

## BEFORE USING THE POWER STATION

Scan the QR Code and follow the steps to register the device and review the safety and handling instructions.

## FOLLOW THESE SAFETY PRECAUTIONS WHEN USING THE POWER STATION:

AVOID HIGH TEMPERATURES

AVOID DIRECT SUNLIGHT

DON'T PLACE IN CABINETS

AVOID FLAMMABLE MATERIALS

AVOID CONTACT WITH LIQUIDS

## SETTING UP THE POWER STATION

Set up your Power Station on a hard, flat, stable surface with good air ventilation around the unit.

Keep Power Station 10cm from walls, with a minimum 30cm gap between each unit.

Avoid heat-prone areas. Optimal temperature range is 10°C-40°C; maximum altitude: 2000m.

Install the Power Station in a dry location away from humidity and moisture. Optimal humidity 30-70%.

## CONNECTING THE POWER STATION

Maximum power: 450W. Use a suitable socket and avoid overloading.

Use the original power cable only. Other brands may damage your power station or pose safety risks.

Avoid bending or crushing the power cable. Don't place objects on it. Refrain from using if damaged.

The Power Station must be grounded. Never operate it without a properly installed ground conductor.

## STORING THE POWER STATION

Shut off the Power Station power, disconnect the power cable and power down the chargers.

If your Power Station or Portable Chargers are not in use for more than a week, we recommend turning them off.

Store the power station in a cool, dry place with optimal temperature (10°C-40°C) and humidity (30-70%).

Before cleaning, disconnect the Power Station, remove Chargers, power them off. Use dry cloth, avoid liquids.

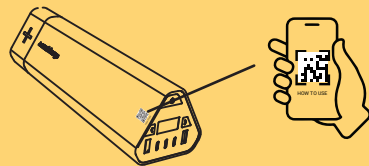

Failure to follow these safety instructions can result in fire, electrical shock, injuries, or damage to your Power Station or other property. Inappropriate use of the Power station may cause long term damage and may void the Omnicharge warranty. For detailed warranty information and instructions on how to make a claim, please visit our warranty policy page at <https://omnicharge.co/warranty-policy/>.

## BEFORE USING OMNICHARGE

Users must scan the QR code to access the user manual, where they can thoroughly review the safety and handling instructions.

## FOLLOW THESE SAFETY PRECAUTIONS WHEN USING OMNICHARGE:

**STOP USING IF DAMAGED**

**AVOID HIGH TEMPERATURES**

**AVOID FLAMMABLE MATERIALS**

**AVOID CONTACT WITH LIQUIDS**

**SET UP ON A HARD, FLAT SURFACE**

## SAFETY AND HANDLING

Inspect Omnicharge for damage before use. Immediately stop using if damaged during use and do not return to station.

If the unit does not turn on, or you see an on-screen warning notification, immediately stop using it and do not return to station.

Use Omnicharge indoors on a stable surface avoiding high temperatures like direct sunlight or near heaters.

Omnicharge is susceptible to damage from drops, strong shocks, punctures, crushing, heat, fire, liquids, moisture, and corrosive chemicals.

Omnicharge is not user serviceable. Do not attempt to repair or modify it yourself.

Omnicharge's AC output is potentially lethal; use with caution and avoid foreign objects falling in.

Dispose of your battery through an authorized provider in compliance with local regulations or contact support@omnipower.co for assistance.

## BATTERY MAINTENANCE

Omnicharge's lithium battery cells have a limited lifespan based on usage and environment. Follow guidelines to maximize battery life and replace when depleted.

Try to balance the usage of your Omnicharge batteries.

Avoid constant charging of lithium batteries; power down if it is expected to be idle for more than a week.

When fully charged, Omnicharge self-depletes to 80% when idle, prolonging its lifespan.

Follow on-screen notifications and replace the unit immediately and remove from the station if you see the following icon 

**ACKNOWLEDGMENT:** By using this product, you hereby confirm that you have thoroughly read and understood this manual, including all instructions, warnings, and safety information. Your use of the product constitutes your agreement to follow these guidelines and recommendations.
