Lynx LSB1 Professional Built-In Propane Gas Single Side Burner

Product Information

Specifications:

- **Model:** Lynx Accessory Switch Kit (LASK)
- **Designed for:** Lynx accessory burners or storage accessories
- **Components:** Power supply, switch assembly, mounting plate
- **Connector:** 4-pin plug and receptacle

Product Usage Instructions

Installation:

1. Mount the switch assembly in the desired location using the included #6-32 x 1 screws.
2. Connect the 4-pin receptacle on the switch assembly to the 4-pin plug on the accessory.
3. Connect the 4-pin plug on the power supply to the 4-pin receptacle on the accessory.
4. Ensure that the mounting location is close enough to the accessory for the connection.
5. Mount the power supply bracket to the inside of the counter using appropriate screws based on the counter material.
6. Plug the power supply into a wall socket.

Connector Identification:

- **4-pin PLUG:** Identify and connect this to the corresponding receptacle on the accessory.
- **4-pin RECEPTACLE:** Identify and connect this to the corresponding plug on the accessory.

- **LSA30-4** Ventana 30" Cabinet
- **LSA36-4** Ventana 36" Cabinet
- **LSA42-4** Ventana 42" Cabinet
- **LPA36-4** Ventana 36" Pantry

Lynx Accessory Switch Kit:

Model LASK The Lynx Accessory Switch Kit is designed to power a Lynx accessory burner or storage accessory directly without a connection to a grill. The kit contains a power supply as well as a switch assembly with a mounting plate.

Installation Instructions

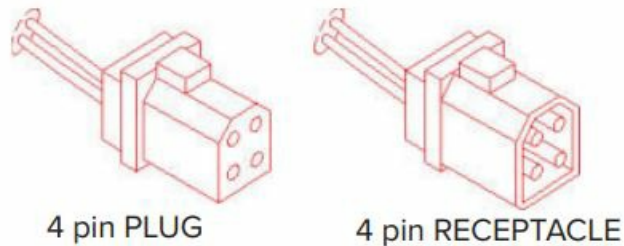

1. Mount switch assembly in desired location using included #6-32 x 1" screws.
2. Connect the 4-pin receptacle on the switch assembly to the 4-pin plug on the accessory.
3. Attach power supply to mounting bracket using included #6-32 x 1/2" screws and #6-32 locknuts.
4. Connect the 4-pin plug on the power supply to the 4-pin receptacle on the accessory.
5. After assuring that the mounting location is close enough to the accessory for the two to connect, mount the power supply bracket to the inside of the counter. Screws used for mounting will depend on counter material.
6. Plug the power supply into a wall socket.

Precautions while working on electrical connections:

- Read and understand the instruction manuals provided with both the grill and the accessory being installed. Review these instructions in their entirety before beginning.
- TURN OFF ALL GAS AT ITS SOURCE to the appliances BEFORE beginning any electrical work. When working on an island installation, open any doors or drawers and allow the space to ventilate before beginning any work. Unplug the transformer/power supply from its receptacle under the island.
