

Smart Watch EdgeMate R1

Caution	Statement
The manufacturer is not liable for the consequences of misuse of the smartwatch or neglect of the recommendations.	The software version can be upgraded without earlier notice. The representative retains the right to determine the correct interpretation of the instructions.

IMPORTANT!

The watch is not a medical device and therefore cannot replace any medical diagnosis or proper treatment.

If the smartwatch is damaged, stop using it immediately. A defective device can pose a direct health risk. Continuing to use a defective smartwatch can lead to its further deterioration and ultimately total failure.

THE USE OF THE MANUAL

Please read the precautions and phone user's manual before use. The newest version of the manual can be found on our company website:

—CHILDREN AND PHYSICALLY OR MENTALLY DISABLED PEOPLE—

This device should not be operated by people with limited physical or mental abilities, as well as by people with no earlier experience in operation of electronic equipment.

—BATTERIES AND ACCESSORIES—

The battery must only be replaced at an authorised service centre to avoid the risk of explosion. Avoid exposing the battery to temperatures below 0°C and above 40°C, as extreme temperatures can affect its capacity and service life. Protect the battery from contact with liquids and metal objects to avoid

damage. Do not overcharge the battery – the maximum charging time is 12 hours. Dispose of the battery in accordance with the instructions and use only the original manufacturer's accessories. If the charging cable is damaged, replace it with a new one.

Charging the battery:

Insert the USB end of the charger into the adapter and connect the other end to the charging ports on the back of the watch. The cable automatically snaps into position thanks to the bipolar magnetic tip. Once charging starts, the battery icon in the screen charge level window changes to an animated

icon (home screen), a large animated icon in the centre of the screen (device off).

Correct disposal of electrical and electronic equipment

According to EU Directive 2012/19/EU, equipment marked with a crossed-out rubbish container must not be disposed of with household waste. It should be taken to a recycling centre. Information on disposal can be obtained from local authorities or the point of sale.

Correct disposal of used batteries

Products with batteries marked with a crossed-out bin must not be disposed of with household waste. They must be recycled in accordance with the EU directive and local regulations. Information can be obtained from municipal offices or waste authorities.

mPTech Ltd. hereby declares that Hammer Watch 2 device is compliant with Directive 2014/53/EU. The full text of the EU Declaration of Conformity is available at the following Internet address:

Warranty period

The warranty for the accessories in the product kit lasts for a period of 6 (six) months from the date of purchase.

User ' s Manual

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada ' s licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux

CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the

following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection

against harmful interference in a residential installation. This

equipment generates, uses, and can

radiate radio frequency energy, and if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off

and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
