Rotate out the outer base

Rotate to take out the special bottle

Add essential oils to the special bottle

Put back the outer base and set button settings

4.2 In order to keep the same fix 2 images before adding a new one, the image is not added to the fix but is discarded to make the next image appear.

In order to ensure the best expansion effect, customers are requested to check and maintain the equipment every six months. When it is necessary to change to a new fragrance type or the effect of fragrance expansion is weakened, it is also necessary to check equipment maintenance;

1 Take off the atomizing head and unscrew the used essential oil bottle.

2 Pour an appropriate amount of alcohol into the essential oil bottle and clean it

3 After cleaning, pour a small amount of alcohol, install the essential oil bottle on the device, turn on the device, and work for 5 to 8 minutes.

4 After cleaning the equipment, turn off the power.
