- Point number: 19 79 1/24/30
- EAN code: 54 11212193896
- Dimensions LxWxH: 25.4 cm x 53.2 cm x 180 cm
- Main material: metal
- Color: Black
- Style: Modern
- Weight: 4.90 kg

## Product usage instructions

### safety instructions:

- This article is only suitable for indoor use, except for the bathroom (unless a higher IP rating allows the use of the bathroom).
- Legislation requires that all electrical and electronic equipment must be collected for reuse and recycling. If this item is marked with the recycling symbol, it must be returned to a municipal waste bin.
- Class I: This element has an earth connection. The green-yellow earth wire must be connected to the earth connection symbol.

- Class II: This element is double insulated and does not need to be connected to the earth wire.

**Installation Instructions:**

Please refer to the installation drawing specifications available on our website for detailed instructions on the installation of the ZENITH product.

**Technical drawing & dimensions:**

For more specifications or dimensions of ZENITH product, please visit our website.

Thank you for purchasing a Lucide Original!

- IP class: 20
- Electrical class: 1
- Number of light sources: 1

- Lamp Socket: Integrated LED
- Maximum wattage: 20 op
- Power requirements: 220-240V ~ 50Hz Lumen: 1600Lm
- Color temperature: 3000K
- Color rendering index: 80☺
- Expected lifetime: 15000h
- Warranty: 3 years

## TECHNICAL DRAWINGS & DIMENSIONS

## INSTALLATION DRAWING SPECIFICATIONS

## Safety instructions

- Please read this note carefully and keep it throughout the life of this product. Follow the instructions for safe and correct installation and operation of the light. The manufacturer assumes no responsibility for damage caused by incorrect installation and service.
- Installation should always be done by a qualified electrician.
- Always isolate the power before starting installation, maintenance or repair.
- If in doubt, please contact a qualified electrician.
- Please pay attention to places where the item can be installed (indoor, outdoor, bathroom (for outdoor and bathroom installation, please see below). Indoor items cannot be used in humid places. Do not put the item in contact with water or any liquids or flammable products.⚠
- Always respect the minimum distance (indicated on the light) to flammable products.
- During installation, make sure that the cables are not pinched or damaged by sharp edges. If the external flexible cable is damaged, it must be replaced exclusively by the manufacturer, its service agent or a qualified electrician.
- This is to avoid any risks.
- As the temperature of the item in the bulbs can become very high, they must cool before being touched. Always use the correct bulb (respective type and maximum wattage as indicated on the product).

## Explanation of the symbols that may appear on the fixture

This article is only suitable for indoor use, exclusively bathrooms (unless a higher IP rating allows the article to be used in the bathroom).

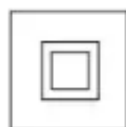

Legislation requires that all electrical and electronic equipment must be collected for reuse and recycling. Electrical and electronic equipment marked with this symbol, which indicates a separate collection of such equipment, must be returned to a municipal waste collection point.

Class I: The article has an earth connection. The earth wire (green-yellow) must be connected to the earth connection (marked with this symbol).

Class II: The element is double insulated and does not need to be connected to the earth wire.

Class III: The article is only suitable for low voltage supply and must not be connected to the earth wire.

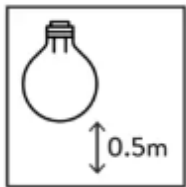

IP 20: protection against contact with a finger

If the protective glass is damaged or broken, it must be replaced immediately.

Please respect the minimum distance from the light bulb to flammable objects.

Further explanations can be found on our website. [www.lucide.com](http://www.lucide.com)
