Linux LX18 Vibration Plate

Product Information

Specifications:

- Model: [Insert Model Number]
- Compliance: Part 15 of FCC Rules
- Radiation Exposure Limits: FCC approved
- Operating Distance: Minimum 0cm between radiator and body

Product Usage Instructions

Safety Precautions

Before using the device, please read and understand the safety precautions outlined in the user manual to prevent any accidents or damage.

Installation

Place the device on a stable surface with proper ventilation to prevent overheating. Ensure there is a minimum distance of 0cm between the radiator and your body during operation.

Power On/Off

To power on the device, press and hold the power button for a few seconds. To power off, repeat the process.

Interference Management

If you experience interference while using the device, try adjusting the positioning or moving away from other electronic devices that may cause interference.

Cleaning and Maintenance

Regularly clean the device with a soft, dry cloth to prevent dust buildup. Avoid using harsh chemicals or liquids for cleaning.

7. This product is only for personal use in home, not for business rent or community activities;
8. This machine is one of the biggest safety limit weight is 100 kg.
9. When used, please keep the safe distance of 1 meter

背部拉伸

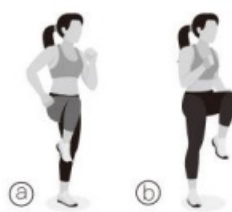

屈膝运动

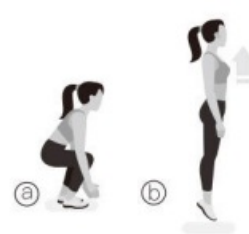

腰背拉伸

腿部拉伸

抬腿运动

跳跃运动

This product cannot be used as medical apparatus and instruments, such as physical defect or movement disorder, before exercise, please consult the doctor and the fitness coach. Before using this product, please must read this manual carefully.

The company in violation of regulations and the use of the product, caused personal injury and product damage will not be responsible for.

Specification and Product components

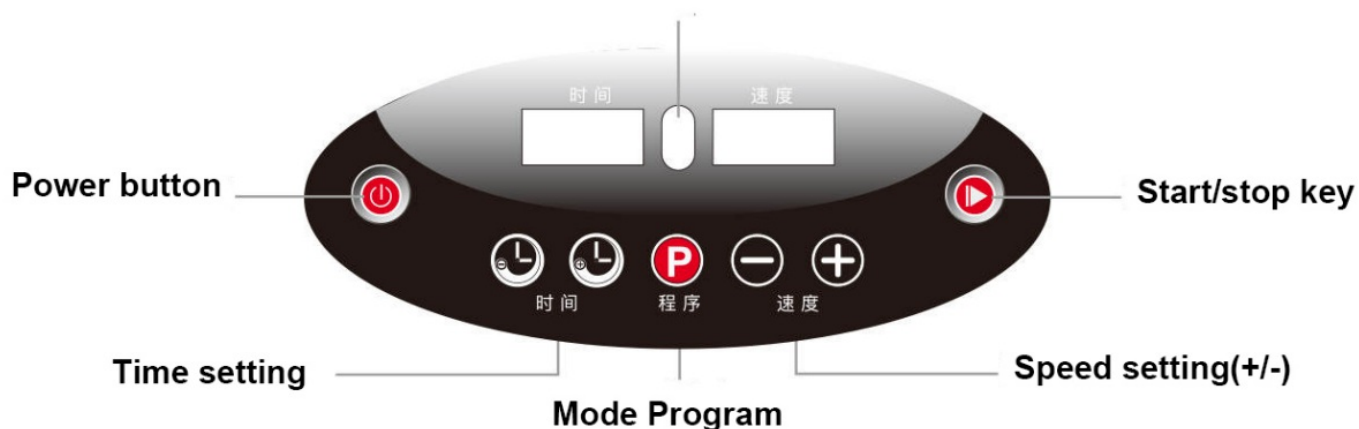

Name: vibration plate
 Item No.:SC-FM37
 Expand size:52.5*32*70cm
 N.W.:10.9kg
 Material:steel tube,PP,PVC,ABS
 Place of origin:Jinhua ,China
 Excutive Standard:
 GB 4706.1-2005
 GB 4706.10-2005

Product components					
NO.	Name	QTY	NO.	Name	QTY
1	Motor	1	8	Remote control	1
2	Up column	1	9	AAA battery	2
3	Down column	1	10	Power line	1
4	Base board	1	11	User manual	1
5	Screw	8	12	Warranty card/ Certification	1
6	Nut	4	13	Open spanner	1
7	Rotary knob	1	14	Allen wrench	1

Use of the product buttons

Display the time, speed and infrared signal

1. Power button: plug in the power cord open host power switch, then press the “power button” on the screen, make the host into standby mode, press the machine to stop working at work;

Products are common problems and solutions

Part of the fault can use the following methods to solve If still can't solve, please consult the customer service center, we will serve you wholeheartedly.

Fault description	Cause analysis	Solution
Unable to open	Power is not plugged in	Stick the plug in tight
	The power switch is not open	Open the power switch, indicator
Instantaneous electric current too big, the fuse blew out	Changing a fuse of the same model	
Noise is emitted during product operation	Normal sound	No need to solve
No response to remote control operation	The battery of the remote control is dead	Replace the battery
	The remote control distance is too far	Infrared sensing range is 1.5 meters
In use process to stop	The default work time is over	After an interval of 10 minutes, start the machine again
Can't normal operation	Executing commands too frequently	Shut off the power and restart

FCC

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part

15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
