android 8.1, a more optimized operation experience
- CPU with Quad-core Cortex-A35, stronger computing power
- Excellent and powerful ultra-high energy consumption ratio
- The first to support 8A(H chip) chip generation
- Added support for CANFD and Ethernet protocols

Function Superiority

- More comprehensive functions and features based on K518
- Wide model coverage, luxury, domestic, and popular cars are all supported
- Programming directly via OBD, no need for networking and PIN code for most models

FAQ

- **Q:** How do I register and activate the device?
- **A:** Please refer to the "Registration Guide" section in the user manual for detailed instructions on registration and activation.
- **Q:** What is the software/hardware advantage of K518 PRO?
- **A:** K518 PRO has a trendy tablet design, based on Android 8.1, and comes with a powerful CPU for optimized operation experience. It also supports 8A(H chip) chip generation and CANFD and Ethernet protocols.
- **Q:** Can I program keys directly via OBD?
- **A:** Yes, you can program keys directly via OBD without the need for networking and PIN code for most models.

13. Submit the info, and apply for binding the account to the device;
14. Verified by the server, successful registration;
15. Initialize menu, etc;
16. Reboot and enter the device system.

Product Overview

Introduction
Product Name: K518 PRO All-in-One Key Programmer Product Description: K518 PRO, as 2nd generation of K518 launched by Lonsdor, is a fast, easy-to-use, and ultra-portable immobilizer and key programming device. The Android-based touchscreen tablet features a powerful quad-core processor, an intuitive design, and a straightforward interface. Integrated with all features of its predecessor, K518 PRO adds more advantageous functions, including immobilization, odometer adjustment, remote/smart key generation, adaptor, chip identify and copy, key chip generation, frequency detection, ignition coil detection, Toyota smart key settings, one-key update, push function, etc.

Software/Hardware Advantages

- Trendy tablet design with support frame, better user experience;
- Based on Android 8.1, more optimized operation experience;
- CPU with Quad-core Cortex-A35, stronger computing power;
- Excellent and powerful ultra-high energy consumption ratio;
- The first to support 8A(H chip) chip generation;
- Added support for CANFD and Ethernet protocols.

Function Superiority

- More comprehensive functions and features based on K518;
- Wide model coverage, luxury, domestic, and popular cars are all supported;
- Programming directly via OBD, no need for networking and PIN code for most models.

Product Parameters

- **Operation system:** Android 8.1
- **Processor:** Rockchip PX30
- **Memory:** Ram 2G flash 8G
- **Display:** MIPI 800*1280
- **WiFi:** IEEE 802.11b/g/n
- **USB:** USB2.0
- **Bluetooth:** 5.2
- **SD Card:** support plug and unplug
- **Battery:** 5800mA
- **Input Voltage:** 12V
- **Shell Material:** PC hard shell+TPR60°
- **Dimension:** 26* 3 *16CM

## Function Display

K518 PRO Home Interface

Function	Description
Immo & Remote	Program mechanical key/smart key/remote and other functions. Support a vast majority of vehicle models on the market, regularly add new models
Odometer adjustment	Mileage diagnosis and correction for some models
Generate remote/smart key	Support smart key generation for some models, remote generation for most vehicle models, and garage door remote generation
Adapter	Read and write the EEPROM chip/CPU main control chip, read the EEPROM Pin code, etc.
Special functions	Include functions: identify and copy key chip, generate key chip, detect remote frequency, simulate chip, decode chip, detect IMMO coil, key settings, access control card, etc
Push Functions	Push the designated function program to the user, which will be automatically disabled when expires. Contact us to acquire functions not opened or not activated yet
OBD Illumination	OBD cable connector's light can be switched on/off
Aftersales feedback	Users can feedback on problems encountered by us
Aftersales feedback message board	On the message board, users can see our replies to all the questions after giving feedback, and inquiry further if any doubt

K518 PRO Special Functions Interface

Function	Description
Generate key chip	Support 4D, 46, 48, 7935, 8A and more chips to generate specific car key chips
Identify/Copy chip	Identify key chip info and status of almost all cars on the market
Remote	Detect the frequency of remote key
Simulate chip	Mainly LKE functions, include: simulating 4D/46/8A chip, binding LKE and obtaining LKE info, etc
Decode chip	Support 46 and 4D chip decoding
IMMO coil	Detect if immo coil has signal, and identify key type in AKL situation as well
Key settings	Set Lonsdor 8A and 4D smart key type
Unlock key	Unlock Toyota 8A smart key

K518 PRO System Settings Interface

Function	Description
Wifi settings	Set WIFI connection
Ethernet	Display Ethernet card status, network connection status, MAC/IP address, etc
Bluetooth settings	Set Bluetooth connection status
Brightness and sound	Set screen brightness and auto-off screen time
Start record	Click to start recording or close the demo video
Device info	View device ID, PSN, hardware/kernel version, and other info
Screen test	Screen touch diagnosis
Firmware upgrade	Include APK update, kernel upgrade, etc
Reset device	Reset the device, situations like program error, system crash, or communication failure, can be returned to normal state
File manager	View and manage files
Network test	Test network when it is unstable

K518 PRO Function Operation Interface

Function	Illustrate each function and the necessary tips for certain functions
Operation	Give concrete guide for each step, pics and notices attached if necessary
Attention	Emphasize tips and notices for functions, as well as user possible overlook during operation which may cause program failure
Reference	Provide the basic information like chip type, frequency, key embryo no. , PIN code requirement, car photo, OBD position, and other related info
QR code	Scan the QR code to view HELP instructions while programming the key
Demo	Demo record and user record process
Feedback	Feedback function problems in time
Version	Detect the latest version of the current interface function

Aftersales Service

1. Our company will provide you with superior after-sales service and warranty service within the agreed time.
2. The warranty period lasts 12 months from the device activation date.
3. Once the product is sold, a return and refund are not acceptable if no quality problem.
4. For product maintenance beyond the warranty coverage, our company will charge labor and material costs.
5. If the device breaks down or gets damaged due to any of the following reasons, our company reserves the right not to provide service based on the agreed terms(but you can choose paid service):
   - The entire device and components are beyond the warranty period;
   - The product surface is found flawed or damaged due to user operation(not quality problem);
   - Counterfeit, without a certificate or invoice, our official back-end system can not authenticate the device info;
   - Damages due to failure to follow the instructions on operation, use, storage, and maintenance in this manual;
   - Damages and faults caused by private disassembly or by improper repair and maintenance of the maintenance company unauthorized by Lonsdor;
   - Liquid inflow, moisture, falling into water, or mildewing;
   - The newly purchased device works normally without any damage when unpacked for the first time. But with prolonged time of use, screen damage occurs, such as screen explosion, scratching, white spots, black spots, silk thread screen, touch damage, etc.
   - Damage by using specific tools and accessories not provided by our company;
   - Force Majeure;
   - For the man-made damaged device, if you choose no repair service after we disassemble it and make a

quotation, the device appears unstable conditions(such as boot failure, system crash, etc) when you receive it;

- Private cracking of the system causes function changes, instability, quality damage, etc.

6. If the auxiliary parts and other parts(other than the main components of the device) are faulty, you can choose the paid repair service provided by our company or our authorized customer service outlets.

7. Our company will perform a repair after receiving your device and confirming its problems, so please fill in the problems in detail.

8. After the repair is finished, we will return the device to you, so please fill in the correct delivery address and contact number.

9. Customers who need to send the device for repair shall bear the cost such as round-trip delivery cost, transportation cost, etc. If the device gets damaged in the process of delivery, our company shall not bear correlative fees. In particular cases, we will assist the customer in claiming compensation against the shipping company.

10. Our company does not provide sales invoices to individuals in any form. Please ask the dealer you purchased from to invoice you if required.

11. Please keep the warranty card properly, and fill in the card when returning your device for repair, so that we can go through the relevant work procedure(the warranty card attached to the end of the manual).
