Shower Door Measurement Guide

Prior to installation, please determine the following measurements of your enclosure based on the diagram provided:

- **A: Horizontal Opening**
 - Measurement of the width of the opening at the top and the bottom of the enclosure
- **B: Vertical Opening**
 - Measurement of the height of the opening
- **C: Depth**
 - Measurement of the depth of the sill/threshold

Opening Requirements for Installation:

- Horizontal Opening: 55 1/2 in. recommended minimum ~ 59 1/2 in. maximum
- Total Product Height: 56 3/4 in
- Minimum Depth Required for Sill/Threshold: 1 7/8 in.

Measurement Recording Chart

Measurements	Measurements Values	Recommended
Horizontal Opening (A)		55 1/2 in.~ 59 1/2 in.
Total Product Height: (B)		Minimum 56 3/4 in
Depth (C)		Minimum 1 7/8 in.
