## **Before Using the Pillows: FIRST STEP**

With billions of tons of packaging waste populating landfills across the world, here at Lunix, we understand the importance of sustainability in packaging and we are trying to provide environment friendly options in order to reduce our carbon footprint.

That's why the Lunix Wedge Pillow System is compressed to use 60% less cardboard. This process does not affect in any way the pillows.

Simply release the pillows from the packaging and let them naturally recover to their initial shape for 48 h.

**IMPORTANT:** Place the pillow set in a warm place in order to accelarate the recovery to the initial shape. As the pillow set is made of 100% memory foam, cold affects the rebound and delays the recovery.

The LX11-3 Adjustable Layers Wedge Pillow Set by Lunix is designed to be as versatile as your imagination can go. There is no one correct position, you can create your own configuration according to your needs.

20 WAYS TO COMFORT

- Do not place the pillows into any type of liquid.
- Keep away from all solvents and harsh detergents.

- The cover is machine -washable with cold water.
- Be careful while removing the cover from the pillow: we recommend curving the foam (to make it smaller) while removing the cover to avoid ripping it up.

- Never use the Lunix Wedge Pillow System in high temperature or next to corrosive gas.
- Do not place the Lunix Wedge Pillow System against a wall, in order to prevent it from getting dirty.
