LOREX ACCHM2 Series WiFi Chimebox

Product Information

The ACCHM2 Series Wi-Fi Chime is a power plug device that functions as a wireless doorbell chime. It can be connected to your home's Wi-Fi network and paired with compatible Lorex doorbell cameras or sensors. The chime emits audible alerts when someone rings the doorbell or when a sensor is triggered, providing you with instant notifications.

Key Features

- Wi-Fi connectivity for easy integration with your home network
- Supports pairing with Lorex doorbell cameras and sensors
- Audible alerts for doorbell rings and sensor triggers
- Reset button for device troubleshooting and factory reset
- Status indicator to display the device's current operational status

*Device malfunction: In case of any issues with the device's functionality, please refer to the troubleshooting section in the user manual or contact customer support for assistance.

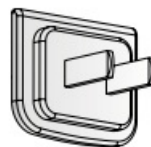

Product Usage Instructions

1. Scan the QR code provided in the user manual to download and install the Lorex Chime app on your smartphone or tablet.
2. Locate the release tab on the chime and slide it to remove the cover.
3. Attach the power plug to the chime and then plug it into a standard power outlet.
4. If needed, insert a microSD card into the slot for local storage of event recordings (optional).
5. Press and hold the reset button for 10 seconds to perform a factory reset (if required).
6. The status indicator will light up to indicate the chime is powered on and ready for setup.
7. Follow the in-app instructions or refer to the user manual to connect the chime to your Wi-Fi network and pair it with your Lorex doorbell camera or sensor.
8. Once connected, you can customize the chime settings, such as volume levels and alert tones, through the Lorex Chime app.
