UNLOCK CREATIVE POTENTIAL

Since 2014, we've been dedicated to empowering creators, storytellers and entrepreneurs with premium personal lighting solutions to unlock creative potential. Thank you for letting us be a part of your process. Together, let's illuminate the world with new ambitions and inspire a culture of more making, less waiting.

LET'S GET STARTED

INSPIRE THE COMMUNITY

Shed some light on your work and showcase what's possible.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body

WE GOT YOUR BACK

1 Year Warranty

We believe in building quality products that you can rely on. That means if something's not right, we will repair or replace any unit that shows any sign/s of defects relating to materials or workmanship within one year of purchase.

Lume Care Protection Plan

- Add a Lume Care Protection Plan to extend the warranty period for an additional year and protect your investment from accidental damage.
- For additional details visit help.lumecube.com or scan the QR code.

Frequently Asked Questions

1. What should I do if the wireless charger is not working?

If the wireless charger is not working, make sure the lamp is properly connected to a power source and that the Qi-compatible product is correctly placed on the charger.

2. How do I reset the color temperature and brightness settings?

You can reset the color temperature and brightness settings by turning the lamp off and then back on again. This will reset the settings to their default values.

3. How can I know if the timer function is activated?

When the timer function is activated, the light will breathe or pulse to indicate its status. You can also check the user manual for specific indicator details.
