LUNOS 5-UNI-FT Universal Control with Switch

Product Information

The Universal Control with Switch 5/W2U is a versatile device that allows for the integration of a humidity sensor and LED into your control system. It is designed for seamless installation and reliable performance.

Specifications:

- **Model:** 5/W2U
- **Compatibility:** 5/UNI-FT & RF
- **Color:** Arctic White
- **Manufacturer:** Brand Kopp

Product Usage Instructions

- **Step 1: Assign Terminals Correctly**
    1. Locate the internal push button on the backside of Switch 5/W2U.
    2. Ensure proper connection by referring to the color-coded terminals: violet for the connection cable switch, grey for the LED, and orange for the humidity/temperature sensor.
- **Step 2: Pierce the Sticker on the Back**

    Pierce the sticker on the back of the device to access the installation area.
- **Step 3: Insert Humidity Sensor/LED**

1. Carefully insert the humidity/temperature sensor and LED by piercing through the center as indicated.
2. Ensure the sensor board is fully inserted for proper functionality.
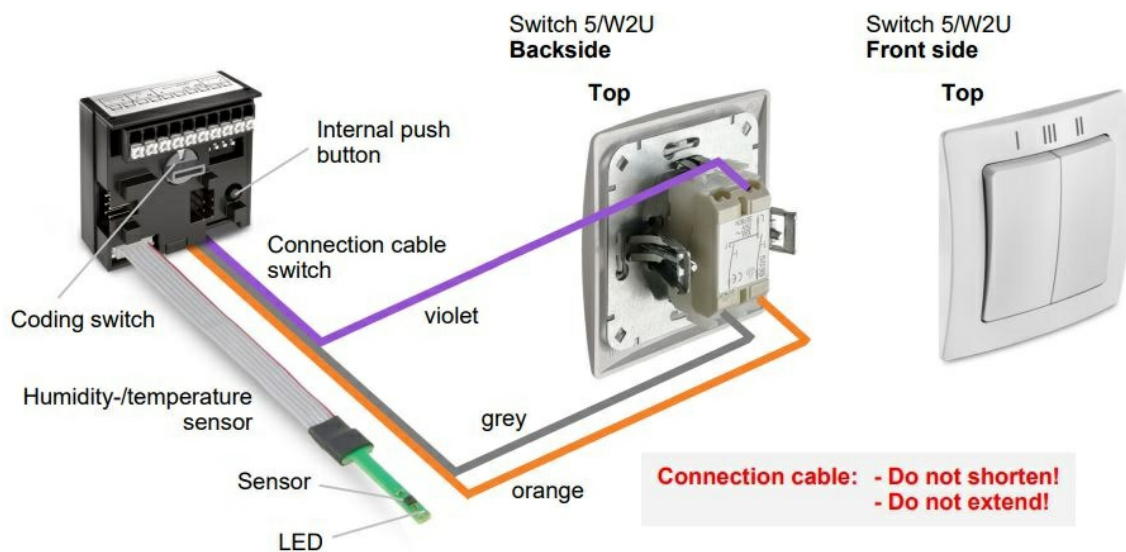

- **Step 4: Install Control Unit and Switch**

 Install the control unit and switch in a flush-mounted box for a clean and finished look.

  Note: Ensure the connection cable is not shortened or extended during installation.

## Installation Instruction

- **Step 1:** Assign terminals correctly

- **Step 2:** Pierce the sticker on the back

- **Step 3:** Insert the humidity sensor/LED

- **Step 4:** Install the control unit and switch in a flush-mounted box – done

  Note: 5/W2U = Brand Kopp, series Paris (arctic white)

FAQ

What should I do if the LED does not light up after installation?

Check the connections and ensure proper insertion of the sensor board. If the issue persists, contact customer support for assistance.

Can I use this product with other switch brands?

The 5 W2U is specifically designed for Brand Kopp, series Paris, in arctic white color. It is recommended to use it with compatible components for optimal performance.
