Getting started

- (1) Open the package and check its content.
- (2) Delivery content: 1) **IDW13** smart watch (with built-in lithium battery); 2) user manual; 3) original charging cable.
- (3) Charge the watch to activate and turn it on before first use. To charge, simply connect the magnetic charging cable to the charging contacts located on the back of the watch.
- (4) Search for “veryfit” on the App Store, Google Play or scan the QR code to download and install the app.
- (5) Log in to the app and set your personal information, as well as your step and weight goals.

- (6) On the “Device” interface, tap the “+” icon in the upper right corner, your phone starts searching. From the device list found, choose your smart watch name to pair with. You may also link the device directly by scanning the device’s QR code using the scan function.

Health

a) Watch

- 1. The watch will automatically record your data.
- 2. You can measure your heart rate, blood oxygen and stress level on the watch, or turn on automatic measurement of heart rate, blood oxygen, stress level and sleep on the app to track these data the whole day. You can manually or make the watch automatically monitor your health status continuously.
- 3. To start an exercise:
 - 1) When the watch face interface is displayed, short press the physical button to access the application list. Tap the **Workout** icon to access the icons of different exercise types, then tap the icon of an exercise (such as Outdoor Running) to start the exercise.
 - 2) The watch can display up to 20 exercise types by default. On the app's Multi exercise mode, you can add or delete the exercise types displayed on the watch or change their order.

b) App

- 1. Start “veryfit”,enable the Bluetooth feature, and grant the GPS positioning permission;
- 2. Light up the bracelet screen and bring it close to your phone;
- 3. Click the “+” icon on the App, and select the smart watch model in the search results to bind;
- 4. Confirm the binding request on the smart watch;
- 5. Fill in your information and set your step goal on the App to complete the binding.

Basic Operations

- 1. Wear the watch correctly: ensure that your watch is at least one finger above your wrist bone and that the sensor on the back touches your skin.
- 2. Screen operation: IDW13 has a full touch screen, which supports operations including short tap, swipe left/right and swipe up/down.
- 3. Button operation: IDW13 has a physical button; which supports “short press” and “long press” operations. Short press: to return to home page/pause exercise. Long press: for 2 seconds to turn on the watch when it is off; to turn on Alexa when the watch is on.

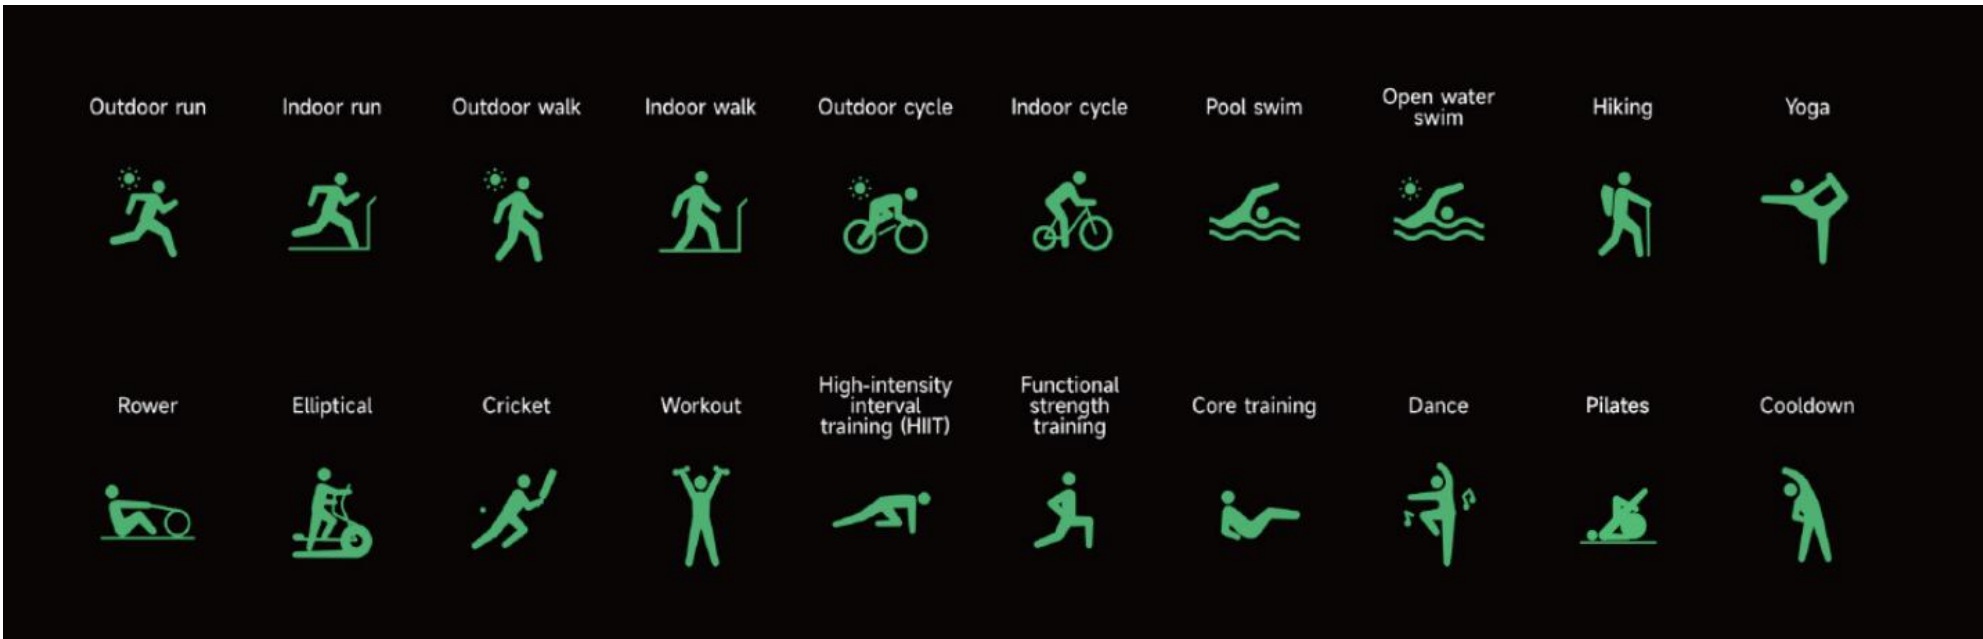

Function Description

1、Watch face

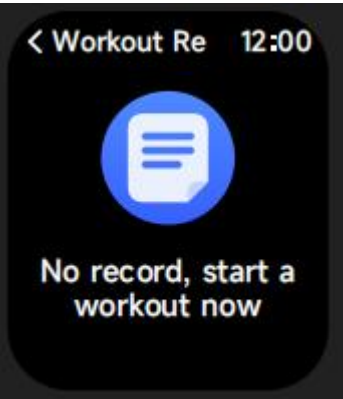

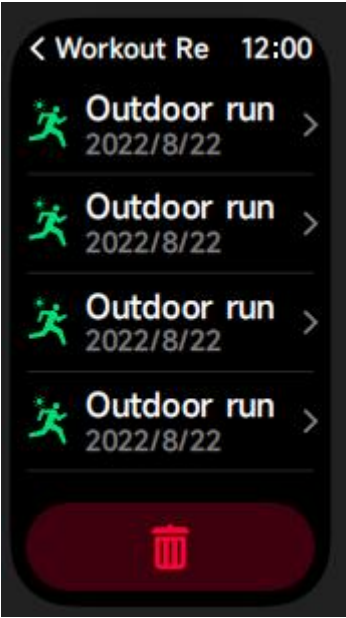

The watch comes with 3 watch faces by default. You can switch between them manually on the watch or on the veryfit app’s watch face settings. You can also customize the watch face on the app. More watch faces are available for download from the "Watch Face Market".
