Bring It In-house

From our factory in Saginaw, Michigan to landscapes all across the United States

State-of-the-art technology allows our team to create customized, high-quality products for water features. You can trust our American-made products to stand up to everything Mother Nature dishes out.

Our newest rotomolding machine is flexible enough to create large and small products of all shapes. We love a challenge, so bring us your most complex jobs. We'll figure out a solution that is both durable and attractive.

When you work with Blue Thumb, you get the best pond, waterfall, fountain and aquarium equipment while supporting jobs for skilled craftsmen and artisans in the US.

Blue Thumb

Ponds / Waterfalls / Fountains

"We manufacture 90% of what we sell here in our 126,000 square-foot facility in the beautiful state of Michigan. By making our products in-house we are better able to control the availability and most importantly, the quality of every product."

– Kip Northrup

Blue Thumb

Ponds / Waterfalls / Fountains

Why professionals choose Blue Thumb

A Q&A with Brandt Reynolds, Contractor Sales Manager

How do our products save time?

Blue Thumb products help contractors save time with a systems-based approach, where all components needed to make a fountain, pond, or waterfall are matched to eliminate guesswork and guarantee results. Knowing your kit is going to ship complete with equipment that works together to create your vision saves time and money versus driving around trying to piece equipment together.

How do our products save labor?

Having all the right components right at hand, with great instructions & videos, eliminates the wasted labor that building custom systems usually requires. Plus, we assemble as much as possible in our warehouse saving you time on the job site.

How do our products save materials or fuel?

There is no running to the hardware or box store with Blue Thumb kits. Never purchase a bulk roll of liner or hose and only use a portion ever again. Everything you will need is already included, which saves time and fuel-wasting trips around town.

Set Your Business Apart

How do our products help generate additional revenue for landscape professionals?

Water features are the ultimate add-on to the bottom line! Everyone loves them, they are easy to install, and even easier to maintain when done right. They require no additional skills besides those of any landscape professional. Many customers will talk about how their favorite part of their landscape is the motion and sound created by their water feature. Many projects can be completed within a matter of hours yet you can charge premium rates making them the highest profit margin on the project.

In what other ways do our products make landscape companies profitable?

Blue Thumb projects not only add to the bottom line, but they enhance the entire portfolio. People are captivated by fountains, ponds, and simply moving water in general. Water adds movement and sound to landscapes in a way no static landscape can, and that keeps customers engaged.

Begin designing Blue Thumb water features into every project!

Our Fountains – In a Variety of Styles and Shapes

Four Seasons Landscaping of Dixon

The fountains featured in our collections are intentionally designed to both accent and blend in with your natural outdoor setting, with variations in styles, color and texture. No two pieces are alike, but all share an inherent beauty to enhance its place in nature. Each fountain has an individual character and is a distinctive, original piece of art.

Every Fountain Needs a Solid Foundation

Use our patented AquaBox® basin reservoirs to support heavy fountains.

These basins are designed for a professional install and differ from others in that they feature removable grates. Additional support columns can be added when using large and heavy fountains as you approach the maximum weight limits. Take confidence in knowing your new fountain system is protected by US Patent # 7,341,203

Made in the USA

36" Achelous AquaBox®

Item	Retail
AB36AB	\$599.99

- Suitable for medium fountains
- Round 36" in diameter x 16"H, (Overall dia. 39.5" with lip)
- 60 gallon capacity
- Max. static load 1,000 lb
- Product Weight: 45 lb
- Includes center support & plastic pump cover
- Use 4-5 bags of Polished Pebbles to cover
- Lifetime Warranty

48" Achelous AquaBox®

Item	Retail
AB48AB	\$749.99

- Suitable for large fountains
- Round 48" in diameter x 16"H, (Overall dia. 51.5" with lip)
- 95 gallon capacity
- Max. static load 1,500 lb
- Product Weight: 64 lb
- Includes center support & plastic pump cover
- Use 5-6 bags of Polished Pebbles to cover
- Lifetime Warranty

These basins are ideal for vases, real stone fountains, copper fountains, and triple fountains. Plus, they are produced in Blue Thumb's facility in Michigan.

Altum AquaBox®

Item	Retail
AB52AB	\$1,299.99

- Suitable for large and multiple fountains
- Square 52.5" x 52.5" x 20"H
- 220 gallon capacity
- Max. static load 2,500 lb
- Weight approx. 110 lb
- Includes center support & plastic pump cover
- Use 8-10 bags of Polished Pebbles to cover
- Lifetime Warranty

Fountain Conversion Kit

Item	Size	Pump Flow	Max Vase Height	Retail
AB36KIT	36" Dia. x 16"H	800 gph	36"	\$749.99
AB48KIT	48" Dia. x 16"H	1,110 gph	48"	\$899.99

Do you have your own vase and want to convert it to a fountain? These conversion kits come with the reservoir

basin, pump, bulkhead fitting, kink-free tubing with quick disconnects, and standpipe with flow control valve.

DIY Basins

Our Shallow Fountain Basins are Great for Low Flow, Lightweight Fountains

Made in the USA

These patented DIY basin reservoirs are designed specifically for use with GFRC (faux) bubbling boulders or other lightweight fountains with even weight distribution. These are easy to install and maintain with their low-profile and simple, effective design.

Easy to install and maintain with its low profile, and simple, effective design.

2x2 Fountain Basin

Item	Size	Overall Height	Retail
LA2000	25" x 25" square	8"	\$199.99

- Recommended for small fountains
- 12 gallon capacity
- Comes complete with basin, grate, and screen
- One-piece grate with corner pump access
- Lifetime Warranty
- Max Static Load 250 lb

Item	Size	Overall Height	Retail
LA4000	49" x 49" square	12"	\$479.99

- Recommended for small to medium fountains
- 70 gallon capacity
- Comes complete with basin, grate, and screen
- Two-piece grate with corner pump access on one piece
- Lifetime Warranty
- Max Static Load 750 lb

Medium GFRC Hex Basin

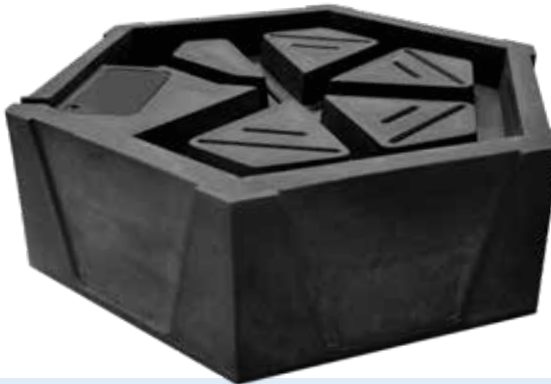

- 30" x 34" x 14"H
- Best for fountains up to 24"H
- 41 gallon capacity
- Use 4-5 bags of Polished Pebbles to cover
- Lifetime Warranty
- Max Static Load 500 lb

Item	Retail
PB1953	\$377.99

Large GFRC Hex Basin

- 40" x 46" x 14"H
- Best for fountains up to 36"H
- 82 gallon capacity
- Use 5-6 bags of Polished Pebbles to cover
- Lifetime Warranty
- Max Static Load 850 lb

Item	Retail
PB1960	\$539.99

External Fountain Uplighting

IllumiGlow® Fountain & Pond 3-Light Kit

LED lighting can enhance your fountain even after the sun sets.

Great for external fountain lighting

Item	Retail
PB2897	\$149.99

Internal Plume Lighting

IllumiGlow® Color Changing Fountain Plume Light Kit

You can easily change lighting inside and out of your Real Stone Fountains with our RGB Color Changing kits! This plume lighting kit allows water to spout through the ring lights inset inside your stone fountains.

- 12V AC/DC
- Auto Color Cycling Option

Item	Retail
PB2903	\$219.99

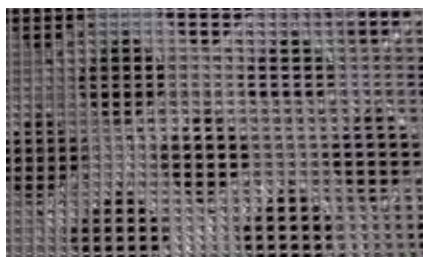

Drilled stone fountain plumes are illuminated as water is pumped up through the LED light rings

Note: Not all stone fountains are drilled for plume lighting, please consult with our Sales/Tech Team for set up information

Fountain Basin Accessories

Enjoy your fountain more with these accessories that will help reduce time needed for maintenance.

Sediment Screen for Altum or Achelous AquaBox® Basin

The sediment screen will help prevent debris and particles from passing through the grates and into the basin where they can clog the pump and slow the water flow. Adding this item will save a lot of maintenance time in the future.

Item	Retail
ABSCREEN	\$99.99

Kink-Free Fountain Hose

3/4" kink-free tubing 4 feet long is perfect for connecting pumps to the bottom of any vase fountain. Comes complete with 2 quick disconnects.

Item	Retail
34ABDHOSE	\$94.99

Aluminum Grate for Altum AquaBox® Basin

A reinforced grate for the Altum AquaBox allowing higher static loads. Use with triple vase sets or triple basalt columns with heavy point loads. This grate comes in two pieces that fit into your Altum AquaBox 52.5" sq. basin.

Item	Retail
ABDGRATE	\$1,099.99

Polished Pebbles

Item	Description	Color	Retail
PPBK40	40 lb bag	Black	\$69.99

Decorative polished pebbles varying at approximately 2"-3" in size are great for hiding the top of the Fountain & Formal Falls® Basins. Recommended coverage per bag is an 18" x 18" area, but may cover up to 24" x 24" with less stone depth.

Item	Description	Color	Retail
PPMX40	40 lb bag	Mixed	\$69.99

Fountain Basin Auto Fill Kit

Saves maintenance time and potential pump damage. For use with Fountain Basins & AquaBox® Basins.

Item	Description	Retail
ABDAUTO	1/2" Auto Fill Kit	\$53.99

30 psi Regulator Kit

Recommended to regulate flow on Auto Fill kits.

Item	Retail
30PSI	\$58.99

ABBSA36 \$98.99

Splash Apron

Our 76" square basin splash apron will help to prevent water loss from your fountain by capturing and returning water to your basin that may have otherwise ended up in the surrounding landscape. For use with Achelous and Altum basins. Splash Apron is intended to be trimmed to best fit your fountain install.

About Our Fountain Kits

Whether triple or single our “custom fountains” are designed for water to fall with expression, for a more serious statement, to disguise the sounds of your busy neighborhood or can be calculated with an elegant soothing tone for a more tranquil setting.

Blue Thumb’s Fountain Kits are delivered right to your job site ready to install. All of the parts you will need for a hassle free installation are included. Instructions come with every kit to ensure the fountain is installed properly so it can be enjoyed for many years.

Included in every Fountain Kit

- Selected Fountain(s)
- Fountain Basin
- High Efficiency Pump
- Flow Control Valve
- Plumbing & Tubing
- Polished Pebbles

Handcrafted Rock Fountains

Made in the USA

What is

GFRC stands for Glass Fiber Reinforced Concrete. GFRC is a lightweight, durable material that can be cast into nearly unlimited shapes, colors and textures making it a great material for our bubbling boulders.

Top Three Benefits of Handcrafted Rocks

1. Lightweight

These fountains weigh significantly less than real stone, making installation easier and less expensive.

2. Durable

Sturdy as real stone and stand up to weather and time, sometimes better than real stone fountains.

3. Versatile

Our in-house lightweight handcrafted boulders offer you the option for a unique natural design in an uncharacteristic space, start designing your yard or garden!

Handcrafted Highlights

Handcrafted "Basalt" Kits

Unlike their Real Stone Basalt counterparts, which weigh approximately 5 pounds per inch of height, Blue Thumb's Handcrafted GFRC Fountains are only about a quarter of that weight, making them easier to handle and install. **Pages 16-17**

Bubbling Boulders

Single fountain kits for a gentle flow. Each a style of their own, uniquely molded from various rock formations. **Pages 18-22**

Double and Triple Kits

We've paired a few of our favorite combinations but you may create any grouping you choose. That's part of the beauty of a consistent rock design. **Pages 22-27**

Bird Bath Kits

We've chosen to create some of nature's designs that will hold a little flowing water for the birds to visit your backyard. **Page 23**

Burning Boulders

Relax fireside with our new Burning Boulder or let our Fire & Water GFRC Rock light your night while bubbling. **Page 28**

Crafted In-house

**Blue Thumb Manufactures
A Variety of Styles and
Shapes For Your Perfect
Water Garden**

Handcrafted Rock Fountains are as sturdy as real rock, with a fraction of the weight. Each boulder is molded and prepared by hand at Blue Thumb and follows a careful process ensuring they are ready for your landscape.

Our Handcrafted Rock Fountains are available in natural stone colors of Dapple Gray and Chestnut.

Add an LED light to any of our rock fountains to light the plume of water.

LA3300	Rock Only	\$899.99

Our Largest Bubbling Boulder

One of the reasons we decided to create our boulders is that we can make large fountains at a fraction of the weight. Large rocks like the Manistique Falls can be placed without heavy machinery, making installation easy and less expensive.

Horseshoe Falls Fountain

• Dimensions: 38" x 36" x 13"H • Weight: approx. 80 lbs
• Dapple Gray or Chestnut Brown

Item	Description	Basin	Pump	Polished Pebbles	Retail

Real Stone Fountains

Designed by Nature

Earth Works Outdoor Builders

Created from sturdy natural rock, some feature all four sides smooth while some have three sides smooth with one side naturally chiseled. Some are rough and some are smooth. All provide a beautiful focal point in any garden.

Real Stone Fountain Collection

Basalt Series PAGE 32

A natural rustic reddish tone that when polished darkens to nearly black. Basalt has become very popular due to its extremely low maintenance.

Zenshu Series PAGE 36

A collection of natural stone fountains with a peaceful Japanese Zen garden influence.

Artisan Series PAGE 44

Offered in a variety of stone choices: Onyx, Marble, Sandstone, Granite, and Limestone. Colorful stone cuts create lovely patterns in the many shapes and sizes.

Granite/ Millstone PAGE 50

The versatility of Granite is in the creative shapes they can be carved into, such as our popular Millstone fountains.

Stone Benches PAGE 54

Add a touch of sophistication to your outdoor space with our expertly crafted stone benches, available in various styles.

Real Stone Fountains – In a Variety of Styles and Shapes

Blue Thumbs' Artisan design fountains offer the color trends that are popular today cut in a formal design. Shipped as complete kits featuring a stunning fountain piece, these fountains are offered in a variety of stone choices: Onyx, Marble, Sandstone, Granite, and Limestone. With so many different features to choose from, you will find a perfect focal point for any garden.

Design Associates

Real Stone Fountains

Basalt Series

Basalt Column Fountains are growing in popularity because they provide homeowners with all the benefits of a customary water feature, including both audio and visual attraction, with extremely low maintenance. These kits can be a single solitary basalt or better yet grouped together to create a group of three fountains. Each kit comes complete with our professional molded basin for easy installation as well as the pump, plumbing, and decorative polished pebbles to complete the system. These kits are pre-assembled decreasing your installation time to less than three hours.

Heiho

The Heiho Fountain provides a simple way to add interest to your landscape with its smooth sides and flat surface surrounding a small fountain spectacle. Situated in the corner of a rock or stone bed or as a repeated form, the smooth pooling of water is a calm display of serenity that preludes the cascading of the element to the space below.

Acrylic Fountains

Introducing our brand-new custom-made acrylic fountains, expertly crafted to mimic the elegant look of real stone, but at a fraction of the weight.

Bring in a Little Southern Charm

Cast stone products proudly manufactured in the USA using locally sourced, natural materials. All of these cast stone pieces are manufactured using a proprietary, high-density cast stone mix, comprised primarily of water, sand, stone aggregate, and cement. The patinas are hand applied to the surface of the product producing a strong and durable product that will weather naturally in an outdoor environment.

Comes complete with pump and instructions. Just add water!

Vase Fountains

Each an Original Work of Art

The Vase Fountains featured in our collections are intentionally unevenly glazed providing a uniqueness to each fountain, with variations in both color and texture. All vases styles may come as Open Top or Closed Top. Open Top Vases have a robust plume from the water filling the vase and then flowing down the outside. This creates more sound and flow than a Closed Top Vase does. Closed Top Vases have sealed tops. Water is directed from the basin through a hose and up the hollow insides of the vase, resulting in a more modest plume of water and gentler flow.

Bahler Brothers

Fountains

Tuscany

Very popular, sun-washed glaze with a natural terra cotta lip

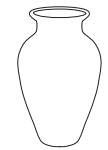

Oil Jar

Smooth finish, slight rolled glazed lip

Sienna

Waffle texture, wide mouth

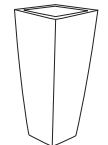

Milano

Elongated neck with a flared top

Tivoli

No lip, sleek and tapered body

Luna

Squared-off modern shape, smooth, textured or twisted

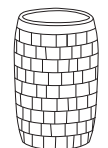

Genova

Beehive style ringed pattern

Amphora

Handle adornment for an ancient throwback

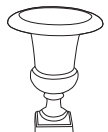

Stoned Urn

Layered stone textured finish

Provence

No lip with a little shoulder

One of a Kind

Find it in our online inventory and make it yours!

Hand-Glazed Eye-Catching Popularity

Tuscany

The Tuscany series continues to lead all vase fountain sales. Tuscany Vase Fountains have a unique finish and beautifully curved body that allows water to flow freely over the sides. These fountains are the perfect focal point in any landscape.

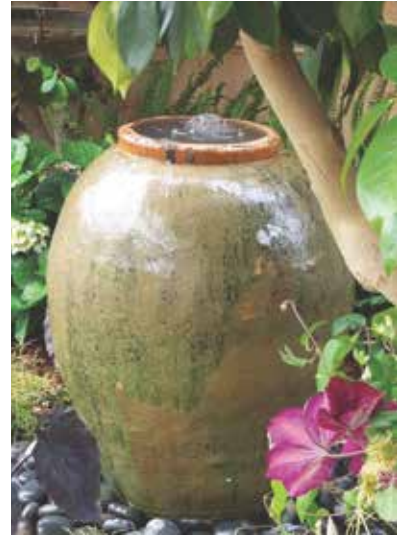

Oil Jar

Slick & Stylish with Curve Appeal

Curvy Oil Jar Fountains offer a smooth finish that water glides down. A true statement piece for any landscape project, they are offered in many colors and varieties.

Serene Falls and Water Gardens

Sienna

Robust with Waffle Texturing

Sienna Fountains are substantial vases with robust openings. These fountains offer a waffle-style textured body in different colors.

New Beginnings Landscape Inc

Milano

A Long Neck & a Lot of Flare

The distinctive Milano Fountain shape gives the water a unique path of travel along the sides of these spectacular vases.

Plandscape Inc

Tivoli

Svelte & Sophisticated with No Lip

Tivoli Fountains feature a very sleek design with a round, tapered style. These vases are available in a variety of different colors as well as textures. A nice addition to any landscape.

Weavers Landscaping

Luna

Square-up For a Modern Look

Luna Fountains offer a more modern look vase featuring 90-degree angles. Most pieces in this collection are square and tapered with many offering a variety of different textures.

Bell Landscaping

Genova

Beehive Styling that Creates a Buzz

The unique Genova offers a horizontal ringed pattern creating a nice rippled pattern as it flows down the side of the vase.

Get a Handle on This Style

Amphora

Amphora Fountains are robust vases that have beautiful adornments (handles). A very popular and classic piece that fits in any landscape.

Disabatino Landscaping

Stoned Urn

Layered Stonework Styling

Ranging from a flat slate to a rounded pebble look, Stoned Urn Fountains have a layered stone finish that creates unique pattern for water to a cascade down.

Weaver's Landscape Co.

About Our Vase Fountain Kits

We have 2,000+ vases in various styles, sizes, weights. Add in possible arrangements as single or triple sets and there are many combinations. We've got you covered! Our knowledgeable Sales/Tech Team is happy to guide you and answer any questions you may have.

Blue Thumb's Fountain Kits are delivered right to your job site ready to install. All of the parts you will need for a hassle free installation are included. Instructions come with every kit to ensure the fountain is installed properly so it can be enjoyed for many years.

Included in every Vase Fountain Kit

- Vase Fountain(s)
- AquaBox® Basin
- High Efficiency Pump
- Flow Control Valve
- Plumbing & Tubing
- Polished Pebbles
- LED Light
- Auto Fill valve
- Muck Buster tabs

We recommend considering these products to enhance your enjoyment and lessen maintenance tasks:

The hollow design allows for LED lights to be mounted on the standpipe inside the vase to light the plume of water, or light externally. **PAGE 11**

Water Treatments such as Muck Buster® to keep water cleaner. **PAGES 112 - 113**

A Fountain Basin Auto Fill Kit will automatically maintain water level, and add a 30 psi Regulator to regulate flow. **PAGE 127**

Basin Aprons help contain splash of taller fountains on windy days. **PAGE 12**

Metal Fountains

Crafted From the Ores of the Earth

You can't beat Blue Thumb's Metal Fountains for yard art. We have sweet spillover Rustic Sugar Kettles, back-to-nature Copper Trees and Flowers, Rusted Corten Steel Urns plus our beautiful Brass Patina series of Bowls and Urns. With so many forged styles to choose from, you will find a perfectly designed focal point for any garden.

Our Metal Fountain Collection

Brass Patina Fountains

Spouted tops set off our popular brass fountains with texture and patina added for a well-established fountain feel.

Copper Trees & Flowers

Crafted copper creates a striking visual as water dances from leaf to leaf down a tree or spouts up from a flower bloom.

Corten Steel Rusted Urns

Our Tapered Urn triple set brings an industrial modern edge to any indoor or outdoor setting.

Crystal Spheres

Our Crystal Sphere adds a sleek, contemporary touch, transforming any outdoor space into a tranquil, artistic retreat.

Rustic Sugar Kettles

We take cast iron sugar kettles and add water or fire, for our personal artistic twist.

A modern outdoor water feature is the central focus. It consists of a low, curved wall made of grey stone blocks with a light-colored stone coping. A small waterfall flows over the wall into a circular basin filled with dark grey river stones. Several small green plants are planted around the basin. Above the wall is a wooden pergola structure with light-colored slats and square posts. Two black outdoor lights are mounted on the posts. The background is a lush garden with green trees and a tree with yellowing leaves. The overall scene is a well-maintained outdoor space.

Formal Falls®

Retaining Wall Waterfall Highlights

Formal Falls®

Blue Thumb
Ponds / Waterfalls / Fountains

Made in the USA, Formal Falls® are a beautiful yet simple way to add the aesthetics of water to your surroundings. The water flows out from the retaining wall in a nice, smooth sheet and into the basin below. These waterfall walls can easily be added to any block wall structure and are a great alternative to ponds or fountains. They can be used to adorn a garden, pool, outdoor living area, or even a home or business!

The Formal Falls Basin protects the pump & plumbing assembly. Decorative stones disguise the molded basin and flex hose. The pump moves water through the flex hose and into a Formal Falls Stainless Weir. From there, the waterfall cascades into the basin and the cycle begins again.

Why is Formal Falls® a superior product?

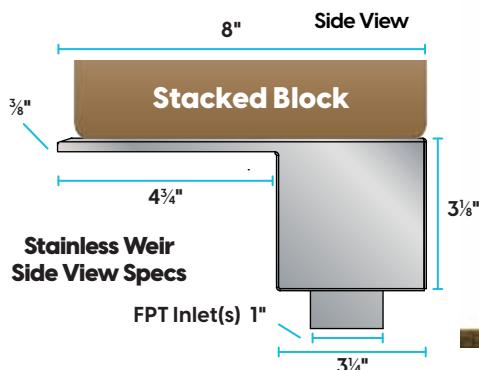

- Stainless steel weir construction
- Formal Falls® Basin molded in-house
- Full sealed top supports stacked block
- Can be used with mortar
- Pump is easily accessed inside basin
- Large opening for thick showy water
- Self-draining – won't crack in the winter temps

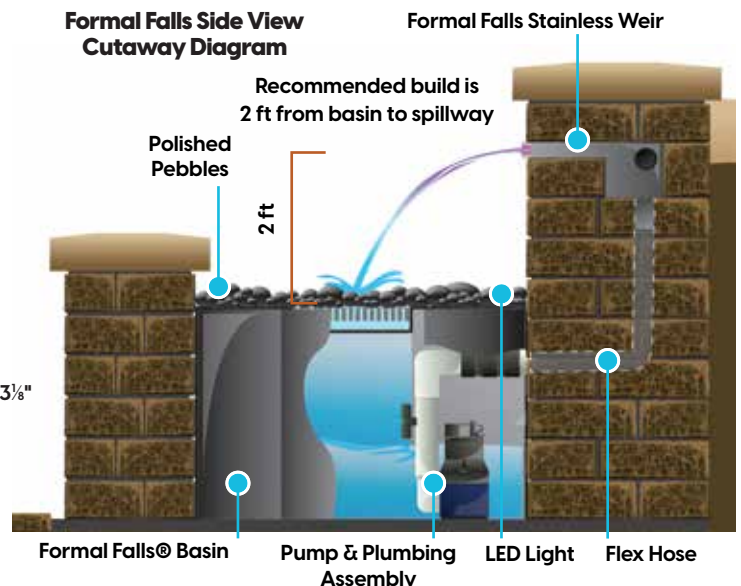

Made in the USA

Beware of Cheap Imitations...

- Acrylic will crack in winter if not winterized
- Water flow splits if debris lodges inside

Formal Falls Side View Cutaway Diagram

Our Formal Falls® Kits

Retaining Wall Waterfalls have expansive design potential, limited only by the designers imagination. Thus we've designed our kits with limitless purchasing options. The choice is yours. We can custom quote any of your water feature needs including all of the equipment and supplies you will need.

- 16" x 16" x 16"h
- 12 gallon capacity
- Black Filter Mat
- Lifetime Manufacturer Warranty

Made in the USA

Call us for custom quotes or kit suggestions on larger jobs.

Stainless Steel Spouts

- Suggested flow: 600 - 900 gph
- 3 unique spout shapes
- Dimensions: 2"W x 2"H x 7.25" depth
- 1" threaded inlet

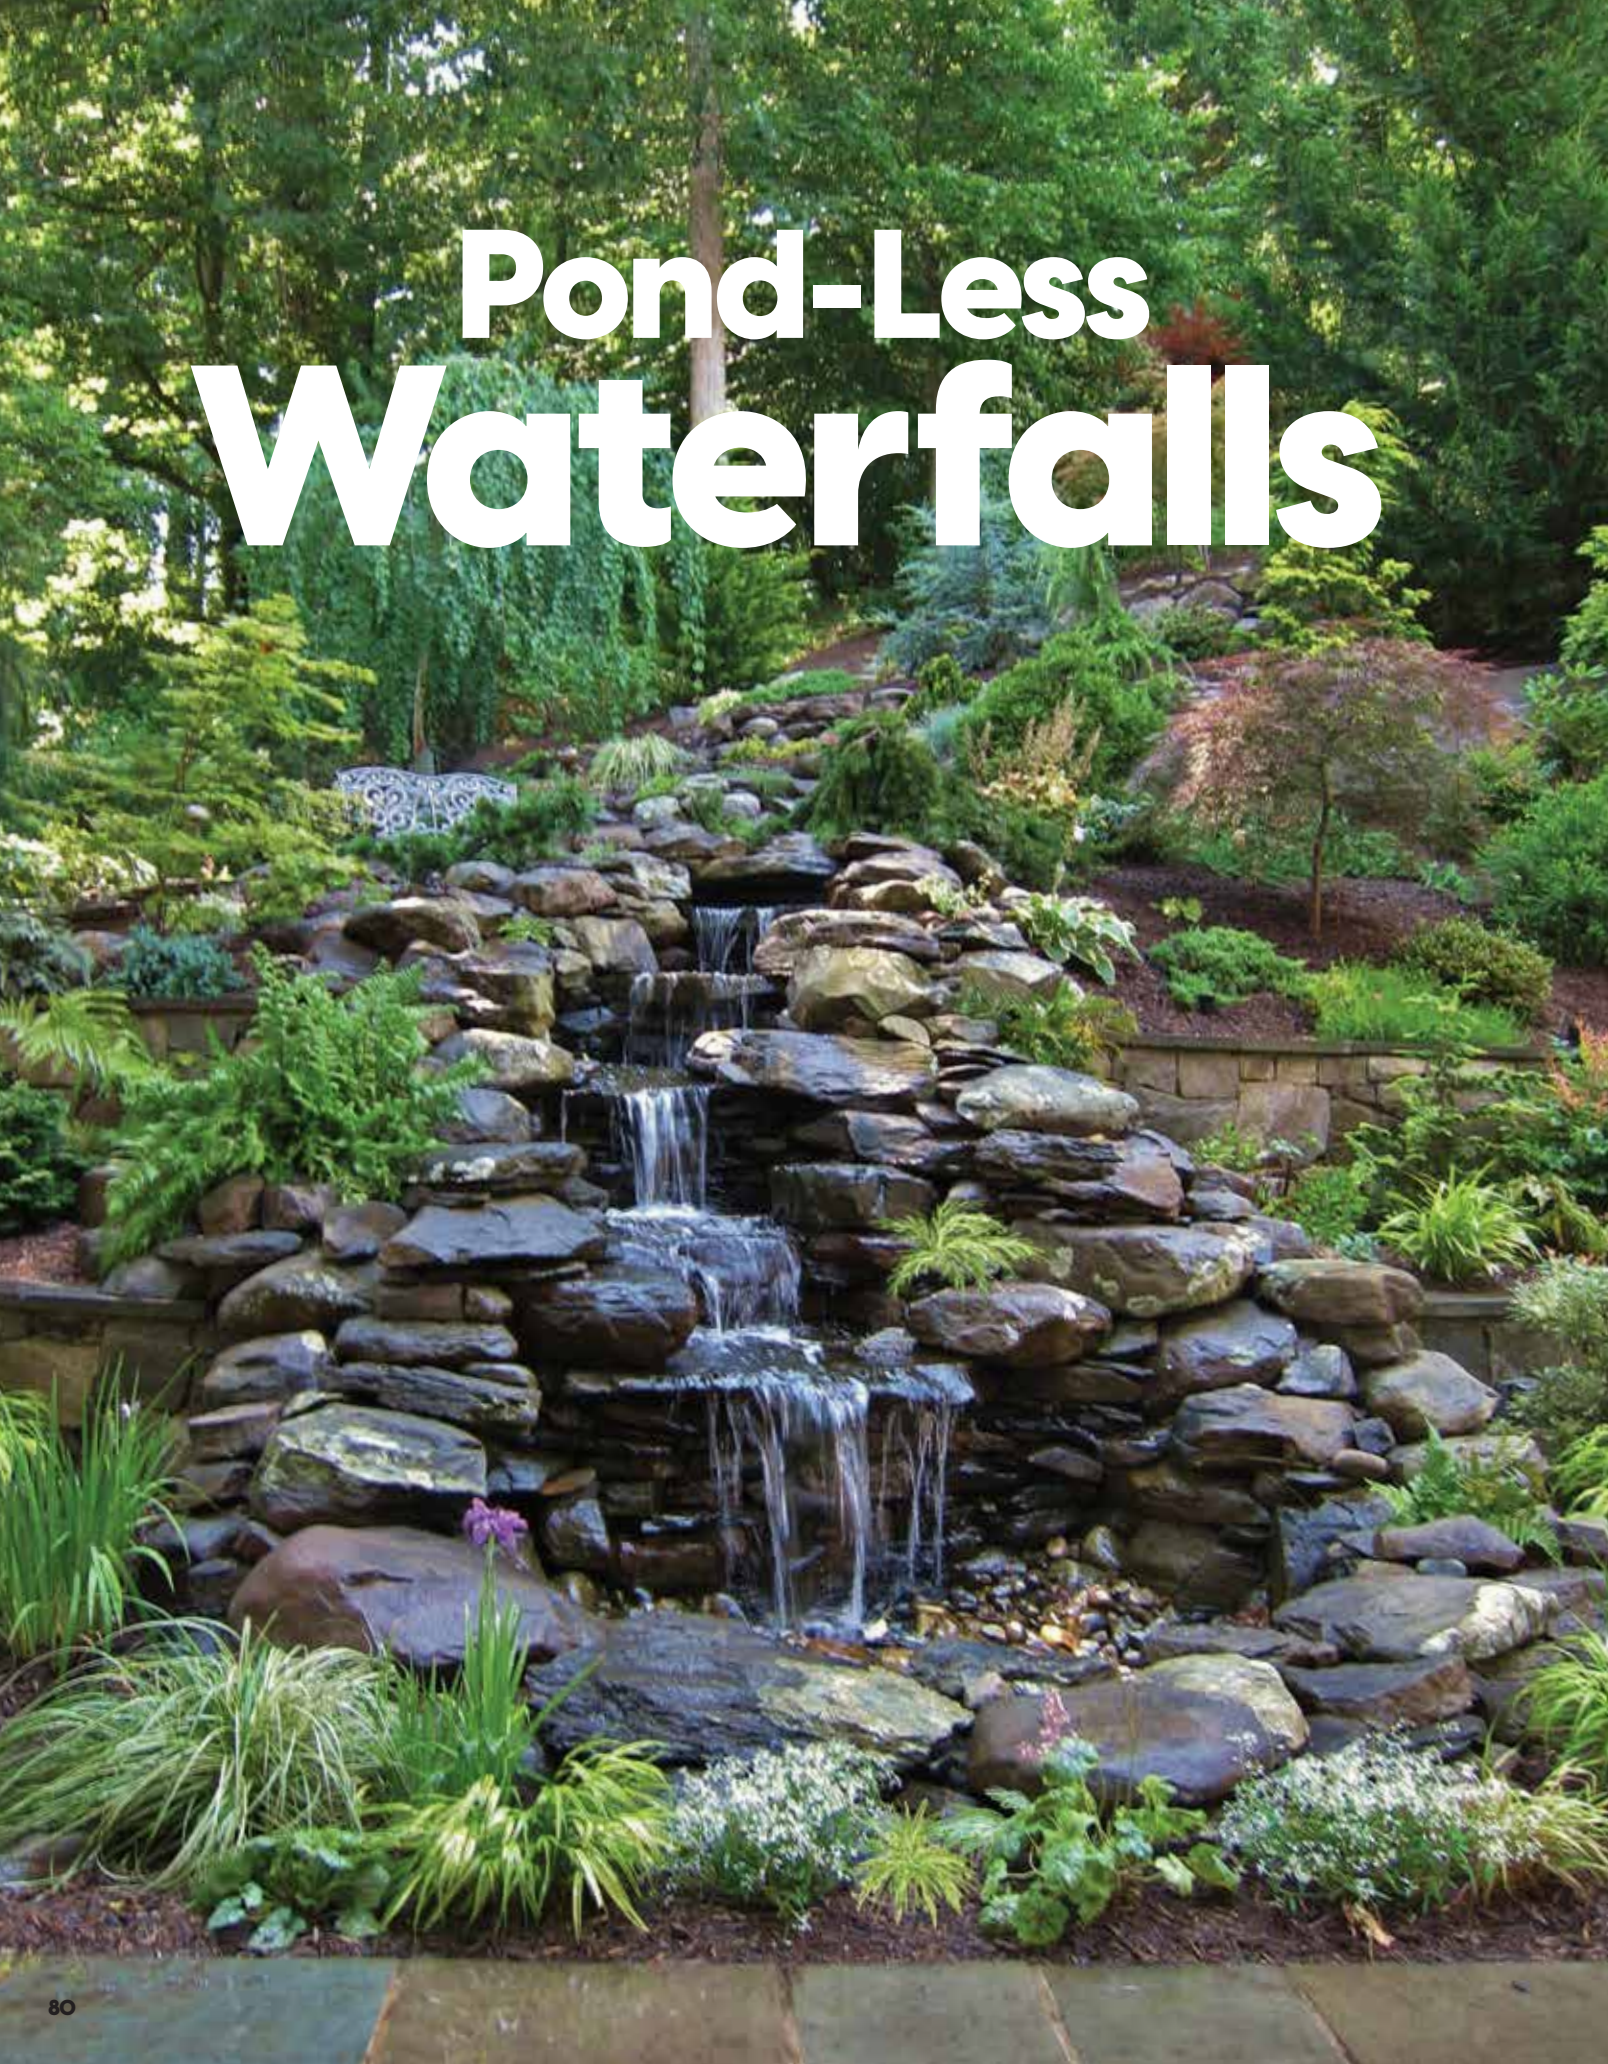

Unlike a garden hose or protruding plumbing, the Formal Spouts deliver subtle flow with a gentle sound that is ideal for block columns, special focal points and Indoor\Outdoor applications. Add a stainless spout on either side of a Formal Falls Waterfall!

Item	Description	Retail
A	PB1939 Small Round Spout Only	\$215.99
B	PB1922 Large Round Spout Only	\$215.99
C	PB1915 Square Spout Only	\$215.99

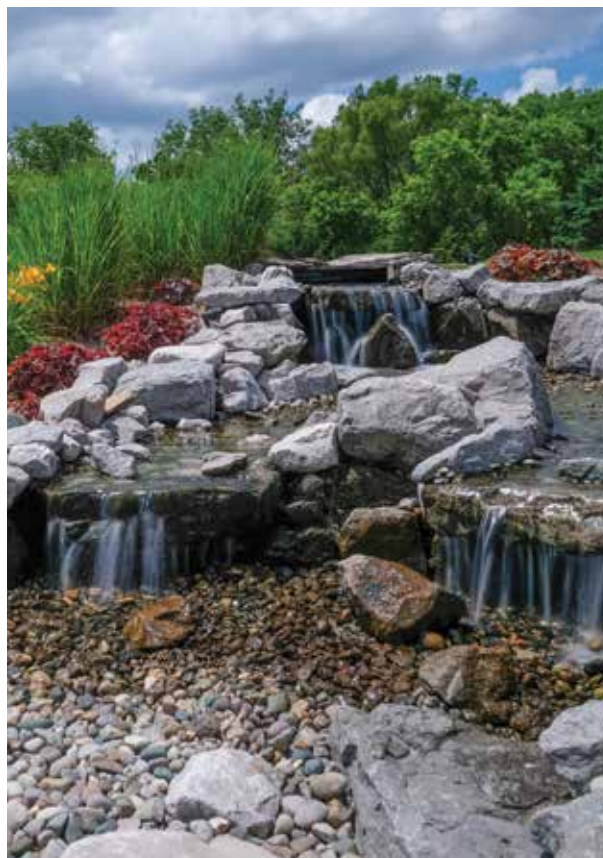

Pair with Item# PBSSBK Mini Basin Kit (above)

Pond-Less Waterfalls

Pond-Less Waterfalls In a Variety of Styles and Shapes

Our Cascading Waterfall Kits let you enjoy all the restful and relaxing benefits of a waterfall without the safety or maintenance concerns of a pond. Families with young children or small yards will delight in this beautiful option. Pond-Less Waterfalls make an excellent choice in many settings, both residential and commercial. From short and narrow falls to wide and long falls, the design opportunities are endless so let your creative juices flow!

Easy Installation with Our Kits

STEP 1

Layout appropriate Basin Matrix and Pump Canyon® configuration. Outline area with spray paint. Excavate to required size and depth.

STEP 2

Install Underliner first, then Rubber Liner. Place Pump Canyon and Matrix Boxes on top of the liner. Backfill outside the lined basin area.

STEP 3

Expand liner up your incline and place Cascade Box on liner over leveled area at the top.

STEP 4

Place Pump in the Pump Canyon. Connect Plumbing from Pump to Cascade Box.

STEP 5

Cover Matrix and Pump Canyon with decorative stone. Stack rocks to build the waterfall and stream. Fill with water and plug-in Pump to start.

Pond-Less Waterfall Benefits

Less Maintenance: Just add water! It's that easy. Simply refill water basin when needed due to evaporation, and on occasion remove debris.

Less Worry: These water features are safe for children and pets to play near, and allow them freedom of exploration, while you relax.

More Enjoyment: With less worry and less maintenance, you have more time to enjoy your beautiful serene focal point. Plus, moving water doesn't attract mosquitoes like a pond can.

Less Space: Even if you have limited space, you can create the soothing sights and sounds of water moving through your yard.

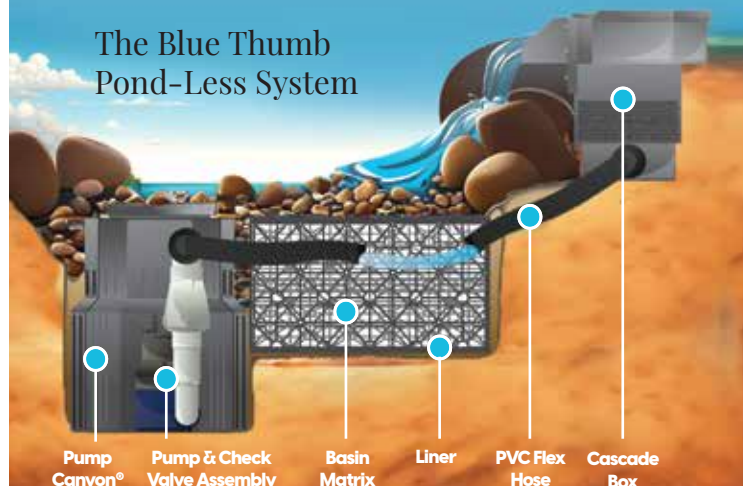

Less Restrictions: No extensive construction is required, allowing versatility in where and what you'd like your outdoor focal point to be.

More Creativity: You can easily direct the water travel through your streambed the way you want to experience it; a long and gentle stream, a tall drop that splashes on the rocks below, or your unique design.

How it Works

A Pond-Less or Cascading Waterfall works much like a regular pond. The hole is dug and lined with a flexible Liner, then Basin Matrix boxes are added to keep the reservoir open and available for water. The basin matrix boxes are covered with rock and gravel, then the basin is filled with water, which will be pumped up to the Cascade Box. When running, water is circulated from beneath the rocks and gravel by a Pump that sits on the bottom, inside a Pump Canyon. A PVC Flex Hose runs from the Pump Canyon up to a Cascade Waterfall spillway and into an overflowing waterfall, where it falls back into the reservoir basin.

We design our Pond-Less Waterfall Kits to size, making installation easy in any size space.

Pond-Less Waterfall Perfect for Trouble Areas

This landscape area had a steep slope that could not be planted and mulch would wash away during rains. The perfect solution was adding a pond-less feature to this landscape.

BEFORE

AFTER

We recommend considering these products to enhance your enjoyment and lessen maintenance tasks:

Water Treatments such as Muck Buster® to keep water cleaner.

PAGES 112 - 113

Extend the enjoyment of your waterfall into the evening hours with our LED lighting options.

PAGES 109 - 110

Black Foam for stream control.

Cascading Falls Kits

This Elite Series Kit is Our Contractor Grade Product that includes our original Cascade Falls Boxes

Blue Thumb Elite Cascading Falls Kits

Our Cascading Falls are also commonly called Pond-Less Waterfalls. Since the water level never pools above the level of the rock and gravel, it gives the appearance of a waterfall without a pond, when in fact the "pond" is still there but is underground. Fish and certain aquatic plants, such as water lilies, require an open pond. However, Pond-Less Waterfalls offer a great water feature alternative with several advantages; less maintenance, less space, more versatility and safety for pets and children.

Included in every Pond-Less Waterfall Kit

- Fish-Friendly Rubber Liner
- Protective Underliner
- Cascade Falls/Spillway Box
- Submersible Blue Thumb Pump
- Protective Pump Vault
- Water Basin Matrix
- Black PVC Flex Pipe
- Installation Kit & Manual
- Starter Water Treatment
- Pump Discharge Assembly

Water Matrix Boxes for Basins

- Our Basin Matrix is designed to replace up to 90% of the gravel traditionally used in the reservoir of Cascading Falls applications.
- Creates over 3 times more water storage capacity than gravel
- Less labor excavating and moving boulders
- Matrix strength is 5,472 lbs per sq/ft
- Great for tighter spaces when you build your stream/waterfall to end right over the top of the Matrix.
- Extra water volume reduces the maintenance of filling due to evaporation.

Large

Small

Elite Pump Canyon® Extension

- Allows a deeper dig
- Auto Fill spinweld included (Auto fill kit sold separately)
- Etched guidelines every 4" for easy cutting to customize depth of basin

Blue Thumb Eco-System

About Our Complete Pond Eco-System

- A Biological Waterfall Boxes**
Filters harmful waste and toxins from water, keeping your pond clean and clear. Provides excellent surface area for beneficial bacteria growth while making a simple and artistic way of creating a waterfall. Easy to camouflage-especially when using the Landscape Lid.
- B Black PVC Flex Hose**
Carries water from skimmer box up to the biological waterfall box. Much easier to install than rigid PVC.
- C Aquatic Plants**
Add beauty to any pond! Plants can be placed throughout the pond or along the pond's edge. There are many varieties: floating, marginal, sinking, oxygenating and lilies. Water garden kits are great when your desire is to keep many colorful and beautiful aquatic plants.
- D Rocks & Gravel**
Provides additional surface area for beneficial bacteria to colonize. Protects liner from harmful UV rays and damage from animals. Creates a very natural look.
- E Fish**
Adding colorful Koi and Goldfish creates an even more dramatic display. Water gardens are great for Goldfish and Koi.
- F Protective Underliner**
A non-woven, protective underliner fabric forms a soft padding for the liner. Installs much quicker than newspaper and covers the vertical walls unlike sand. Unlike carpeting, it allows gases to escape out the sides from the earth's soil.
- G Fish-Friendly Rubber Liner**
Super-strong 45-mil EPDM liner is the best choice when building a pond. Very flexible - conforms to pond's curves and slopes.
- H High-Efficiency Pump**
Pump sits in back pump chamber protected from clogging by nets and filter mats. Blue Thumb pumps are recommended as they will use far less electricity and are meant to operate continuously.
- I Mechanical Skimmer Box**
Simplifies routine maintenance by removing floating debris before it sinks to the bottom of the pond. Protects the pump and hides unsightly plumbing.

Included in every Elite Pond Kit

- Elite Skimmer with Matala Mat and Holder
- Elite Waterfall with Bacti-Twist Media
- High Efficiency Pump
- Check Valve Assembly
- PVC Flex Pipe
- 3-Pack LED Light Kit
- Fish-Friendly Rubber Liner

- Pre-plumbed Auto Fill Spinweld with Plug
- Instruction Manual

Made in the USA

Our Elite Skimmer Features

A Protects & Hides Pump!
Since the pump is located & protected inside the skimmer there's no unsightly plumbing located inside the pond.

B Pre-Plumbed with Over-Flow Option!
Spinweld and plumbing fittings included to take overflow water away from pond.

C Two Discharge Options with UniSeals!
Each Elite Skimmer comes complete with two discharge options. Fitting included to plug one side when using one pump or use both discharge holes when using two pumps. Rubber UniSeals keep dirt from falling into skimmer.

Natural faux cover lid hides skimmer at edge of pond

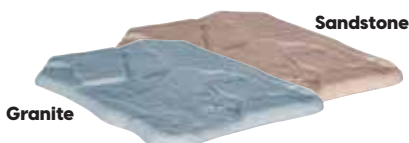

D Easy-to-hide Snout with Buoyant Door!
Our snout & door design allow you to "frame" the skimmer face with boulders to help hide it from view. Attach the snout to the skimmer body using Marine Grade SS Self-Taping Screws (included)

E Matala Mat Eases Skimmer Maintenance!
The Elite Skimmers come standard with Green Density Matala filter media. This makes it much easier to clean the skimmer

F New Design Increases Strength!
Our Elite Skimmers were designed to increase strength and eliminate distortion.

Our Elite Waterfall Features

- A Removable Landscape Lid!**
Our lid will hold rocks, plants, gravel, even mulch! It's never been easier to disguise, hide, and naturalize a waterfall box!
- B Octagonal Design!**
Provides maximum strength, and a much easier shape to camouflage than circular or rectangle designs.
- C Two Bulkhead Openings!**
Second opening can be used as a back flush to perform water changes, or connect multiple pumps or plumbing lines.

- D Reversible Waterfall Snout!**
Install the snout in the usual way for basic installation or reverse the snout for a more advanced waterfall appearance.
- E Two Matala Mats Included!**
Matala mats have 2 times the biological benefit and will last up to 4 times longer than traditional mats!
- F Media Bag**
Mesh Media Bag included- fill with Bacti-Twist Bio Media (not included, see below)

Products to Install and Maintain Water Features

From liners to water treatments and even fish food Blue Thumb has everything you need to install and maintain your water features.

Liners & Underliners

EPDM Rubber Liners and protective underliner are essential for a successful pond installation.

A 'fish friendly' liner that is not harmful to the environment. Unlike preformed liners, these liners can easily be shaped to fit the unique contours of your pond, giving you much more creative design versatility. Multiple membrane panels can be quickly and securely sealed with the QuickSeam Tape Kit (#PGQSTK) to accommodate larger pond lining applications and unique design elements.

EPDM Rubber Liners

- High flexibility 'holding power' allows year-round installation
- Incredible resistance to UV and waterline-weathering
- Fish-Friendly
- 45 mil, rubber EPDM
- 20-Year Warranty!

Mini Rolls

Item	Description	Retail
PG2025	20' x 25' Roll	\$993.33

PGQSRK	\$36.99

PondGard Joint Cover

6" Diameter Patch

Item	Retail
PGJC6	\$9.99

Double Sided Seam Tape

- Two sided tape for joining two pieces of liner together.
- For maximum sealing use the Single Sided Seam Tape in conjunction with this tape.

Single Sided Seam Tape

- 6" wide single sided tape used to seam two panels of liner together.
- Use QuickPrime Plus to clean and dramatically improve tape adhesion to liners.

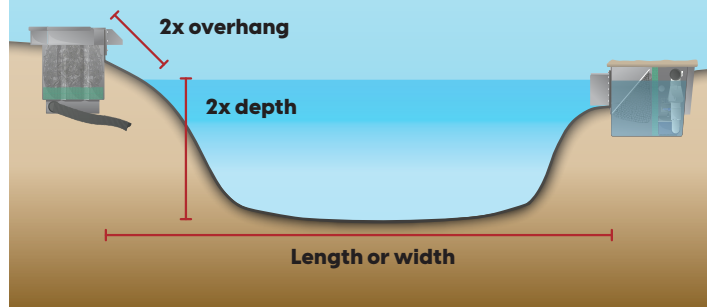

Item	Description	Retail
DST325	3" x 25' Roll	\$56.99
DST100	3" x 100' Roll	\$189.99

Item	Description	Retail
SST625	6" x 25' Roll	\$128.99
SST6100	6" x 100' Roll	\$629.99

Calculate what size liner you will need for your pond project:

Length + (Depth x 2) + (Overhang x 2) = Length of Liner
Width + (Depth x 2) + (Overhang x 2) = Width of Liner

We recommend a 2' overhang on all sides of the water feature. Be sure to measure the longest, widest, & deepest points of your water feature to use in the formula in order to ensure the accurate size. Better to be a little long than to be a little short!

QuickPrime Plus Quart

- Use to prep areas where two pond liner sheets are joined.
- Covers 25 linear feet

Item	Retail
PGQPP	\$60.99

Blue Thumb Mag-Drive Pumps

These magnetic drive heavy duty pumps are equipped with a removable pre-filter, adjustable flow, replaceable ceramic shaft impellers, and long heavy duty power cords.

- Energy efficient
- Adjustable flow
- Ceramic shaft impeller
- 5-year Warranty

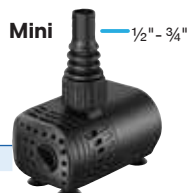

Fountain Pumps

For Fountains & Smaller Water Features

Blue Thumb Mini Mag-Drive Fountain Pumps

- Perfect for running very small decorative fountains.
- Dimensions with 1" L guard: 4"L x 2.5"W x 2.5"H

Pond/Waterfall

MEDIUM-LARGE

Blue Thumb Stainless Steel Pump

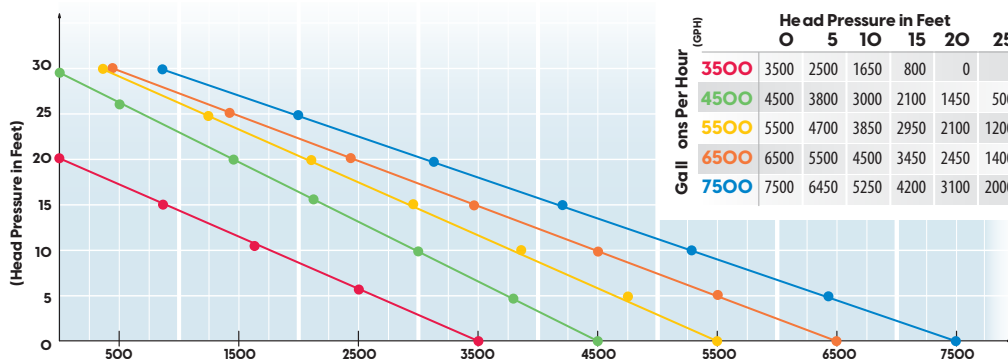

Discover the ultimate in reliability and performance with our professional-grade pond and waterfall pumps, designed with a durable stainless steel body for long-lasting resilience. Engineered to withstand the elements, these pumps are perfect for both residential and commercial installations. With a wide range of popular flow rates, they seamlessly fit into any setup, ensuring optimal water circulation and stunning water features.

- Perfect choice for garden ponds & waterfalls
- Energy efficient, continuous, asynchronous motor
- Submersible install in skimmer, Pump Canyon®, or directly in pond
- Screened intake reduces clogging
- Professional contractors preferred choice
- Thermal protection - shuts off if no water present
- Vortex impeller with wear-proof ceramic shaft
- Wet rotor technology - underwater use only
- Easy to clean; Oil-free pump is safe for fish
- Durable motor designed for long life
- 2 Year Warranty

CVC Series

Constructed of heavy-duty cast iron with an air filled motor, built in thermal overload protection and dual mechanical shaft seals. The vortex impeller design gives this pump excellent solids handling, yet still maintains high efficiencies for its class.

- Vortex impeller for superior solids handling capability, up to 2" diameter
- Air-filled Class E insulated heavy duty motor, operates cooler with higher efficiencies
- 2-year Warranty

Color LED Lighting

IllumiGlow® Color Changing Fountain Plume Light Kit

You can easily change lighting inside and out of your Real Stone Fountains with our RGB Color Changing kits! This plume lighting kit allows water to spout through the ring lights inset inside your stone fountains.

- RGB Color Changing LED Lighting System
- 40' Remote Control Distance
- Auto Color Cycling Option
- Waterproof Construction
- Auto Dusk 'til Dawn Option
- 12V AC/DC

Note: Not all stone fountains are drilled for plume lighting, please consult with our Sales/Tech Team for set up information

Item	Retail
PB2903	\$219.99

Included in this Lighting Kit:

- Three (3) RGB LED lights
- Transformer
- Controller and RF Remote
- Photocell Sensor
- 5-way, 4-pin Splitter
- Power Connection Cords
- 1-year Warranty

Drilled stone fountain plumes are illuminated as water is pumped up through the LED light rings.

IllumiGlow® Color Changing Pond & Garden Light Kit

Blue Thumb's IllumiGlow® Color Changing LED Lighting System, has been manufactured with quality materials to ideally integrate into any pond and garden scene, thanks to their compact design.

- Glass lens suitable for use in or out of water.
- High power energy efficient LED emits a natural warm light providing years of maintenance free satisfaction.
- Easy to use RF Remote
- Control operates up to 30 ft. from the RF Control Module.
- The 110-120V AC transformer converts the power supply to a safe 12 volts for peace of mind in your pond or garden.

IllumiGlow® Color Changing Pond & Garden Light

- One (1) 3-watt RGB Pond LED Light with 30' cord
- 1-year Warranty

Item	Retail
PB2910	\$134.99

Natural Water Treatments

Pond Cleaner™ - Dry

WATER FEATURE TREATMENTS

Pond Cleaner Dry naturally results in a cleaner pond, healthier fish, improved dissolved oxygen levels, and reduced ammonia levels.

- Clears pond water with natural bacteria & enzymes
- Maintains biological filter
- Breaks down suspended dead debris
- Safe for all aquatic life

Item	Size	Gal. Treated	Retail
PB2132	8 oz	8,000	\$20.69
PB2149	2 lb	32,000	\$58.49
PB2156	6 lb	96,000	\$152.99
PB2163	25 lb	400,000	\$449.99

Purify - Liquid

Purify Liquid will immediately remove chlorine, chloramines and heavy metals that are often present in city water supplies. Purify Liquid will also add a slime coat protectant to the water to help fish heal wounds and abrasions while protecting them in times of stress such as during water changes & clean-outs.

Item	Size	Gal. Treated	Retail
PB2088	32 oz	6,400	\$24.99

Immediately removes chlorine

Purify - Dry

Purify Dry will immediately remove chlorine that is present in city water supplies. Chlorine is toxic to fish. Left untreated chlorine can cause gill damage and leave fish unable to breathe.

Item	Size	Gal. Treated	Retail
PB2095	16 oz	48,000	\$17.99

Seasonal cold water cleaner

Spring & Fall Clean Water Soluble Packets

- Replenishes winter bacteria loss during spring start-up
- Accelerates decomposition of leaves, twigs & sediment all winter long
- Cold water formula - use when water temps are between 35° - 55°

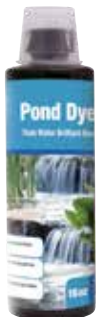

Item	Size	Gal. Treated	Retail
PB2811	12 packets	12,000	\$26.99
PB2828	24 packets	24,000	\$44.99

Blue Pond Dye

Blue Pond Dye is a non-toxic pond dye designed to help keep water sparkling clean and cool. If a pond does not have significant plant coverage, it is a good idea to use pond dye in the hot summer months to shade the pond.

- Tints water brilliant blue
- Safe for all aquatic life
- Shades & protects your pond

Item	Size	Gal. Treated	Retail
PB2736	16 oz	16,000	\$14.39

Fast-acting pond clarifier

Pond Clear

Pond Clear is designed to clear cloudy, muddled pond water quickly, usually within 1-3 hours. Pond Clear has unique properties that allow suspended particles in water to attract together and fall to the bottom of the pond where they can be vacuumed out or removed by filtration.

- Clears pond water fast
- Makes pond water sparkle
- Safe for all aquatic life
- Dosage Rate: 1 oz treats 500 gallons

Item	Size	Gal. Treated	Retail
PB2194	16 oz	8,000	\$17.99
PB2200	32 oz	16,000	\$26.99
PB2880	Gallon	64,000	\$80.99

Safe, fast, and effective

Pond Cleaner™ - Liquid

Pond Cleaner Liquid is specifically designed to start working the second it hits the water.

- Removes ammonia, nitrite & nitrate
- Clears water, removes debris & seeds filters
- Perfect for new pond start-up & heavy fish loads
- Safe for all aquatic life

Item	Size	Gal. Treated	Retail
PB2170	32 oz	12,000	\$22.49
PB2187	1 Gal.	48,000	\$53.99

SAFE FOR PETS & WILDLIFE

Muck Buster®

Muck Buster's multi-purpose cleaning action cleans ponds with an unprecedented combination of activated barley, natural bacteria, enzymes and a powerful secret ingredient. These ingredients work in tandem to clean, polish and break down dead organic debris that settles to the pond's bottom.

- Removes muck & sludge from pond's bottom
- Contains activated barley
- Removes slimy debris from ponds, waterfalls & streams, and fountains
- Safe for all aquatic life

Item	Size	Gal. Treated	Retail
PB2101	1 lb	8,000	\$31.49
PB2118	2.5 lb	20,000	\$67.49

PB2675	25 lb	200,000	\$449.99
PB2682	24 tablet	4,000	\$29.69

Tablet form is super easy to use in our fountains

These water treatments are safe for fish, birds and pets!

Barley Straw Pellets

Barley Straw Pellets utilize barley degradation technology to help manage ponds all year long. When placed in an area of steady water flow they will slowly degrade and emit a natural chemical that cleans and polishes pond water naturally.

- Cleans & polishes pond water naturally
- Fast-acting, easy to apply
- Steady release for long-term clarity
- Includes (1) Application Mesh Bag
- Safe for all aquatic life

Item	Size	Gal. Treated	Retail
PB2705	5 lb	5,000 3 mos.	\$31.49

Barley Extract

Barley Extract is the natural solution to maintaining a clean and healthy pond all year long.

- Maintains clean & clear water
- Faster than pellets
- Cleaner than bales
- Easy application
- No mess formula
- Safe for all aquatic life

Item	Size	Gal. Treated	Retail
PB2767	16 oz	8,000	\$19.79
PB2774	32 oz	16,000	\$31.49

Great alternative for clearing water

PondShock™ Balls

CrystalClear® PondShock™ is a great alternative to chemicals to clear your pond water fast. The organic ball contains billions of all natural, live bacteria and enzymes that are designed to rapidly break down ammonia, nitrites and organic waste. Can be used in the spring to jump-start biological filters, when water quality issues escalate or before new fish are introduced to the pond. Use once a month or as needed when water temperatures are above 50°F. Safe for all aquatic life.

Item	Size	Retail
CC023PS	Single Ball	\$21.99

Foam Remover

Foam Remover will remove foam from water within seconds of application. Excessive proteins present in pond water usually cause foam. Protein foam can be harmful and should be removed quickly.

Item	Size	Gal. Treated	Retail
PB2729	8 oz	8,000	\$8.99

Algae Treatment

CrystalClear® Algae D-Solv™

SAFE FOR FISH AND PLANTS WHEN USED PROPERLY

CrystalClear Algae D-Solv is a 5.4% active EPA registered algaecide. CrystalClear Algae D-Solv targets string algae, blanketweed and green water caused by single-celled algae. Unlike some algaecides on the market, CrystalClear Algae D-Solv contains no copper and will not harm fish and live plants when used as directed. 1 ounce treats 360 gallons.

Item	Size	Gal. Treated	Retail
PB2002	16 oz	5,760	\$14.99
PB2019	32 oz	11,520	\$24.99
PB2033	1 gal	46,080	\$54.99
PB2668	2.5 gal	115,200	\$109.99

Algae D-Solv and AlgaeOff cannot be shipped to Alaska, Connecticut, Hawaii, Puerto Rico or Canada.

Barley is an inexpensive, non-toxic, long lasting, low maintenance, algae preventative!

Barley Bales

Barley Bales are easy to use. Place the bale on the pond's edge preferably near moving water in the spring before algae growth appears.

- 100% natural barley straw
- Single bale package in mesh netting
- Actively clears organic debris for 6 months
- Safe for fish, plants, pets, and pond wildlife
- A 1 pound bale treats up to 5,000 gallons

Item	Retail
PB3524	\$11.49

Pond Fix™

Keep ponds and water gardens with live plants and fish clean and clear.

- Quickly lifts debris from rocks, waterfalls & gravel
- Great for ponds with fish & plants
- Works on contact
- Adds oxygen to the pond

Fish Care

Having fish is one of the biggest draws of having a pond. Blue Thumb Retail can guide you on any koi and goldfish questions you may have. If you are in the area, stop in and see our fish!

Warm water fish food formula

Sakana® Koi - Growth & Color Pellet

Growth & Color floating pellets are a nutritionally complete and balanced fish food formulated to meet the requirements of Koi. The unique formula is a scientific blend of quality protein sources and vitamins such as Vitamin E, and ascorbic acid (stabilized Vitamin C). Amino acids are also added to help assist in nutrient absorption. Daily feeding of Growth & Color food helps to support growth and maintain bright colors in fish while at the same time helping to reduce waste in your pond.

- Pellets soften quickly so even the smallest fish can eat them
- Feed 1-2 times per day

Made in the USA

Fish Health

Pond Salt

Pond Salt is formulated to increase koi and goldfish electrolytic intake. Electrolytes are critical in building and maintaining a healthy slime coat. Electrolytes such as potassium are essential in wound repair and in times of heavy stress (i.e. – during water changes or clean-outs). Salt is excellent for mucus production when healing from a wound. Pond Salt will also help ward off and remove most common protozoan parasites found in koi and goldfish such as: Dactylogyrus, Byrodctylus, Epistylis, Trichodina and Chilodonella. Pond Salt can be used in a salt bath for heavy infestations or as a routine treatment to keep parasites from entering the pond environment.

- Controls 80% of all common pond parasites
- Helps restore natural electrolytes
- Maintains healthy slime coat
- Safe for all aquatic life

Aeration Custom Kit

Create Your Own Aeration Kit in Four Easy Steps:

1 CHOOSE PUMP

HAKKO Air Pump

- Long life expectancy
- Low power consumption with overload protection
- Guarantees a dry and pure air flow
- Silent operation
- Highly efficient
- Simple maintenance
- Completely oil-free

Item	Hakko Linear Air Pumps	Retail
HK40L	Hakko Linear Air Pump 40 Lpm	\$259.99
HK60L	Hakko Linear Air Pump 60 Lpm	\$329.99

2 CHOOSE AIR SKID(S)

Single Air Skid

Single diffuser plate designed to sink to the pond's bottom.

- Accommodates 3/8" self-weighted tubing.

Item	Retail
A520401	\$41.99

Double Air Skid

Replacement KoiAir Skid: Double diffuser plate designed to sink to the pond's bottom.

- Accommodates 3/8" self-weighted tubing.

Item	Retail
A160184	\$109.99

3 SELECT CORRECT MANIFOLD

Manifold 3/8"

Item	Description	Retail
MTSC238	Air Manifold - Double	\$39.99
MTSC438	Air Manifold - Quad	\$69.99

4 CHOOSE HOSE LENGTH

Self-Weighted Tubing

- 3/8" 100' Roll

Item	Retail
PB1670	\$164.99

- 3/8" Custom Cut to Length

Item	Retail
AIR38CC	\$2.95/ft.

Aeration Parts & Accessories

Replacement Blue Airstones

- 2" Round Blue • 2 Pack

Item	Retail
A160261	\$5.99

Check Valve 2 pack

Item	Retail
A490316	\$3.19

KoiAir™ Replacement Items

Item	Description	Retail
A120910	Replacement Compressor (KA20)	\$151.99

PLUMBING

Flex Hose & Tubing

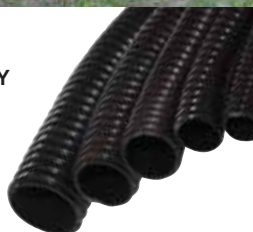

Made in the USA

Black Kink-Free Tubing

Item	Description	Retail
12KFT100	1/2" x 100'	\$149.99
34KFT100	3/4" x 100'	\$174.99
1KFT100	1" x 100'	\$194.99
125KFT100	1-1/4" x 100'	\$254.99
15KFT50	1-1/2" x 50'	\$139.99
2KFT50	2" x 50'	\$219.99

- Excellent for DIY projects
- Extremely flexible around tight corners
- Typically used with barbed fittings.

Clear Vinyl Tubing

Item	Description	Retail
18CVT100	1/8" x 100'	\$29.99
316CVT100	3/16" x 100'	\$31.99
14CVT100	1/4" x 100'	\$54.99
38CVT100	3/8" x 100'	\$66.99
12CVT100	1/2" x 100'	\$89.99
58CVT100	5/8" x 100'	\$204.99
34CVT100	3/4" x 100'	\$241.99
1CVT100	1" x 100'	\$304.99

- Use for short runs
- Not intended to form sharp bends

Self-Weighted Tubing

Item	Description	Retail
PB1670	3/8" x 100' Roll	\$164.99
AIR38CC	3/8" Custom Cut to Length	\$2.95/ft.
PB1675	5/8" x 100' Roll	\$219.99
A510120	Direct Burial Tubing 5/8" x 100' Roll	\$54.99

Kink-Free Fountain Hose

3/4" kink-free tubing 4 feet long is perfect for connecting pumps to the bottom of any vase fountain. Comes complete with 2 quick disconnects.

Item	Retail
34ABDH0SE	\$94.99

PVC Flex Hose

Our industrial strength flexible PVC hose is made in the USA and is ideal for waterlines in water gardens and cascading (Pond-Less) waterfalls. This pipe is heavy-walled, extremely flexible and incredibly durable. Decrease labor, maximize pump flow and eliminate call backs with our quality PVC hose.

Item	Description	Retail
1FLEX100	1" x 100'	\$199.99
15FLEX25	1.5" x 25'	\$72.99
15FLEX50	1.5" x 50'	\$145.99
15FLEX100	1.5" x 100'	\$291.99
2FLEX25	2" x 25'	\$105.99
2FLEX50	2" x 50'	\$211.99
2FLEX100	2" x 100'	\$423.99
3FLEX25	3" x 25'	\$237.99
3FLEX50	3" x 50'	\$475.99
3FLEX100	3" x 100'	\$951.99
4FLEX50	4" x 50'	\$669.99

Maximum recommended flow rates for flex hose

1.5"	= 3,000 gph
2"	= 5,400 gph
3"	= 13,000 gph
4"	= 21,000 gph

- All sizes glue into standard schedule 40 PVC fittings
- Very flexible- temperature range is -10°F to 130°F
- Eliminates back pressure caused by sharp turns in elbow fittings thereby increasing flow
- Increases efficiency of system while reducing fittings & installation time
- Black color makes it easy to hide!

Blue Thumb
Ponds / Waterfalls / Fountains

Matala Filter Materials

- Advanced filter technology for increasing the efficiency of skimmers and other mechanical filters.
- Maximizes the efficiency of biological filters by creating more surface area for beneficial bacteria.
- Use multiple mats in your skimmer for more thorough filtration and less frequent filter maintenance.

Filtration Media

Available in two densities:

Black – Very coarse: Good for high flow applications

Green – Coarse: Allows good flow yet filters well

When using Matala:

For best results in biological filtration stand the Matala so water is forced through the ends of the media, not through the face of it. For mechanical filtration such as in a skimmer box we recommend using the green density.

Matala 1/2 Sheets (24" x 39")

Item	Color	Retail
MTHSBK	Black	\$59.99
MTHSGR	Green	\$59.99

Mechanical Filter Media

Pre-Cut 10' Boxed Mini Rolls

28" Wide Rolls

Item	Description	Retail
AM970013	Coarse Density 2" thick; 28" wide x 90'	\$939.99

Bacti-Twist

Usage: 1 cubic foot of Bacti-Twist media per 1000 gallons of pond water, however, we recommend filling your filter with as much as possible to maximize the biological process which will yield cleaner & clearer water.

Bacti-Twist Biological Filter Media

Bacti-Twist's innovative design is manufactured from HPDE. The free-moving layers of poly-ribbon construction prevent solids from clogging up water flow. Bacti-Twist is lightweight, lasts for years, and provides the surface area necessary to grow beneficial bacteria which processes fish waste as well as remove excess nutrients from pond water.

- Large surface area for bacteria
- Easy to fit in any shape container
- Keep water healthy & clear
- Use with Blue Thumb biological waterfall filters in ponds and water gardens

Item	Description	Retail
PBBT12	1/2 cu. ft.	\$18.99
PBBT1	1 cu. ft.	\$32.99
PBBT2	2 cu. ft.	\$54.99

Makes a great home for
beneficial bacteria to grow

UV Clarifiers

Evolution Aqua

evoUV Clarifier/Sterilizer

Evolution Aqua's line of evoUV pond clarifiers have been manufactured to deliver optimum performance at all times. evoUVs have been designed to clear green water which is caused by single-celled green algae and prevent it from returning. evoUVs will work alongside many different filtration systems but when used alongside Evolution Aqua's pond filtration systems, the evoUV will deliver crystal clear and healthy pond water.

UltraKlean®

UltraKlean® Pressurized Biological Pond Filtration

The patented Ultima filter does the work of two, combining The UltraKlean Pond Filter with high-output ultraviolet clarifier and integrated electronic bulb-saver filters ponds providing crystal-clear water. The included biological media packs tightly together, effectively trapping debris. The high-output UV bulb eliminates single-celled algae

which causes single-celled algae (suspended algae) blooms. The Simple to use self-cleaning feature allows for the unit to be back washed in less than five minutes without opening the canister or getting your hands dirty. A cleaning indicator light will automatically remind you when the filter requires back washing.

UltraKlean® 2000 Pond Filter Features:

- Provides optimal filtration for ponds up to 2,000 gallons
- High-output 14-Watt ultraviolet clarifier eliminates green water
- Integrated electronic bulb-saver extends bulb life
- Self-cleaning backwash simplifies maintenance
- 3-year Limited Warranty

Item	Description	Retail
AI95053	UltraKlean 2000 Pond Filter	\$319.99

UltraKlean® 1500 Pond Filtration Kit Features:

- UltraKlean® 2000 Pond Filter plus 14-Watt UV clarifier
- AquaForce® 1000 Solids-Handling Pond Pump
- 1.5" x 25" Kink-Free pipe, fittings and hose clamps
- Complete filtration for ponds up to 1,500 gallons
- 3-year Limited Warranty

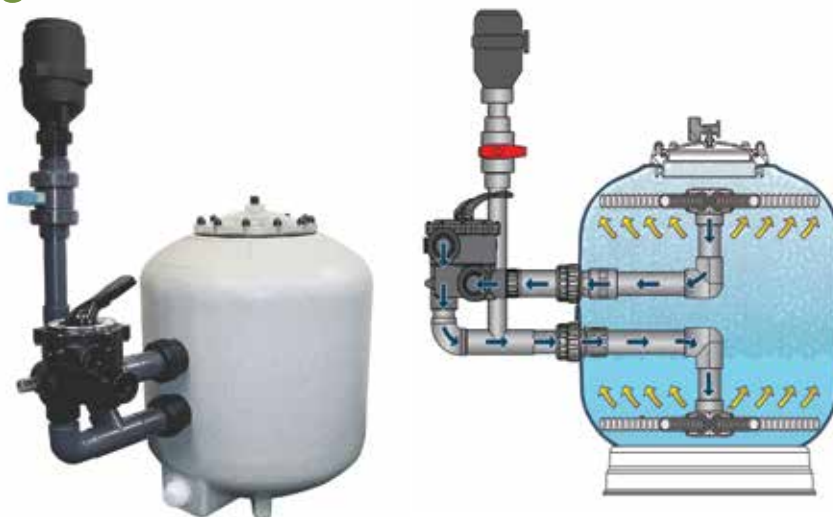

Item	Description	Retail

Filtration Systems

Evolution Aqua

Evolution Aqua's K1 Micro Bead Filtration System

Evolution Aqua's K1 Micro Bead filtration systems are pressurized filter systems that deliver incredible levels of filtration for ponds. By using the new K1 Micro filter media instead of conventional beads, these filters offer better biological and mechanical filtration. This is due to the vast protected surface area of the K1 Micro media. The media also improves flow through the filter meaning you can use lower energy pumps.

Earth Pond Products & Management

Lake and Large Pond Products - Keep Your Water Fresh and Sparkling

Crystal-clear ponds and lakes sparkle and shimmer in the sunlight when they're healthy. Our affordable products simplify the process of keeping your water healthy. We offer easy-to-install systems and beneficial products to restore water clarity, reduce muck, remove weeds, aerate, and enhance natural bacterial activity and growth. Heighten the beauty of your water with our wholesome pond dye.

The Airmax® Ecosystem

Aeration and Treatments

Proactive Pond Management With Airmax

Up until the last few years, most pond owners have relied on reactive pond management practices to keep their ponds clear of excessive, unwanted, aquatic growth. They've traditionally waited for the problem to appear then treated it chemically. Although sometimes necessary as a management tool, chemical applications can be bandages for the real problem and can actually contribute to the problem by adding more nutrient rich muck and increasing the overall nutrient load. Since the introduction of the Airmax Ecosystem™ program, pond owners have been able to convert to, and rely on, proactive pond management practices. Using aeration, 100% natural bacteria and/or pond dyes, they've been able to get directly at the source of their problems; excessive nutrients in the water column and muck at the bottom of the pond. By providing microbial competition for these nutrients, they've successfully maintained healthy, clear ponds.

AIRMAX[®] Science

THE PROOF IS IN THE SCIENCE

AN INDEPENDENT STUDY WITH AIRMAX AERATION

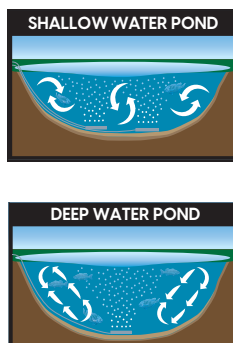

The Pond: A 1/2 acre, kidney shaped, 10+ year old pond located in the state of North Carolina. The pond had nearly 12" of muck buildup and required monthly chemical treatments to reduce algae blooms.

The Plan: Before the Airmax[®] Aeration System was introduced; water samples were taken for phosphorus, nitrogen, biochemical oxygen demand (BOD), dissolved oxygen and water clarity. Phosphorus and nitrogen are contributors to algae growth while dissolved oxygen and BOD help determine the potential for muck and nutrient reducing aerobic bacteria. A PS2O Airmax Aeration System was installed and water samples were taken every 30 days. The results speak for themselves.

The Results in 90 Days: Nitrogen & Phosphorus plummeted 90%. Oxygen became saturated throughout the pond and the water clarity dramatically improved. There was also a major reduction in the amount of algae that needed to be treated. The BOD also decreased substantially while the aerobic bacterial activity increased which was responsible for almost 1/4" of muck reduction in only 90 days.

WHY POND DEPTH MATTERS

The deeper a diffuser plate is placed in your pond, the more area it can effectively aerate. Shallow ponds, or ponds with irregular shapes & bends, require more diffuser plates per surface acre.

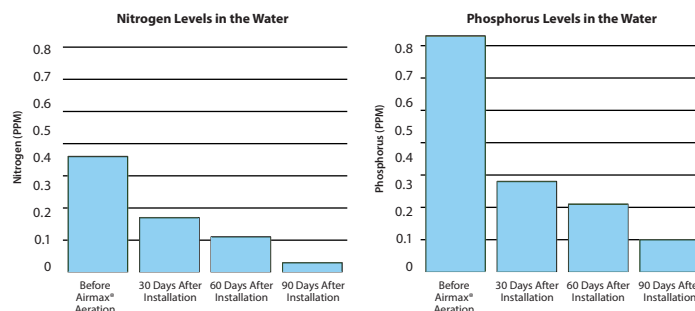

In shallow ponds, the column of diffused air is not able to "open" as far which limits the effective area of each plate. The bends and curves in irregular shaped ponds block the circulation provided by an aeration system which creates the need for more plates to reach isolated sections of your pond.

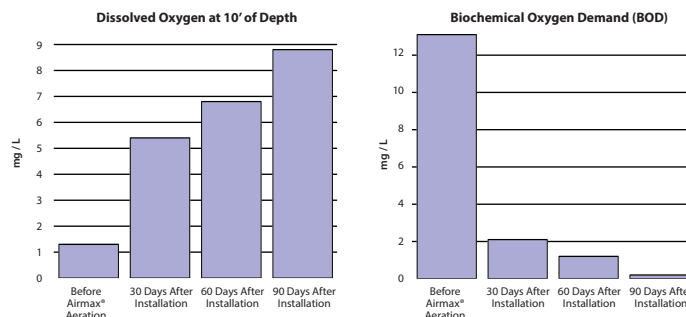

As diffused air leaves the diffuser plate, it rises to the pond's surface in a V pattern, creating a current. The higher this pattern is able to rise, the wider it becomes which allows it to circulate a greater volume of water.

Improve Water Clarity And Reduce Muck In Just 90 Days!

IMPROVED CLARITY THROUGH NUTRIENT REDUCTION

REDUCED MUCK AND HEALTHIER FISH THROUGH OXYGEN SATURATION

RESULTS YOU CAN SEE IN 90 DAYS

Lake & Large Pond Treatments

48 - 8oz packets (24lb)
Treats a 1/2 Acre Pond for
12 Months (4 packets/month)

12 - 8oz packets (6lb)
Treats a 1/2 Acre Pond for
3 Months (4 packets/month)

Use Pond Cleaner LAKE in lakes and ponds to support irrigation, aquaculture, and recreational activities. This natural bacteria formula helps clarify water by utilizing highly concentrated beneficial bacteria and enzymes, all conveniently packed in 8-ounce water-soluble packets. There's no need to open the packets—simply place them in the water, and the bag will dissolve upon contact. The bacteria work to reduce nutrients, odors, and suspended organics in the water, promoting clearer water and a healthier ecosystem that benefits all aquatic life.

Pond Cleaner™ Lake

- Pond Clarifying Natural Bacteria
- Easy-to-use Water Soluble Packets
- Clears Water & Supports a Healthy Ecosystem
- Eliminates Nutrients, Odors, & Suspended Organics
- Highly Concentrated Beneficial Bacteria & Enzyme Formulation
- All Natural & Safe for All Aquatic Life

Item	Size	Retail
PB2972	12 - 8oz Packets (6#)	\$129.99
PB2965	48 - 8oz Packets (24#)	\$369.99

384 - 1oz tablets (24lb)
Treats 4,000 sq ft of shoreline
for up to 12 Months

96 - 1 oz tablets (6lb)
Treats 1,000 sq ft of shoreline
for up to 12 Months

Muck Buster LAKE one-ounce tablets are packed with highly concentrated natural bacteria and enzymes, making them ideal for removing muck along shorelines, docks, or beaches. This powerful formula also serves as a complete treatment for ponds and lakes, eliminating up to 2" of muck per month. For best results, distribute the tablets evenly along the shore or in the water every two weeks when water temperatures are above 50°F. Each package of 64 tablets treats up to 1 surface acre for three months.

Muck Buster® Lake

- Reduces up to 2" of Muck per Month
- Converts Muck into Odorless Gas
- Great for Beaches, Shorelines, & Dock Areas
- Highly Concentrated Natural Bacteria & Enzyme Formulation
- All Natural & Safe for All Aquatic Life

Proven Results in Field Study using Muck Buster LAKE

A customer on Sanford Lake in Michigan treated a beachfront property every two weeks from April through September. In the fall, the village of Sanford performed a drawdown of the lake to maintain the dam. The untreated neighboring area showed a muck buildup, while the adjacent treated area showed the natural sand bottom.

Neighbors beach to the left did not use Muck Buster LAKE

Beach treated for one season with Muck Buster LAKE

Neighbors beach to the right did not use Muck Buster LAKE

Weed Identification

SUCCESSFUL WEED CONTROL STARTS WITH PROPER IDENTIFICATION.

IDENTIFY YOUR TARGET

The more mature your pond, the more you have to deal with weeds. They're not only annoying, but they can choke the life out of your delicate ecosystem if action is not taken. You can't treat what you don't know! Identifying those mystery plants is the first step to being successful.

TWO QUESTIONS TO WEED OUT:

1. What's the size of treatment area?

Are you battling five acres or a small swim area? It not only affects the amount needed, but which product works best.

2. How is the area used?

Swimming? Livestock? Irrigation? Or just a pretty view? Some products have limited or no water use restrictions following treatment.

Emergent Weeds

Perimeter Nuisances
With Submerged Roots

Majority of plant is emerged out of the water. Emergent weeds are rooted plants that grow along the shoreline and stand above the surface or in shallow areas. A defining characteristic of emergent weeds is the stem, which is most often stiff or firm.

Sd

Cattails

Sd

Shoreline Grasses

Sd

Phragmites

Floating Weeds

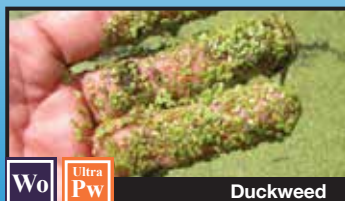

They Love
Shallow Water

Generally found in shallower water, the stem & root system of a "floaters" may start at the pond's bottom, although not always. Foliage will be seen floating on the water's surface. If left untreated, they can completely cover the surface cutting off light and oxygen to the fish below.

Algae/Chara

Musky Odor, Mats On Pond Surface

Algae is a common nuisance with no defined root system. It often floats on the pond's surface in mats, although it may emerge at the pond's bottom before floating to the surface. Chara looks like a submerged weed, but can be differentiated by its musky smell.

AIRMAX™**WipeOut
PondWeed
Defense®**

WipeOut PondWeed Defense is a herbicide for aquatic vegetation in fresh water. Contains fluridone, the same active ingredient found in Sonar® A.S. and Avast!® SC Aquatic Herbicide.

- Controls persistent pond weeds all season
- Treats entire body of water in a single application
- Effective herbicide for floating & submerged weeds
- 4 or 8 ounce size
- 3.8 fl. oz. treats a 1/8 surface acre pond with an average depth of 4 ft.
- Water Restrictions: WipeOut™ PondWeed Defense® carries a 30 day irrigation restriction.
- State Shipping Restrictions: AK, CA, CT, DC, HI, ME, NJ, NY, PR, VT, WA, or Canada

Item	Size	Retail
A530250	4 oz	\$129.99
A530251	8 oz	\$249.99

**Algae & Weed
Control**

Made in the USA

Algae Defense®

- Works on floating & submerged algae
- Fast-acting
- Do NOT use in ponds with koi, goldfish or trout unless carbonate hardness (KH) is above 50 ppm.
- Recommended applicator: 1 - 2 Gallon Sprayer
- 32 fl oz of Algae Defense®, 6 fl oz Treatment Booster™ PLUS, and 2.5 gallons of water in a tank sprayer to treat up to 2,000 sq. ft.
- Water Restrictions: None
- State Shipping Restrictions: AK, CA, CT, DC, HI, ME, NJ, NY, PR, RI, VT, WA, or Canada

Item	Size	Retail
A530130	Gallon	\$49.99

Ultra PondWeed Defense®

- Rapid-acting contact broad spectrum herbicide
- Excellent for use on coontail, elodea/hydrilla, milfoil and pondweeds
- Recommended applicator: 1 - 2 Gallon Sprayer
- 16 fl oz of Ultra PondWeed Defense®, 4 fl oz Treatment Booster™ PLUS, and 1.5 gallons of water in a tank sprayer to treat up to 2,500 sq. ft.
- Water Restrictions: 3 days drinking, 1 day livestock/ domestic animal consumption, 5 day irrigation.
- State Shipping Restrictions: AK, AZ, CA, CT, DC, HI, ME, NJ, NY, PR, RI, VT, WA, or Canada

Up to 3 acres at 6'-9' deep
Up to 4 acres at 9'-12' deep
Up to 6 acres at 12'-50' deep

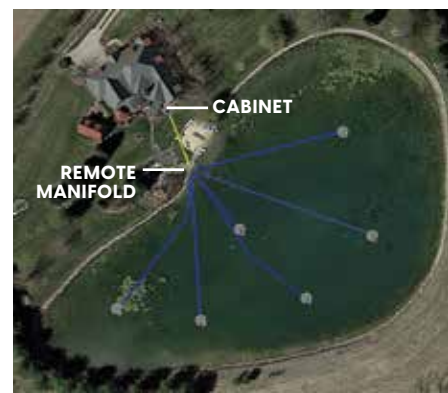

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

Use multiple systems in conjunction with each other for larger applications

Our Powerful PondSeries™ Aerates Large Ponds

Our most popular aeration systems, the Pond Series™ Aeration Systems are powerful enough to aerate an acre per each diffuser and can be adapted to fit uniquely shaped ponds for maximum aeration. Diverse Pond Series systems make aeration a breeze for ponds and lakes up to 50' deep. Our single plate PS10 system is excellent for smaller or regularly shaped ponds. The 6-plate PS60 tackles larger water bodies up to 6 acres. Irregular shaped ponds may require precision plate placement for even circulation.

- Perfect for large ponds or lakes up to 50' deep
- Single systems can aerate up to 6 acres
- Extremely efficient, costs as little as \$13.20/mo. to run 24/7
- Composite Cabinet - 10-year Warranty
- Airline and Diffusers - 5-year Warranty
- Compressor - 3-year Warranty

AIRMAX[™] Shallow Water Series[™] Aeration Systems

Shallow Water 20

AERATES PONDS UP TO ¼ ACRE

- Two (2) ProAir[™] 2 Weighted Diffuser
- Standard Airmax[®] Composite Cabinet
- High Efficiency SilentAir[™] Linear Diaphragm Compressor

Item	3/8" Tubing	Retail
A600803 (SW20)	200 ft	\$1,599.99

Specs	SW20
Max/Running Amps	0.6
Volts	115
CFM	2.5
Max Depth	6'
Op. Cost / Mo.*	\$3.60 (24/7)

Our Shallow Water Series[™] Handles Smaller Ponds Efficiently

Providing bottom-diffused aeration in shallow ponds and lakes can provide a unique challenge to pond owners. Less water depth means smaller plate coverage which usually translates to bigger, more expensive, multi-plate systems. Our Shallow Water Series[™] Aeration Systems provide multiple plates to provide evenly distributed aeration in shallow water applications without forcing customers into large cost-prohibitive aeration units. Designed specifically for use in shallow water, our Shallow Water Series Aeration Systems aerate ponds up to ½ surface acre at 6' deep.

- Perfect for shallow ponds or beach areas up to 6' deep
- Single systems can aerate up to 1/2 acre *
- Extremely efficient, costs as little as \$3.48/mo. to run 24/7
- Cabinet - 10-year Warranty
- Airline and Diffusers - 5-year Warranty
- Compressor - 2-year Warranty

* Use multiple systems in conjunction with each other for larger applications.

Classic pattern dimensions: 9.5'H x 23'W
Trumpet pattern dimensions: 16'H x 6'W
Crown & Trumpet pattern dimensions:
Trumpet 11'H x 6'W, Crown 4.5'H x 32'W
- Control Panel with timer & photocell
- 3-year manufacturer's warranty on fountain & control panel

Item	Size	Cord	Retail
A653028	1HP	100'	\$6,119.99
A653029	1HP	150'	\$6,432.99
A653030	1HP	200'	\$6,744.99
A653031	1HP	250'	\$7,057.99

2 HP Series Fountain Kit

Aerates up to 1 acre

Kit Includes:

- 2 HP Fountain Pump, 230V Motor
- 3 Nozzles:
Classic pattern dimensions: 14'H x 28'W
Trumpet pattern dimensions: 17'H x 7'W
Crown & Trumpet pattern dimensions:
Trumpet 13'H x 8'W, Crown 6.5'H x 38'W
- Control Panel with timer & photocell
- 3-year manufacturer's warranty on fountain & control panel

Item	Size	Cord	Retail
A653050	2HP	100'	\$6,919.99
A653051	2HP	150'	\$7,232.99
A653052	2HP	200'	\$7,544.99
A653053	2HP	250'	\$7,857.99

LED Light Kits

See page 141 for details on these
Airmax® RGBW Color-Changing LED Light Sets

Item	Description	Color	Cord	Retail
A652735	LED 2 Light Set	RGBW	100'	\$1,099.99
A652736	LED 2 Light Set	RGBW	150'	\$1,172.99
A652737	LED 2 Light Set	RGBW	200'	\$1,244.99
A652738	LED 2 Light Set	RGBW	250'	\$1,317.99
A652742	LED 4 Light Set	RGBW	100'	\$1,769.99
A652743	LED 4 Light Set	RGBW	150'	\$1,842.99
A652744	LED 4 Light Set	RGBW	200'	\$1,914.99
A652745	LED 4 Light Set	RGBW	250'	\$1,987.99

*RGBW = Red, Green, Blue, White

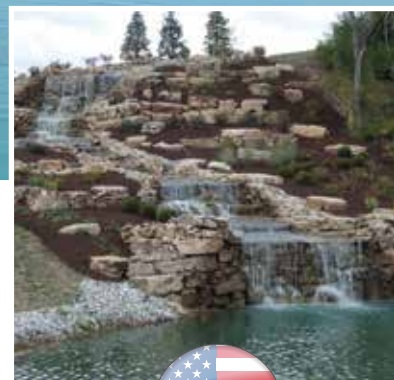

***5 HP Series Fountain and Lighting Kits available. Call for details.**

*Longer cord lengths available up to 600 ft. Call for details.

*Fountains on this page are direct shipped from manufacturer.

Earth Pond Waterfalls

Adding waterfalls to earth ponds has become increasingly popular recently. Until now, there wasn't a good design that addressed the challenges that come with completing this type of installation. Our system incorporates an external pump that draws water through a slotted pipe intake system (buried in gravel to reduce clogging) and then up to the waterfall box. This system assists in aeration and eliminates stratification of the water as well.

Made in the USA

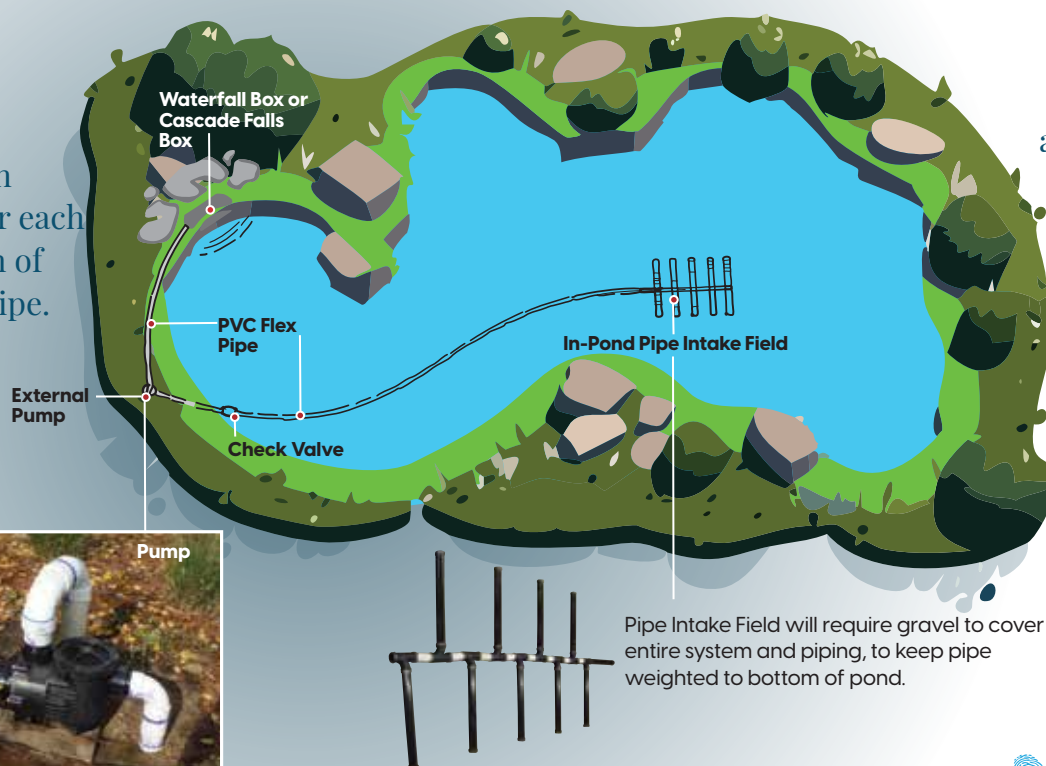

Earth Pond Pumps

Item	External Pump	Outlet	Cord	Retail
BT1292C	9,240 gph; 115V	3"	6' cord	\$1,478.00
BT34105C	10,500 gph; 115V	3"	6' cord	\$1,616.00
BT1120C	12,000 gph; 115V	3"	6' cord	\$1,702.00
BT3HF	17,820 gph; 230V	3"	Direct Wire	\$1,785.00
BT5HF	19,740 gph; 230V	3"	Direct Wire	\$2,107.00

Accessories

Item	Description	Retail
4SLPIPE4	Slotted Pipe, 4" Dia. x 4' long	\$119.99
4FRCAP	Black Flexible End Cap 4"	\$23.69
4FRTEE	Black Flexible Tee 4"	\$87.12
4PVC12	Schedule 40 PVC Pipe 4" x 12" long	\$9.99
KSC40005	4" Swing Check Valve; slip x slip (no unions)	\$139.37

1,600 gph
rating for each
4' section of
slotted pipe.

Each system is custom to the application. Call for free design consultation.

Knowledge Center

Here are some handy formulas to help you to get the proper items for your project.

Tuscany Vase Information

Tuscany Small Vase (30"-32" Tall)

Vase Weight = Approximately 87 lbs
Vase Volume = Approximately 16.59 gallons
Vase Weight with Water = Approximately 222.72 lbs

Tuscany Medium Vase (35"-37" Tall)

Vase Weight = Approximately 93 lbs
Vase Volume = Approximately 23.64 gallons
Vase Weight with Water = Approximately 282.12 lbs

Tuscany Large Vase (39"-41" Tall)

Vase Weight = Approximately 128 lbs
Vase Volume = Approximately 30.68 gallons
Vase Weight with Water = Approximately 373.44 lbs

Tuscany Tall Vase (47"-50" Tall)

Vase Weight = Approximately 155 lbs
Vase Volume = Approximately 40.99 gallons
Vase Weight with Water = Approximately 482 lbs

Tuscany Super Tall Vase (54"-56" Tall)

Vase Weight = Approximately 250 lbs
Vase Volume = Approximately 45.161 gallons
Vase Weight with Water = Approximately 611.29 lbs

Polished Pebbles (40 lb bag)

One bag covers approximately an 18" x 18" area

Pond-Less Formulas

Streams

Length x Width x Average Depth x .25 x 7.48 = Gallons in Stream
Example: 15 x 3 x 1.5 x .25 x 7.48 = 126 gallons

Waterfall Flow Rate

The flow rate is how much water is moving over a waterfall and/or stream. The larger the flow rate the louder the water will be.

- Soft Flow = 100 gph per inch of spillway
- Medium Flow = 150 gph per inch of spillway
- Loud Flow = 200 gph per inch of spillway

Spillway Width x Flow Rate = Total gph
Example: 16" spillway x 150 gph = 2,400 gph

Water in Transit

Is the total amount of water moving in your water feature. This includes the water in your pipe and stream. $L \times W \times .25 \times 7.48$ = Water in Transit.
Example: 15 x 3 x 1.5 x .25 x 7.48 = 126 gallons of water in Transit.

Basin Size

$3 \times \text{Water in Transit} \div 7.48$ = cu ft of basin needed
Example: $3 \times 126 \div 7.48$ = 51 cu ft

Basin Matrix Capacity

Large Matrix – 4.3 cu ft holds 32 gallons
Small Matrix – 2.3 cu ft holds 17 gallons

Stream Flow Rates

Residential and Sheet Falls: 1,500 gph for every foot of weir width
Commercial and Bouldering Falls: 3,000 gph for every foot of weir width

Pump Information

Suggested Flow Rate for Ponds

Standard water gardens require the water to be circulated at least once every two hours. For Koi ponds you'll need to have a pump that will circulate once every hour.

Head Height

Dynamic head pressure is found by taking the vertical height of your waterfall; the distance between where your pump is (typically in the skimmer) and where your waterfall is, adding the static head pressure (pipe and fittings) 1' for every 10' of tubing and 1' for every elbow or "T" fitting. Example: $3(\text{vertical height}) + 2.5(\text{tubing}) + 2(\text{elbows}) = 7.5$

Pond Formulas

How to Find the Correct Liner Size

Max Depth x 2 + Max Width + 2' over lap = Width of Liner

Example: 1.5 x 2 + 10 + 2 = 15' Width

Max Depth x 2 + Max Length + 2' over lap = Length of Liner

Example: 1.5 x 2 + 15 + 2 = 20' Length

Calculate Gallons of Water

Square Pond

Length x Width x Average Depth x 7.48 = Gallons in Pond

Example: 10 x 15 x 1.5 x 7.48 = 1,683 gallons

Circular Ponds

Length x Width x Average Depth x 7.48 x .80 = Gallons in Pond

Example: 10 x 15 x 1.5 x 7.48 x .80 = 1,346 gallons

Streams

Length x Width x Average Depth x .25 x 7.48 = Gallons in Stream

Example: 15 x 3 x 1.5 x .25 x 7.48 = 126 gallons

Waterfall Flow Rate

The flow rate is how much water is moving over a waterfall and/or stream.

The larger the flow rate the louder the water will be.

- Soft Flow = 100 gph per inch of spillway
- Medium Flow = 150 gph per inch of spillway
- Loud Flow = 200 gph per inch of spillway

Spillway Width x Flow Rate = Total gph

Example: 16 x 150 = 2,400 gallons per hour

Quantity of Boulder for a Pond

(Length x Width) / 40 = Tons of Boulders

For every 1 ton of 6"-12" boulders, get 2 tons of 12"-18" boulders and 1 ton of 18"-24" boulder.

Quantity of Boulders for a Stream

1½ tons for every 10' of stream using 1:2:1 ratio above.

Quantity of Gravel for a Pond

Pond Gravel = 25% of the tons of boulders used in the pond.

Quantity of Boulders for Face of Waterfall Box

22" = 1 ton of mixed boulders

30" = 1½ tons of mixed boulders

40" = 3 tons of mixed boulders

Quantity of Stone Used in a Bog Filter (per 10 sq ft)

900 lbs of 1½" - 2" Washed River Gravel

900 lbs of ½" - 1" Washed River Gravel

Quantity of boulders used around perimeter of bog filter

¼ ton of 6" - 12" Boulders will cover 20 linear feet

½ ton 12" - 18" Boulders will cover 5 linear feet

Quantity of boulders for retaining wall

1 ton of 12" - 18" Boulders will cover 10 linear feet

1 ton of 18" - 24" Boulders will cover 5 linear feet
