## Getting Started

### Step 1

#### Power & Connect

Attach the magnetic end of the USB cable to the Tag and connect the other end to a PC or adapter. The device powers on automatically when charging or configuring.

### Step 2

#### Manual Power On

When the device is unplugged and off, press and hold the front center button for 5 seconds until you hear a beep — the device will power on.

### Step 3

#### Pair with App

- Open the Meshtastic App
- Pair using PIN: 123456

### Step 4

#### Set Region

Select your region in the app.

**!** The device will not function until the region is set.

### Step 5

#### Go Wireless

Unplug the cable — your WisMesh Tag is ready to use!

## LED Lighting Indications

- RED:** Charging
- GREEN (solid):** Powered on
- GREEN (breathing):** BLE DFU mode
- GREEN (blinking):** MCU activity
- BLUE:** New message received
