**LOREX N910 Series Camera Capable**

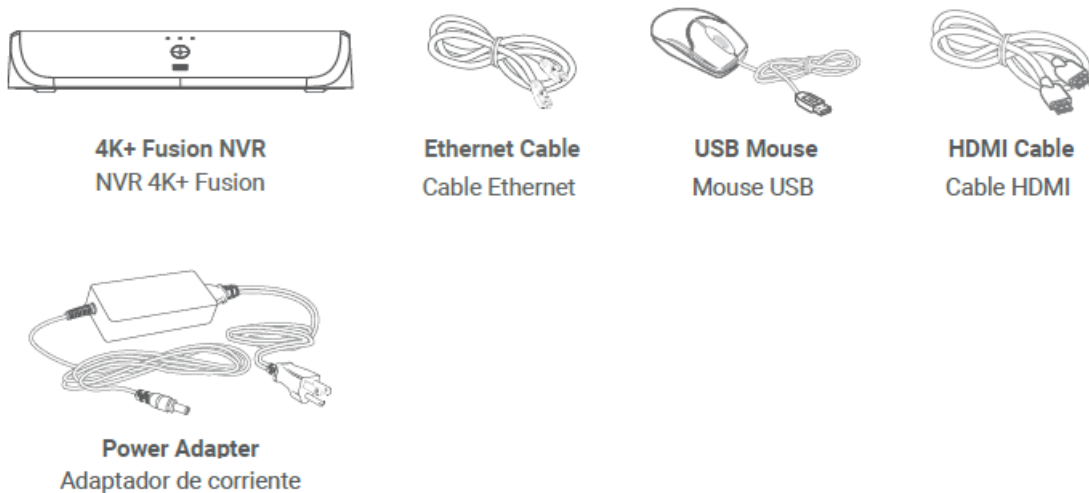

## Product Information

- The N910 Series is a line of surveillance products offered by Lorex.
- This series includes the 4K+ Fusion NVR, which is a network video recorder designed for high-resolution surveillance footage.
- The NVR supports USB connectivity, HDMI output, and VGA output for connecting to external devices such as TVs. It comes with a USB mouse for easy navigation and control.
- The package includes a power adapter for powering the NVR, ensuring continuous operation.
- The Lorex Setup Wizard assists users in setting up the device, including network configuration. The NVR also supports remote monitoring through the Lorex Home app, which can be downloaded and installed on compatible smartphones or tablets.
- For more information or assistance with the product, users can visit [help.lorex.com/N910](https://help.lorex.com/N910) or [lorex.com/fusion](https://lorex.com/fusion). The product is covered by Lorex's warranty, details of which can be found at [lorex.com/warranty](https://lorex.com/warranty).

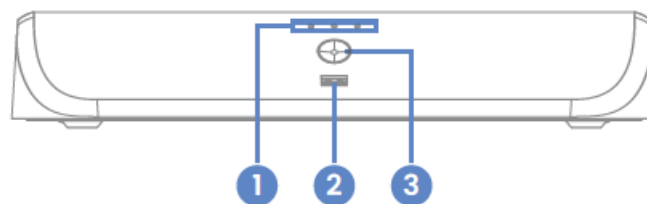

## Product Usage Instructions

1. Connect the included USB mouse to the USB port on your recorder. This will enable you to navigate and control the NVR.
2. If you need to copy events or perform a firmware update, connect a USB flash drive to one of the USB ports on the NVR.
3. Use the included HDMI cable to connect your recorder to your TV. The HDMI port supports up to 4K resolution, while the VGA port supports up to 1080p resolution.
4. Plug the included power adapter into your recorder and a power outlet. Follow the instructions provided by the Lorex Setup Wizard, especially the Network Setup section when prompted.
5. To use the Lorex Home app for remote monitoring:
  1. Open the Lorex Home app on your smartphone or tablet.
  2. Under your recorder, swipe left to find your Fusion Wi-Fi camera.
  3. Tap on the camera to access its settings.
  4. To prevent duplicate notifications, turn off alerts for the Fusion Wi-Fi camera and save the changes.

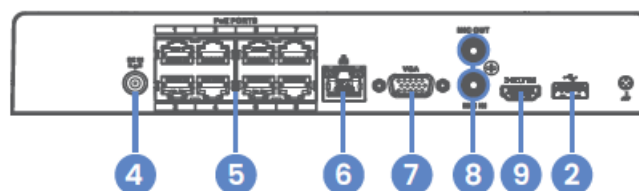

## What's Included

## Recorder Overview

## Back

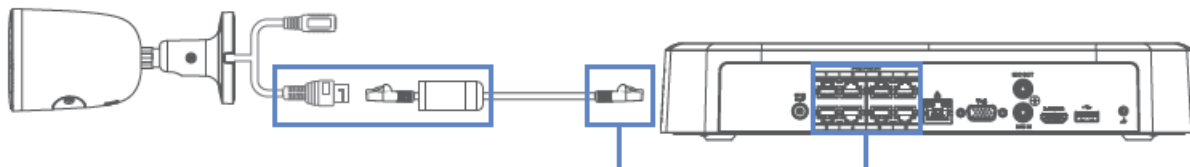

1. Hard Drive, Power & Network Statuses
2. USB Port
3. Info/Panic Button

4. Power Connection
5. Camera Connection (PoE)
6. Network Connection (LAN)
7. Monitor Connection (VGA)
8. Audio Out/In
9. Monitor Connection (HDMI)

## Connect Your Wired Camera

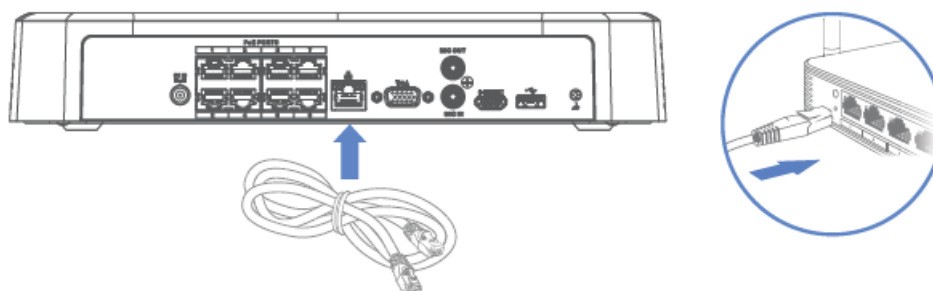

- Connect your camera directly to your recorder using the camera's Ethernet extension cable.

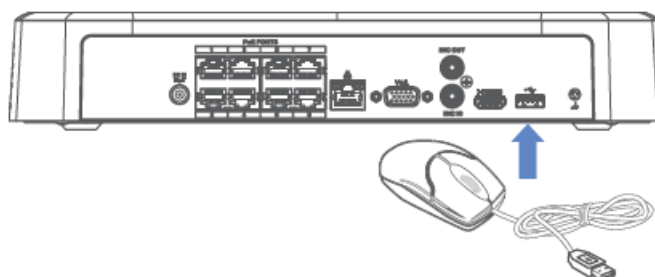

## Setup Your Recorder

1. Connect your recorder to your Wi-Fi router using the included Ethernet cable.

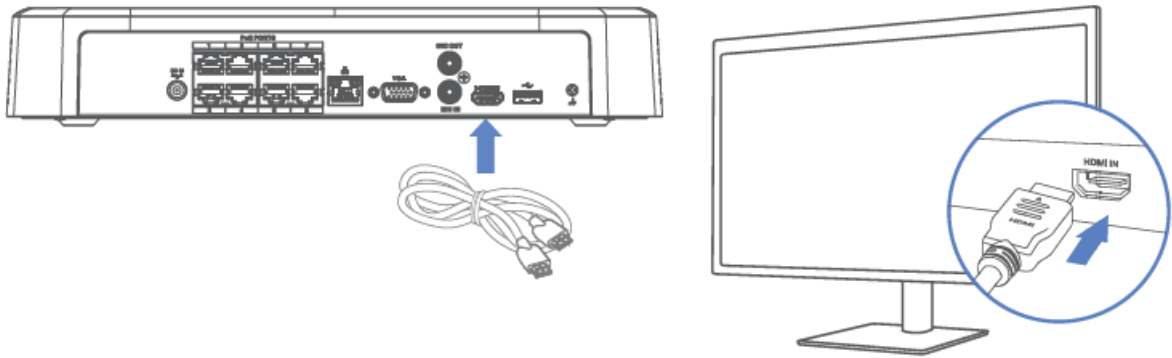

### Required for Fusion Setup

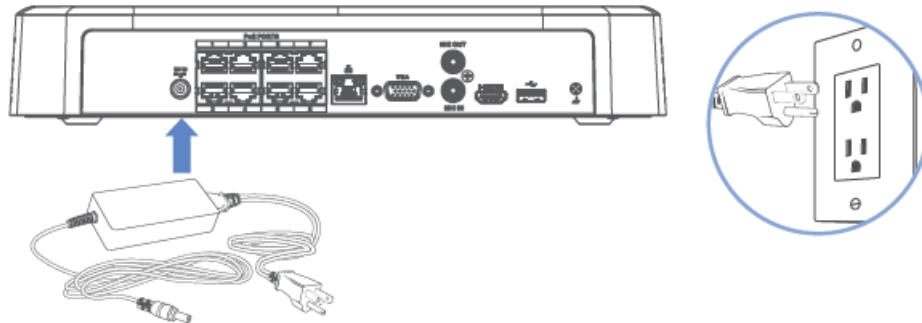

2. Connect the included USB mouse to the USB port on your recorder. To copy events or to perform a firmware update, connect a USB flash drive.

3. Connect your recorder to your TV using the included HDMI cable. The HDMI supports up to 4K resolution and VGA supports up to 1080p.

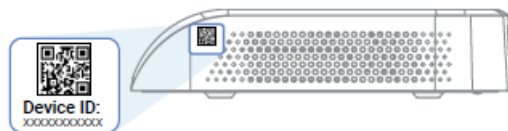

4. Connect the included power adapter to your recorder and a power outlet. Complete the Lorex Setup Wizard and select Network Setup when prompted.

## Download the Lorex Home App

To enable remote viewing, ensure that you:

- Have high-speed Internet
- Have an upload speed of 6 Mbps for one 4K+ channel and at least 24 Mbps for the whole system
- Locate your recorder's Device ID QR code

To connect your recorder to the app:

1. Download

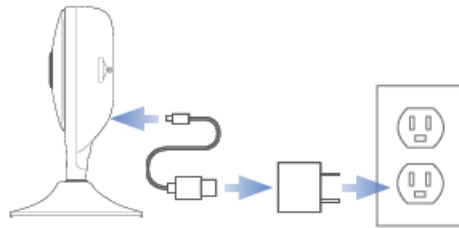

2. Tap

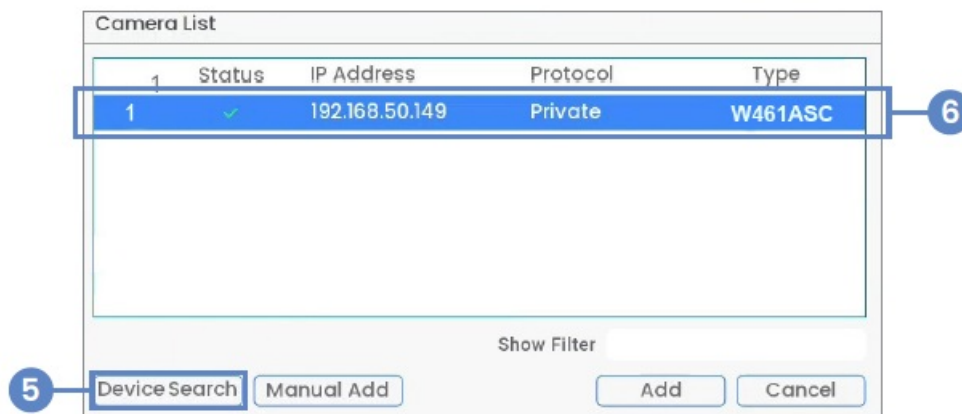

## Connect Your Fusion Wi-Fi Camera

Ensure your Fusion Wi-Fi camera and recorder are connected to the same Lorex Home app account and network.

1. Turn your Fusion Wi-Fi camera on.
2. Open
3. Tap +

- Save your newly created Fusion Wi-Fi camera password for later.
4. From your recorder's Live View, click on a channel +
  5. Click / Cliquez sur / Hacer clic Device Search.
  6. Double-click your Fusion Wi-Fi camera.

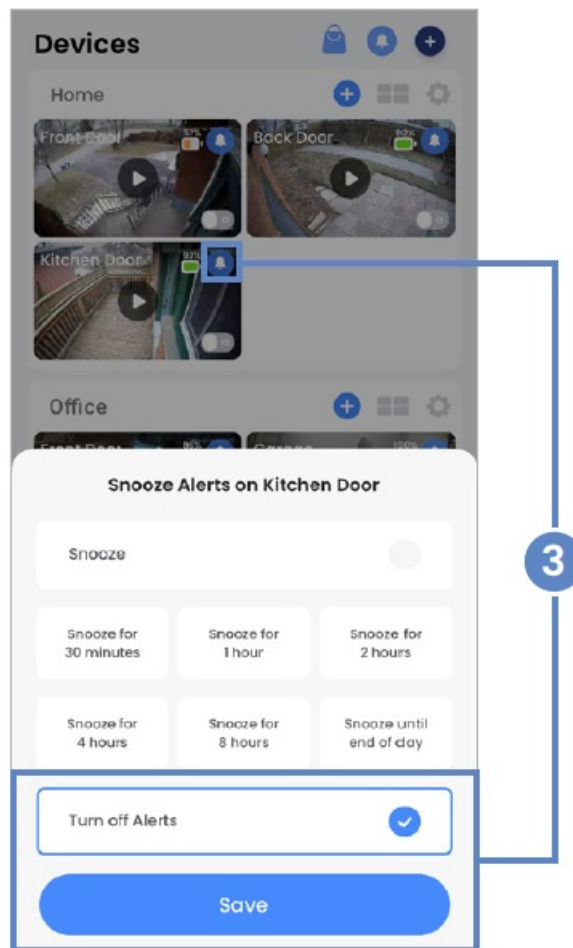

7. Enter your Fusion Wi-Fi camera's password created in-app.
  8. Give your Wi-Fi camera a few minutes to establish a connection.
- **Note:** You can add up to 8 Lorex Fusion Wi-Fi devices.

## Managing Your Notifications

After setup, your Fusion Wi-Fi camera is connected to the app twice. Turn off your camera's alerts to prevent getting the same notification twice.

1. Open
2. Under your recorder, swipe left to find your Fusion Wi-Fi camera.

3. Tap  Turn off Alerts > Save.
