

EBL®

Professional Care on Batteries and Charger!
EBL-C9008TC

User Manual

Thanks for purchasing EBL's products!
For your own safety, please read this user manual
carefully before using it.

English

■ Product Instruction

■ Features

1. EBL-C9008TC can charge 8 pieces of AA/AAA Ni-MH batteries or 4 pieces of C/D Ni-MH batteries at most. Both types of batteries can be charged at the same time.

Batteries Type	AA/AAA Batteries	C/D Batteries
Charging Slot Quantity Available	8	0
	6	1
	4	2
	2	3
	0	4

2. Compatible with: AA/AAA Ni-MH rechargeable batteries and C/D Ni-MH rechargeable batteries.

— 1 —

3. With advanced MCU control system, intelligent ΔV and $-\Delta V$ cut-off charging method, the charger turns to trickle charging automatically to prevent the batteries from over-voltage, over-current and over-heat.
4. With charging process shown on LCD screen, battery status can be easily monitored.
5. Powered by DC5V/2.0A Micro USB and Type C input port, low power consumption of no-load at 0.3W.

■ Specifications

Input: DC 5V/2A(Max)
Output Voltage: DC 1.2V
Output Current: 1800 mA (D/C 1800mA AA/AAA 900mA)
No-load Power Consumption: 0.3 W(Max)
Full-load Power Consumption: 10 W(Max)
Battery Charging Rate: up to 80%
Charging Way: Constant voltage and current

— 2 —

■ Working Environment Condition

Working Altitude: Below 2000M
Storage Temperature: -10°C - 50°C
Storage Humidity: 45% - 85%
Working Temperature: 0°C - 35°C
Working Humidity: 35% - 85%
Surface Temperature in Charging:
Surface Temperature of Charger: 35°C - 80°C
Surface Temperature of Battery: 25°C - 60°C

■ How to Use

1. Plug in the Micro USB/Type C cable and power on: LCD screens become light and show every character on screen first, then character disappear.
2. Charging status: Displaying character "CHG" means charging & installing correctly.
3. Fully charged: Displaying fully battery and no more "CHG".

— 3 —

*Charging AA or AAA Batteries

*Charging C or D Batteries

— 4 —

■ Notices

1. Please use the power cable provided by EBL.
2. Place the batteries into the charger correctly by making sure the +/- pole of battery matches the +/- pole of the charger. When charging C/D battery, please notice that two AA/AAA negative "-" equals one of C/D negative "-".
3. The charger can charge each battery independently.
4. The LCD will be light after power-on, showing "CHG" and the power status when battery is placed correctly. The power status is displayed only when the battery is fully charged.
5. When non-rechargeable batteries were put in, or there's short-circuit situation, the charger will show "ERROR".
6. The absolute 0 Volt battery can not be charged in this charger.
7. EBL-C9008TC is ONLY designed for Ni-MH rechargeable batteries. Please DO NOT put any other types of batteries in this charger, especially alkaline batteries.
8. If the LCD display doesn't show "CHG" when you put batteries in, please check if the battery is 0 Volt. Make sure the +/- pole of battery matches the +/- pole of charger.
9. New battery will reach the best performance after using 2-3 times.
10. Battery power will lose because of long-time storage. Please charge the battery fully if it is not used for long time.
11. It's normal that the battery becomes hot while charging. The temperature will cool down to normal later, please feel free to use it.
12. Please note that Micro USB and Type C input ports can not be simultaneously powered on.

— 5 —

■ Cautions

1. Turn off the charger and take the batteries out after charging is completed.
2. DO NOT disassemble and reassemble the charger. Or it may cause short-circuit.
3. DO NOT charge batteries whose cover are damaged, or it may cause short circuit and fire hazard.
4. DO NOT charge non-rechargeable batteries. It might cause battery leakage, battery explosion, personal injuries, etc.
5. DO NOT put anything on the charger while charging batteries, it will accumulate heat to cause fire hazard.
6. Indoor use only, keep it away from direct sunlight and moist/high-temperature environment.
7. Children should not use this charger without any adult's supervision.
8. Store this charger out of reach by children.

■ Size & Weight

Size: 142mm x 123mm x 39.8mm
Weight: 208.3g

■ Warranty

We provide 30 days worry-free money back and one year limited warranty.
