Remote Start

Remote Start enables you to remotely start your vehicle from virtually anywhere. For vehicles equipped with full-automatic temperature control, you can also enable climate control remotely and turn on the front window defroster, ensuring a warm or cool car is ready to go when you are.

- To use this feature, you must have a Blue Link Personal Identification Number (PIN). To create or change your PIN, log on to www.MyHyundai.com.

Remember:

- Remote Start will automatically shut off after 10 minutes or after selected engine timer runs out in navigation vehicles.
- While this feature is active, the parking lights will blink until vehicle is turned off or when vehicle is in operation.
- To continue operation of the vehicle, the proximity key must be inside the vehicle with the driver prior to pressing the brake and being able to move the gearshift from the P (Park) position.

NOTE: Remote Start is not available on all models. Remote Start is only available for Push Start equipped vehicle with an Automatic Transmission or Dual Clutch Transmission (DCT). Remote Start with Climate Control additionally requires Fully Automatic Temperature Control.

Preconditions:

- Ignition is OFF
- Alarm is armed (i.e., vehicle locked by key fob Remote Door Lock)
- Gearshift level is in the P (Park) position
- Brake pedal is not depressed
- Engine hood is securely closed
- All the doors are closed and locked
- The tailgate or trunk lid is closed
- The security/panic system is not activated
- The proximity key is not inside the vehicle
- The battery power is not low
- Vehicle is located in an open area
- It has been less than 4 days since last vehicle ignition off
- Vehicle located in area with good cell reception

Remote Start will terminate:

- After 10 minutes or after selected engine timer runs out in navigation vehicles
- Brake is pressed without proximity key inside vehicle
- Alarm is triggered without proximity key inside vehicle
- Door/trunk is opened from inside the vehicle

Notice: Laws in some communities may restrict the use of the features that remotely start the engine. For example, some laws may require a person using the remote start feature to have the vehicle in view when doing so or limit the length of time a vehicle engine may idle. Please check local and state regulations for any requirements and restrictions on remote starting of vehicles and engine idling time.

WARNING!

Do not remote start vehicle in an enclosed environment (i.e., closed garage). Prolonged operation of a motor vehicle in an enclosed environment can cause a harmful build-up of carbon monoxide. Carbon monoxide is harmful to your health. Exposure to high levels of carbon monoxide can cause headaches, dizziness or in extreme cases unconsciousness and/or death. Do not leave children or animals unattended in a vehicle while using the remote start function.

CAUTION!

If the vehicle's windshield wipers are left on when the vehicle was last driven, then the wipers will turn on if the remote start function is activated. To avoid damage to the wiper blades (i.e., due to heavy ice or snow accumulated on the windshield), please always turn the vehicle's windshield wipers off when parking the vehicle.
