Quick Start Guide

#### TIP

We recommend that you use the accessories provided or approved by Yealink. The use of unapproved third-party accessories may result in reduced performance.

### Assemble AX86R

1. Insert the battery into the handset.

2. Attach the belt clip to the handset.

*Choose the appropriate mounting method based on your belt clip.*

**Method 1:**

**Method 2:**

3. (Optional) Mount the charging cradle to the wall.

## Charging

- Option 1: Connect the charging cradle and charge the handset.

- Option 2: Connect the type-C end of the charging cable to the charging port on the bottom of the AX86R. Plug the other end into a power source.

**TIP**

- Use Yealink-supplied power adapter (5 V/2 A). A third-party power adapter may damage the handset.
- Check the charging status on the top-right corner of the LCD screen.

## Hardware Introduction

## Connect to Wi-Fi

- On the startup wizard, select your language and press **OK** or **Next**.
- Do one of the following:
  - Option A: Quick Wi-Fi Connect**
    - Use your mobile phone to connect to the temporary access point created by the AX Series.
    - On the Wi-Fi Configuration page, enter the Wi-Fi SSID and password for the network you wish to connect to. (If the page doesn't open automatically, open your web browser and enter 192.168.144.1 in the address bar.)
  - Option B: Available Networks**
    - Select the Wi-Fi network from the available options and press OK.
    - Enter the password and press Save.
