

PAIRING THE EARBUDS TO BLUETOOTH DEVICE

Make sure the Bluetooth function is available on your cell phone. Specific pairing procedures will be different depending on different cell phone. For detailed information, please refer to your cell phone's User Guide.

- If no device connection is made within 5 minutes of the earbuds being switched on, the earbuds will automatically be switched off to save power.
- After a successful pairing devices will memorize each. Therefore, no pairing will be needed next time.

1. Keep the distance between the cell phone and the tzumi earbuds within 3 feet (for pairing only).
2. Press the multifunction button for a couple of seconds and the Tzumi Earbuds will turn on. The announcement "power on" will sound and the blue light will flash quickly. The device will go into pairing mode automatically until blue and red light flash alternately.
3. Activate the bluetooth function of the cell phone to search for bluetooth devices. After finishing the search, select "tzumi-earbuds" in the device list displayed.
4. Only for some electronic devices: Press "yes" or "enter" key to confirm the successful pairing.
5. After a successful connection, the blue light of the earbuds will flash quickly twice every few seconds.
