Lumipets 7326 Owl Remote-Control Night Light

INTRODUCTION

The Lumipets 7326 Owl Remote-Control Night Light is a charming, soft-glow companion that is ideal for nurseries and children's rooms. Say hello to calm evenings and happy bedtime rituals. This owl-shaped silicone night light from LumiPets is as useful as it is adorable, and it only costs **\$17.44**. It was introduced to provide warmth and security to children's sleeping spaces. It has three auto-off settings (15, 30, or 60 minutes), nine calming hues, and a remote control for easy use. Even when handled by youngsters, it is safe and long-lasting due to its squishy, BPA-free silicone design. For comfortable overnight use, the integrated USB rechargeable battery provides up to 12 hours of mild illumination. This nightlight gives your child's evening routine a magical touch, whether it is positioned on a bedside table or held as a cuddly glow companion. LumiPets is a must-have sleep aid for both boys and girls since it blends fun and usefulness.

- During the color fade, press set to select your choice of color and brightness.
- When Bluetooth is connected, press quickly to play the next song. Press and hold to turn the volume up.
- When Bluetooth is connected, press quickly to play the previous song. Press and hold to turn the volume down.

CAUTION

1. Do not disassemble the internal device by yourself, so as not to damage the parts.
2. When not using the lamp for long periods of time, keep it in a dry environment.
3. Choking hazard- The Remote insert could come loose. Remotes should be used under supervision only.

TROUBLESHOOTING

Issue	Possible Cause	Suggested Solution
Night light won't turn on	Battery depleted or not charged	Recharge using the USB cable provided
Remote not working	Remote battery drained	Replace battery in the remote
Colors not changing	Remote not synced or sensor unresponsive	Reset device and try using manual touch mode
Timer not activating	Incorrect timer selection	Check timer setting on remote
Flickering light	Low battery charge	Recharge fully before use
Dim or weak light output	Battery running low	Recharge for optimal brightness
Touch sensor unresponsive	Silicone surface dirty or sticky	Clean surface gently with a damp cloth
Light shuts off suddenly	Auto-timer may be set	Adjust timer setting via remote
Charging indicator not working	Loose USB connection or cable issue	Ensure cable is plugged in firmly and try another port

Issue	Possible Cause	Suggested Solution
Night light heating up	Prolonged use or faulty battery	Stop use immediately and contact manufacturer

PROS & CONS

Pros

- Soft silicone body is safe and huggable for kids
- Remote-controlled with adjustable timer settings
- Colour-changing feature with 9 soothing hues
- Rechargeable battery lasts up to 12 hours
- Compact, lightweight, and travel-friendly

Cons

- Limited brightness for larger rooms
- Remote may require frequent battery changes
- No manual dimming option
- Must recharge after 12 hours of use
- Only one light source, not replaceable

WARRANTY

The Lumipets 7326 Owl Night Light is backed by LumiPets' standard limited warranty, typically covering defects in materials or workmanship for 12 months from the date of purchase. This warranty ensures peace of mind for parents, guaranteeing a quality product that's built to last through bedtime routines, travels, and toddler play. Users are encouraged to retain proof of purchase and contact customer service directly for troubleshooting, returns, or replacements under warranty terms.

FREQUENTLY ASKED QUESTIONS

What material is the LumiPets 7326 Owl Remote-Control Night Light made from?

The LumiPets 7326 is made from soft, durable silicone rubber that is safe, non-toxic, and resistant to heating even after hours of use.

How many color modes does the LumiPets 7326 Owl Night Light offer?

The LumiPets 7326 features 9 soothing soft color options, helping children relax and fall asleep peacefully.

How is the LumiPets 7326 Owl Night Light powered?

This model is battery-powered and rechargeable via USB. It includes a built-in lithium-ion battery and a charging cable.

How long does the battery of the LumiPets 7326 Owl Night Light last?

On a full charge, the battery lasts approximately 12 hours of continuous illumination.

Can the LumiPets 7326 Owl Night Light be used without the remote?

Absolutely. You can press or tap on the squishy surface to manually cycle through the light colors.

Does the LumiPets 7326 include an automatic shut-off feature?

It has a sleep timer with three preset options: 15, 30, or 60 minutes for auto shut-off.

What should I do if the LumiPets 7326 Owl Night Light does not charge?

Ensure the USB cable is properly connected and try another charging port. If the problem continues, inspect the cable or adapter for faults.
