Important Safety Information

To ensure the correct and safe installation and function of the product, please follow the below instructions and keep this booklet for future reference.

- Do not use light around the water. Avoid liquids on all electrical parts.
- Clean only with a dry, soft cloth. Household cleaners or solvents can damage your light.
- Do not install your light near any heat sources, such as radiators, heat registers, stoves, or any other apparatus that produces heat.
- Do not block any ventilation openings.
- To reduce the risk of fire or electric shock, do not expose this light to rain or moisture.
- Keep packaging materialize.g. plastic bags) out of children's reach.
- Not suitable for children under 36 months. Small parts have choking hazards.
- Do not stare at the operating light source.

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This LYRIDZ motion sensor table lamp is fully compliant with the EU, CA, JP, UK, and USA legislation. When disposing of this equipment, please protect our environment by means of proper disposal. Your local authorities will have special return and disposal facilities available for you. CAN ICES-3(B)/NMB-3(B)
