

Arlo Solar Panel Charger

Leave the Charging to the Sun.

The Solar Panel charges batteries with direct sunlight for 24/7 protection. Now you can forget about charging or climbing ladders to remove batteries. Compatible with select Arlo cameras and floodlights, easily install with adjustable mount, connect an included adapter, and plug in your Arlo camera for continuous power and protection.

Use the Power of the Sun

Use solar power to keep your Arlo wire-free cameras and floodlights powered.

Arlo Compatible*

Compatible with battery powered Arlo Essential series, Go 2 series, Pro 3 series and above, Ultra series, Wireless Floodlights.

Continuous Charging

Stay powered and connected without needing to remove the battery.

Easy Installation

Its weather-resistant design, 8-foot power cable, and adjustable 360° rotation mount makes installation easy anywhere.

Tips

- Mount your solar panel in a location with plenty of sunlight and avoid areas that are mostly shady throughout the day.
- Face your solar panel true south (in the northern hemisphere) or true north (in the southern hemisphere) and tilt to the appropriate angle for your latitude to capture more sunlight.
