Installation Accessory

1 Mounting Template (2) Mounting Plate

Note: The dimension of the mounting plate is 102.58 mm \times 39.24 mm \times 6.2 mm.

4 Installation

Note: Video intercom villa door station supports surface mounting.

- Before You Start
- Make sure all related equipments are power-off during the installation.
- Tools that you need to prepare for installation: Drill (ø2.846) and gradienter.
- Purchase the protective shield before installation

Surface Mounting without Protective Shield

- 1. Stick the mounting template on the wall. Drill screw holes according to the mounting template. Remove the template from the wall.
- 2. Secure the mounting plate on the wall with 4 supplied screws according to the screw
- 3. Install the villa door station to the mounting plate. Fix the device on the mounting plate with the set screw. Note: Apply silicone sealant among the cable wiring area to keep the raindrop from entering. Please refer

to figure A. Surface Mounting with Protective Shield

- 1. Stick the mounting template on the wall. Drill the screw holes according to the mounting template. Remove the template from the wall.
- 2. Align the protective shield with the mounting template
- 3. Secure the mounting plate and protective shield on the wall with 4 supplied screws according to the screw holes.
- 4. Install the villa door station to the mounting plate. Fix the device on the mounting

Note: If installing outdoors, you are advised to install the device with protective shield. For the finished view, please refer to figure B.

5 Configuration via Web

1 Activate Device via Web

You are required to activate the device first by settings a strong password before you can use the device.

Default parameters of door station are as follows:

- Default IP Address: 192.0.0.65.
- Default Port No.:8000.
- Default User Name: admin 1. Power on the device, and connect the device to the network.
- 2. Enter the IP address into the address bar of the web browser, and click Enter to enter the activation page.

Note: The computer and the device should belongs to the same subnet.

- 3. Create and enter a password into the password field.
- 4. Confirm the password.
- 5. Click OK to activate the device.

Note: When the device is not activated, the basic operation and remote configuration of device cannot be

2 Access to the Device by Web Browsers

- 1. In the browser address bar, enter the IP address of the device, and press the Enter key to enter the login page.
- 2. Enter the user name and password and click Login.
- 3 Communicate with Indoor Station
- 1. Click Settings -> Intercom -> Press Button to Call to enter the settings page.
- 2. Set the parameters.
- Edit call No. for every button.

- Check Call Management Center to set the button calling center.

Note: If you check Call Management Center and set the call No. as well, call management center has higher privilege than call No

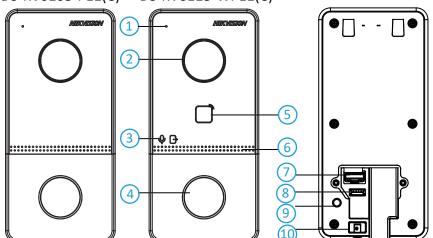

3. Press button to call indoor station.

4 Issue Card

- 1. Click Settings -> Access Control and Elevator Control to enter the settings page.
- 2. Click Issue Card. Present the card on the card reading area.
- 3. When issuing finished, the windows pop up on the settings page.
- Only M1 card supported, and Mifare card with non-standard shape is recommended.
- Up to 10000 cards can be issued and managed by V series door station. A voice prompt (No more cards can be issued.) can be heard when the issued card amount exceeds the upper limit.
- 5 Unlock Door

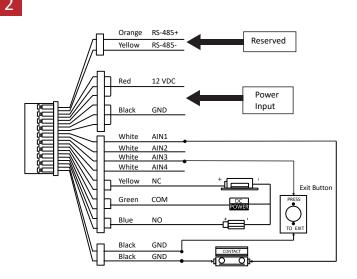

er issuing cards, you can unlock the door by presenting the issued cards. ers to Video Intercom Villa Door Station User Manual (scan the QR code) for details.

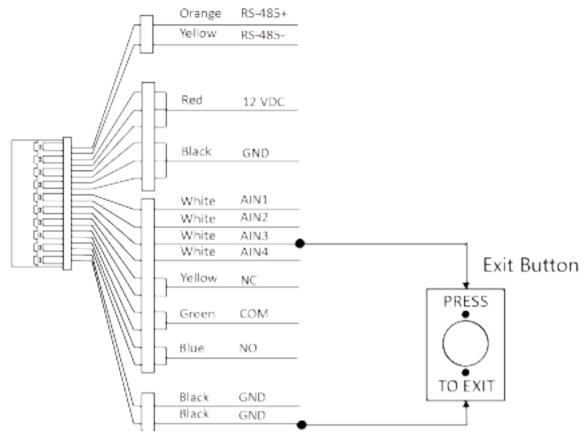

Figure 2-4 Exit Botton Wiring

DS-KH9510-WTE1(B) Video Intercom Network Indoor Station

The KH9 series IP indoor station, with 10-inch touch screen and Android system, brings you a fluent video and audio communication. You can install the third-party application in the device according to your actual need. Hikvision's Hik-Connect app is also pre-installed in the device, which helps you to manage Hikvision's device integratedly, without system switching.

- 10.1-inch colorful touch screen with 1024 × 600 resolution
- Built-in Android System
- Supports Android APP installation
- Support for three-party software integration
- Built-in Hik-Connect APP
- For all-in-one management of Hikvision's devices on tablet
