

7 in. 90-Degree Twin Spoke Mounting Bracket Tenon Adapter

PRODUCT DESCRIPTION

The Twin Spoke Bracket features a 90° horizontal tenon adapter tailored for slip-fitter-mounted LED parking lot lights, designed to fit the 3-inch Round Mounting Bracket. This tenon adapter, in a standard dark bronze finish, provides a convenient solution for mounting a single fixture onto existing round, non-tapered steel, and aluminum poles. The Twin 90° Tenon Adapter enables mounting two area lights with slip fitters over poles, offering 90° coverage and allowing for horizontal fixture adjustment.
