M Solutions MS-01 Ceiling Mount Camera Bracket

Specifications

- **Product Name**: MS-01 Ceiling Mount Camera Bracket
- **Revision:** 1.1 – July 2024
- **Pieces Included:** 1 Ceiling Mount, 1 Cross recessed pan head screw, 6 M3*6 self-tapping lock screws

What's Included

Pieces Item

- **1** Ceiling Mount
- **1** Cross recessed, pan head with tail machine teeth screw, UNC 1/4''-20*8
- **6** Pan head, flat tail, self-tapping lock screws, M3*6

Not Included

Pieces Item

- **4:***M5 Expansion screws

These screws need to be provided by the installer based on the thickness of the ceiling.
Caution: It is the responsibility of the installer to ensure the camera and its mounting hardware are firmly secured so that the camera does not fall. Anchoring hardware appropriate to the wall type must be selected and provided by the installer.
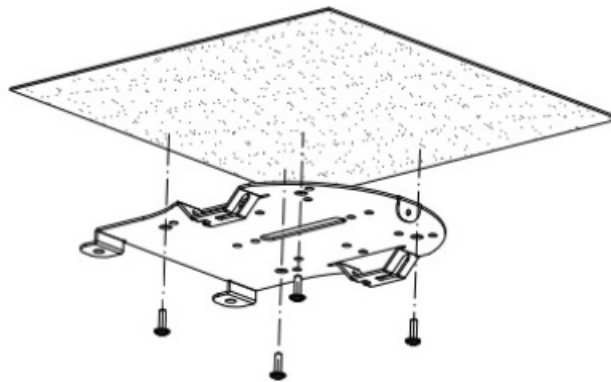

Installation

Step 1

- **a)** Position the upper component of an anchor on the ceiling, and mark the ceiling for placement (markers indicated in steps 2 and 4).
- **b)** Pre-drill holes in the ceiling.

NOTE: Check the depth of the mounting holes by inserting a straw or toothpick, and measuring against the length of the screws.
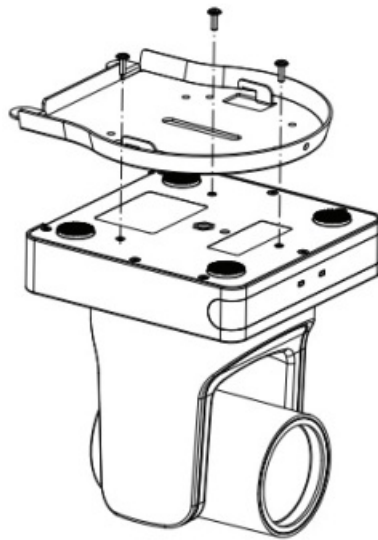

Step 2

- **a)** Please top the component of the mount back over the marking on the ceiling.
- **b)** Secure using M5 expansion screws (not included).

Step 3
Secure the bottom component of the mount to the bottom of the camera, using included M3*6 screws.

Step 4

- **a)** Attach camera to mount.
- **b)** Secure using M3*6.

FAQ

- **Q: What should I do if the M5 Expansion screws are not included?**
  - **A:** The M5 Expansion screws are not included in the package. You need to provide them based on the thickness of your ceiling. Make sure to select appropriate screws for secure installation.
- **Q: How can I ensure that the camera and mounting hardware are firmly secured?**
  - **A:** It is the responsibility of the installer to ensure that the camera and mounting hardware are firmly secured to prevent any accidents. Use anchoring hardware suitable for your wall type and follow the installation steps carefully for a secure setup.
