Get started

Installing and setting up the device
The steps described below is for connection through a HDMI cable, if an AI cable is used. please connect it to AV (yellow, red, white) ports respectively on TV.

1. Connect one end of the supplied HMI cable to the Media Player Box. the other end to a HDMI port on TV or other display device.
2. Use TV remote controller (the signal source key) to select right signal path for the HDMI port connected. There are normally several HDMI ports on a TV, and the connection can be enabled only when the right signal path is selected. If an AV cable is used, please select AV port instead.
3. Connect the AC power adapter (12V/1A) to the box and the other end to the power socket, turn on the box by pressing the power key until the LED indicator lights up. wait the box home page show in the TV.

Connect to intemet

1. Wireless connection Go to setting, WI-FI, click on the desired wifi hot spot, and input password of the wireless router for connection (A wifi icon pops up on the status bar after connection).
   Note: Please ensure that the wireless router has access to external Internet.
2. Wired connection a) Plug one end of the net work cable in the LAN port on the device, and the other end to the router. b) Go to setting turn on ethernet, after connection, an icon of cabled connection appears on top-right conner of the status bar

Install / Uninstall APK
