7.FREQUENTLY ASKED QUESTIONS

The watch does not turn on

- 1) Check whether the power is sufficient, use the charging cable to charge the watch, and the charging voltage shall not be higher than 5V;
- 2) Check whether the watch screen is damaged by external forces, such as accidental drop;
- 3) Check whether the watch has water, damp caused by internal circuit short circuit can not be turned on.

Bluetooth not connected or unable to connect

- 1) Slide down the dial interface to enter the control center, and check whether the icon   is red and not connected;
- 2) Check whether the Bluetooth of the mobile phone is enabled normally and whether the APP has obtained the location permission;
- 3) Try restarting the device or performing a factory reset.

Why Android phones are easy to disconnect

APP must be running in the background, Bluetooth will not be automatically disconnected, but the Android phone system memory management will force the APP to close, we need to manually close the phone system power saving mode or add the APP to the system management green background, APP will

not be forced to close, specific settings please refer to the phone manual or consult the official customer service.

For more frequently asked questions, please check the App[My>FAQ] or send an email to our customer service email service@kumi.top

8.SAFETY WARNING

Please read all safety information before using this product to ensure safe and proper use.

1. In case of equipment failure or factory reset, if you do not keep the backup file safely, you will not be able to recover the previous data. Be sure to back up all important data stored on the equipment and keep it in a safe place;
2. When using a power-intensive application or using an application on the device for a long time, the device feels hot to the touch, which is normal and does not affect the use or performance of the device;
3. If the touch screen is equipped with protective film or the hands are not clean, or the touch screen reacts slowly and may not work properly, if the touch screen is scratched or damaged, there may be a risk of water ingress and moisture;

10.FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
