NVS-IP100049TP

IP WALL MOUNT PA CONTROLLER

NORDEN®

DESCRIPTION

The NVS-IP100049TP is a sleek in-wall control panel fits standard 86-type boxes and features a 4-inch capacitive touchscreen (480×480) with intuitive UI. It supports IP-based task control, manual AOD playback, and remote volume adjustment. Unique features include real-time status monitoring, scheduled task automation, and seamless access to centralized MP3 media libraries. Equipped with a 10/100Mbps RJ45 port, it ensures stable Ethernet connectivity across subnets and routers, making it ideal for intelligent audio distribution systems.

FEATURES

- ⊙ 4-inch capacitive TFT touchscreen, 480×480 resolution for precise control
- ⊙ Compact design for 86-type wall box flush mounting
- ⊙ IP-based remote task broadcasting and volume control
- ⊙ Cross-segment and cross-router network compatibility
- ⊙ 10/100Mbps RJ45 interface with Ethernet and PoE support
- ⊙ Centralized volume control via NVS-IP100001SW server

Specifications	
Model	**NVS-IP100049TP**
Display Screen	4-inch capacitive touchscreen
Resolution	480 × 480 pixels
Power Supply	AC100~240V,50/60Hz
Mounting Type	86-type wall box
Installation Environment	Indoor (dry locations only)
Housing Material	High-impact plastic
Network Interface	10BASE T/100BASE TX RJ45
Network Protocol	TCP/IP,UDP,ARP,ICMP,IGMP

IP WALL MOUNT PA CONTROLLER

Configuration Method	Web Interface or On device
Operatiing Temperature	0°C~+40°C
Operating Humidity	5% to 90% RH (non-condensing)
Color	Black
Weight	0.21Kg
Dimension(W×H×D)	86x86x37.5mm

FRONT PANEL

① **Built-in Microphone**
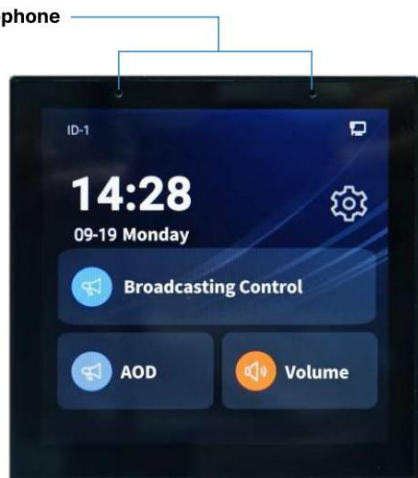

② **Built-in Speaker**

REAR PANEL

L2:Live wire Output

L1:Live wire Output

L:Live wire Input

N:Neutral wire Input
