LUOSHIVP

Luoshivp A9 Portable Smoothie Blender

SPECIFICATIONS

- **Model:** A9
- **Jar Capacity:** 600ml
- **Jar Material:** AS
- **Base Material:** ABS
- **Blade Material:** 304 Stainless Steel
- **Blending Voltage:** 7.4V
- **Charging Voltage / Current:** 5V / 1A
- **Battery Type / Capacity:** 18650 / 2000mAh*2
- **Motor Speed:** 18000rpm
- **Charging Time:** About 3 to 5 hours
- **Single blend time of Blend mode:** 30 seconds a cycle
- **Maximum blend time of Pulse mode:** 30 seconds

PRODUCT OVERVIEW

Procedure

• Step 1

Cut fruits into small pieces before adding into the blender to fill up about 60% of the jar capacity.

• Step 2

Add some drinkable liquid until it reaches 80% of the jar capacity.

• Step 3

Tighten the lid and tilt down the blender to make sure fruit pieces are not stuck under the blades.

• Step4

- **Blend Mode:** Click once power button to start blending and green lights flash. Slightly tilt it back and forth while blending if desired. Click once again to pause.
- **Pulse Mode:** Double-click the power button to enter into pulse mode. While yellow lights flicker, press and hold the power button repeatedly to pulse. Pulse mode will automatically end after 5 of inactivity and the yellow lights off.

Tips

- **Pulse Mode**

Double-click to switch into pulse mode, and orange lights will be on.

- **Bottom cover**

- The USB port is waterproof. It is prohibited to soak the base in water or put it into the dishwasher for cleaning to avoid damage to the battery after water inside.
- Do not mix with hard-shelled fruits, nuts, and large pieces of frozen fruits. It is recommended that fruits or vegetables be cut into small pieces of 1 inch/CM to avoid jamming of the blade and blocking protection.

It can be rinsed directly under water to clean the base and blades, but do not soak the base in water for more than 30 minutes for a long time

Malfunction Analysis and Troubleshooting

Malfunction: All indicator lights in red or no light, unable to start.

- **Analysis:** Ran out of battery.
- **Troubleshooting:** Charge it for 3 to 5 hours to make sure that it gets a full charge.

Malfunction: All indicator lights flicker in red and green alternately, unable to start.

- **Analysis:** The jar is not tightened to the base.
- **Troubleshooting:** Tighten the jar and base, make sure the magnet is aligned with the power button.

Malfunction: Stop working, all indicator lights flicker in red for 8 seconds.

- **Analysis:** Ingredient is too thick or volume too big, motor overload protection.
- **Troubleshooting:** Add some liquid or cut ingredients into smaller pieces or shift into Pulse Mode, then restart it.

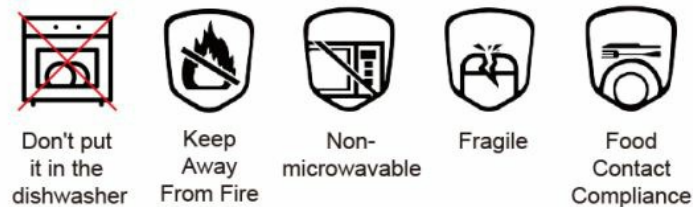

Malfunction: Leakage.

- **Analysis:** The seal is not placed properly; the jar/cap is cross-threaded.
- **Troubleshooting:** Check seals; check thread alignment when screwing on jar/cap.

Click the button to flash red-yellow lights and if unable to start, it means out of power, please charge it for 3-5 hours (and it can not blend while charging)

NOTE:

- The product is suitable for USB Type-C cable. Suitable for power bank charging as well.
- When not used for a long time, charge it fully first to keep the battery in a high voltage state in order to prevent damage.

Cautions

- DO NOT remove the lid or add in something rigid in your blender when it is blending.
- DO NOT submerge the base into water to prevent base elements from damaging and make sure it is off before cleaning.
- DO NOT disinfect your blender in microwave or hot water above 80°C.
- DO NOT put your blender in the freezer.
- DO NOT clean your blender with any kind of metallic spiral ball to prevent parts from scratching or damaging.
- DO NOT clean your blender with a dishwasher machine.
- DO NOT charge your blender when it is wet.
- DO NOT repair or disassemble it by yourself otherwise your warranty will be void. If a malfunction occurs, kindly contact us.

Your First Blend

Make sure your blender is fully charged by checking whether all indicator lights are green before your first blend. Tighten the body and base until the magnet is aligned with the power button. Remember to clean it immediately after use.

Pro Tips

- **BLEND MODE:** Perfect for smoothies, shakes, and mixed drinks.
- **PULSE MODE:** Perfect for salsa, and jams. small ice cube, frozen fruits, and extra tough ingredients.

Check Battery Level (The last second of LED light color displays battery capacity under Blend Mode)

- **1%- 17%:** 2 green lights on
- **18%-33%:** 4 green lights on
- **34%-50%:** 6 green lights on
- **51%-67%:** 8 green lights on
- **68%-83%:** 10 green lights on
- **84%-99%:** 12 green lights on

Fully charged, all green lights on, red light off

PORTABLE BLENDER Imported Environmental-friendly Materials CE, ROHS, FCC Approval
