Amplifier with BLUETOOTH function

**AMPLIFIER WITH BLUETOOTH
OPERATING INSTRUCTIONS**

WARNINGS

EXPLANATION OF SIGNS

The triangle containing a lightning symbol is used to indicate whenever your health is at risk (due to electrocution, for example).

An exclamation mark in a triangle indicates particular risks in handling or operating the appliance.

 Accordance with the requirements of UK standards

 Class II protection without earth connection

 The product is for indoor use only
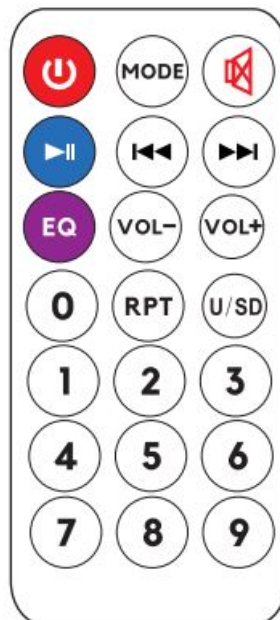

Important Safety instructions and danger warnings

- Please read these instructions carefully, they include important information about the installation, usage and maintenance of this product.
- Please keep this User Guide for future reference. If you sell the unit to another user, be sure that he also receives this instruction booklet.
- Always make sure that you are connecting to the proper voltage, and that the line voltage you are connecting to is not higher than that stated on the decal or rear panel of the fixture.
- This product is intended for indoor use only!
- To prevent risk of fi re or shock, do not expose fixture to rain or moisture. Make sure there are no flammable

materials close to the unit while operating.

- The unit must be installed in a location with adequate ventilation, at least 20in (50cm) from adjacent surfaces. Be sure that no ventilation slots are blocked.
- Always disconnect from power source before servicing.
- Maximum ambient temperature (Ta) is 104° F (40°C). Do not operate the fixture at temperatures higher than this.
- In the event of a serious operating problem, stop using the unit immediately. Never try to repair the unit by yourself. Repairs carried out by unskilled people can lead to damage or malfunction. Please contact the nearest authorized technical assistance center. Always use the same type of spare parts.
- Make sure the power cord is never crimped or damaged.
- Avoid direct eye exposure to the light source while it is on.
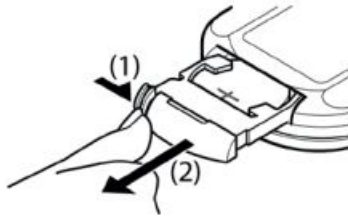

DISCONNECT DEVICE: Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

11. U/SD: Press this key to quickly go to USB/SD input mode.

INSTALLING THE BATTERIES IN THE REMOTE CONTROL

- Place the remote face down on a flat surface.
- Push the compartment cover into the direction of the arrow.
- Slide the battery compartment open.
- Remove the old battery and install the new one (CR2032) with the plus (+) symbol facing up.
- Gently slide the battery compartment closed. It locks automatically.
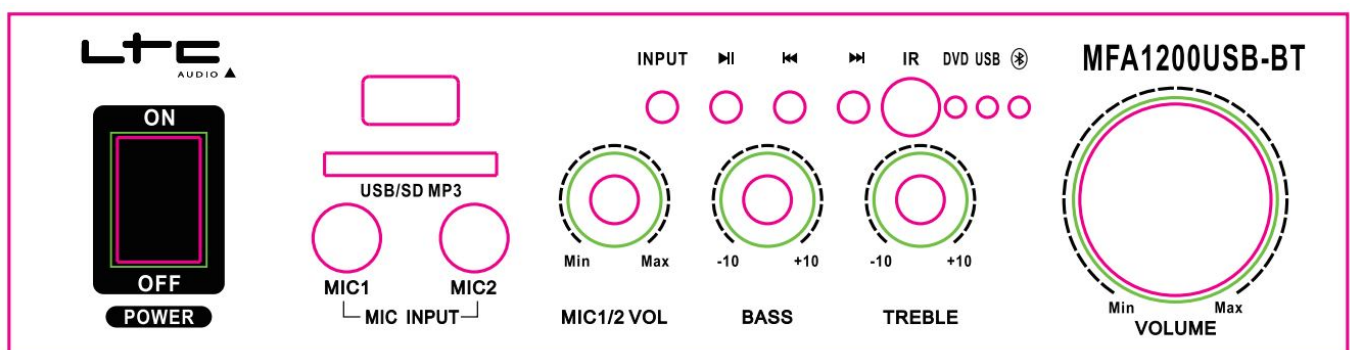

RECOMMENDATIONS FOR BATTERIES

 This symbol indicates that used batteries should not be disposed of with household waste but deposed correctly in accordance with your local regulations. Batteries shall not be exposed to excessive heat such as sunshine, fire or the like. When the internal batteries are not to be used, remove them to avoid damage caused by battery leakage or corrosion.

ATTENTION: Danger of explosion if battery is incorrectly placed. Only replace by the same or equivalent type.

The supplied remote control contains a button cell. In case of ingestion, it might cause serious internal burns within only 2 hours that might lead to death. Keep new and old batteries out of the reach of children. If you are in doubt whether the batteries have been swallowed or introduced into any other part of the body, contact immediately a doctor

OPERATION

- Select a central location for the amplifier.
- Connect the speaker wires (red & black) to the + and – terminals on the rear panel of the amplifier.
- Connect the audio signal to the relevant sockets with the correct polarity.
- Plug the mains lead in and switch the amplifier on once you have checked all connections.
- Switch the audio sources on and adjust the master volume to the required level.
- Karaoke: Plug a mic into MIC1 or MIC2 socket on the front panel. Before you use the mic, make sure that it is switched off and the MIC volume button is set to the minimum. Connect the microphone, switch it on and adjust slowly the volume and the echo.
- If you don't use the unit any longer, switch the amplifier off and disconnect it from the mains.

Signal Sources and their Connections:

- Connect a DVD-player or a CD-player to the terminal AUDIO INPUT or a data storage unit to the USB-interface or insert a SD-memory card in the suitable slot or activate the Bluetooth function on your smartphone.
- Select the active signal source by pressing the INPUT button until the desired input source is displayed.
- Use the MP3 CONTROL-function for controlling the files on a connected data storage unit.
- If you wish to use the karaoke function of this device, insert one or two microphones into MIC1 and MIC2. Their signals are going to the signal output too.

BLUETOOTH CONNECTION

The MFA1200USB-BT is only discoverable when the input selected is Bluetooth. After selecting Bluetooth input mode on the MFA1200USB-BT, turn on the Bluetooth function on the cell phone and search the MFA1200USB-BT. Its Bluetooth device name is "MFA1200USB-BT". Pair and connect after search. There is no pairing code.
