

LEVC

TX

PRICE AND SPECIFICATION

TX - AT A GLANCE.

Built for purpose. Designed to deliver.

- 1

Iconic styling

Distinctive circular headlights, coach doors, a bold front grille, and an instantly recognisable roofline
- 2

eCity technology

Range-extended electric, zero-emissions capable technology reduces running costs and gives unrivalled range flexibility
- 3

Driver comfort

Your mobile office, ergonomically and thoughtfully crafted for long hours at the wheel
- 4

Technology

From cruise control to parking sensors, the latest equipment and driver aids are designed to make your life easier
- 5

Passenger experience

Seating for up to six people, a panoramic glass roof, charging ports and fast on-board Wi-Fi
- 6

Safety

A strong body structure, full complement of passive safety systems and cutting-edge active driver assistance provides peace of mind

Fuel consumption and CO ₂ emissions	
CO ₂ efficiency band	B
	WLTP*
Official combined fuel economy	470.8
Official CO ₂ emissions	14
Energy consumption	362.1

*The fuel consumption and CO₂ emission values were determined according to the newly introduced Worldwide Harmonised Light Vehicle Test Procedure (WLTP) and are also calculated back for comparison purposes according to the previous NEDC standard. The values determined according to WLTP apply to the assessment of taxes and, if applicable, other vehicle-related levies. All stated values are not part of the offer and may vary depending on driving style, loading, equipment, selected options and tyres.

EXTERIOR COLOURS.
Stand out from the ranks.

TX offers a wide range of paint options including metallic and pearlescent finishes.

<div><div>Raven Black</div><div>Non-Metallic</div><div>Standard</div></div>	<div><div>Alpine White</div><div>Non-Metallic</div><div>£510.00</div></div>	<div><div>Bristol Blue</div><div>Non-Metallic</div><div>£510.00</div></div>	<div><div>Icon trim level body colours include black painted lower exterior trim, grille surround, door handles and wheel centre caps in place of chrome. With the exception of the classic Raven Black body colour, TX incorporates gloss black door mirrors and black painted pillars to create a contemporary 'floating roof' styling effect.</div></div>
<div><div>Nightsky Blue</div><div>Pearlescent</div><div>£960.00</div></div>	<div><div>Starlight Black</div><div>Pearlescent</div><div>£960.00</div></div>	<div><div>Tupelo Red</div><div>Pearlescent</div><div>£960.00</div></div>	<div><div>Charcoal Grey</div><div>Metallic</div><div>£960.00</div></div>

OPTION PACKS.

Make more of your TX.

TX is the most well-equipped taxi we've ever built.

The Vista specification blends high-end accommodation for both driver and passenger with innovative technology and user-friendly features.

The new Icon trim level offers greater configurability, with some previously standard features offered as optional equipment.

We've made some of our most popular equipment available in a range of option packs, designed to save you money and enhance your driving and ownership experience even further.

HIGHLIGHTED FEATURES.

Explore TX in detail.

Air-pollution sensor.

TX not only filters the air you breathe to prevent contaminants from entering the cabin, it monitors the quality of the air flowing to the interior vents and automatically closes the intake if high levels of pollution are detected, protecting you and your passengers from any harmful effects.

Standard on all models.

Panoramic roof.

The roof panel incorporates layers of thick, reinforced glass with a tinted security film between them. The film blocks 95% of emitted light energy from entering the cabin, creating a secure and pleasant environment for passengers to enjoy dramatic views of the skyline.

*Optional on Icon and Vista.
Standard on Vista Comfort and Vista Comfort Plus.*

Electrical accessory interface.

The new TX has been designed to meet the requirements of modern passengers; the interface allows quick, simple and safe electrical installation of a wide range of aftermarket devices without damage to existing wiring harnesses.

Standard on all models.

Swivel seat.

Within the passenger compartment, the outer flip seat can rotate to a fixed position outside the passenger door. When used in conjunction with the wheelchair ramp, even passengers with severe mobility challenges are able to enter the vehicle without unnecessary hassle for them or for the driver.

Standard on all models.

Wi-Fi capability.

Passengers will be able to connect to the inbuilt Wi-Fi onboard TX. A dedicated USB socket, located in the driver compartment for optimum signal, will allow passengers to connect to the Wi-Fi.

Optional on Icon. Standard on all other models.

Main beam assist.

The bright, efficient LED headlights are fully automatic and feature electronic self-levelling, on/off control and a sensor that detects other vehicles and street lighting to switch between dipped and main beam automatically, so you're assured of optimum visibility at all times.

Optional on Icon. Standard on all other models.

PRICING.

Value as standard.

Be even better equipped with the Comfort and Comfort Plus packs. From a luxury heated driver's seat with electric adjustment to a rear-view camera and Satellite Navigation, these packs offer our most popular options and unbeatable value.

OWNERSHIP.

Built-in peace of mind.

Servicing.

Long service intervals of 25,000 miles mean less downtime for you, and our fully trained technicians are equipped with the latest systems and tools to keep your TX performing at its best.

Roadside.

LEVC have partnered with the RAC to give TX drivers access to their 1,500 patrols, 24 hours a day, seven days a week. So wherever you are in the UK, help is never far away. RAC Roadside Assistance is included free of charge for 12 months with every new TX.

Home charging.

The most convenient and cost-effective place to recharge TX is at home. LEVC can advise on a range of home charge solutions, please contact your local dealer and sales team for further details.

OPTIONS.

Make it yours.

Whatever you need to make TX truly yours. From a heated windscreen (with timed cut-off) to combat cold morning starts, to integrated Satellite Navigation with traffic updates, a wide range of standalone equipment can be added at your request.

Dealer fitted accessories.

Enhance your driving and ownership experience with dealer-fit accessories that are truly designed around you. All our accessories are custom-made for TX, and can be fitted at your request by your authorised LEVC dealer.

WARRANTY.

Industry-leading protection.

The new TX has been designed and rigorously tested to meet the demanding requirements of a purpose-built taxi. The drive battery is protected by a market-leading, five-year, unlimited mileage warranty, and every TX is also covered by a fully comprehensive whole vehicle warranty for three years, or 120,000 miles (whichever is sooner).

All non-wearing components, from motors to ball joints to bushes, are covered against manufacturing defects for the full duration of the warranty – which means no unforeseen repair costs and a hassle-free ownership experience.

Extended Warranty

Our Extended Warranty offers even greater peace of mind, increasing the whole vehicle cover up to five years or 150,000 miles.

Warranty	Whole Vehicle	Drive Battery	Drivetrain (exc. Drive Battery)	Price (inc. VAT)

*For latest Extended Warranty offers please contact your local dealer

RANGE AND EMISSIONS.

Class-leading efficiency.

The way fuel economy, emissions, and range is calculated is changing...

A new standard for measuring emissions, energy consumption and range has been introduced for all vehicle manufacturers. The WLTP test (Worldwide Harmonised Light Vehicle Test Procedure) replaces the NEDC (New European Driving Cycle) that has been in use since 1992. The new standard has been put in place in an effort to produce figures more representative of real-world driving. The two sets of figures are simply different ways of measuring the economy and emissions of the same vehicle.

These new WLTP figures are shown in the Technical Specification.

From April 2020, the new WLTP figures are used for tax purposes for all newly registered vehicles, and the old NEDC standard will be discontinued.

Can I expect to achieve the new economy figures?

The test is designed to provide official figures closer to what drivers could achieve in the real world, but the main purpose is still to enable comparisons between different vehicles. Fuel and electricity consumption will vary during real-world driving due to the large number of variables involved; such as weather, traffic, equipment used, number of passengers on-board and so on, as well as driver behaviour. To learn more about how you can maximise your savings, watch our video guide at [levc.com/ownership/understanding-tx/](https://www.levc.com/ownership/understanding-tx/)

The new procedure changes the way lab tests are conducted, reflecting the improved capabilities of modern test facilities. A real-world testing element has also been introduced for the first time, measuring actual emissions from the tailpipe using portable equipment. If you'd like to know more about the new WLTP test, please visit www.wltpfacts.eu

TECHNICAL SPECIFICATION.

Overview.

SERVICING	
Service interval	1 year / 25,000 miles
MOTOR AND BATTERY	
Driven wheels	Rear
Peak power	110 kW
Peak torque	250 Nm
Max. rpm	11,500

Front suspension	Dual-axis Macpherson strut / anti-roll bar
Rear suspension	Double-insulated, 5-link with transverse composite leaf spring
LUGGAGE SPACE	
Luggage capacity	440 L
WARRANTY	
Standard vehicle warranty	3 years / 120,000 miles
Extended vehicle warranty	5 years / 150,000 miles
Standard battery warranty	5 years / unlimited miles

¹ For more information on the new WLTP emissions test, please visit bit.ly/3ypU0ex
² The NEDC and WLTP test must consider the worst operating scenario and therefore do not include any benefit from regenerative braking.
³ Total range calculated from Pure EV range, range-extender fuel economy and usable fuel tank capacity.

⁴ The kerb weight refers to the vehicle in running order (with standard equipment) without the driver, passengers or load but with the fuel tank 90% full.
⁵ The mass in running order includes the kerb weight plus a driver at 75kg.
⁶ The payload includes the weight of the driver and passengers, luggage and all accessories.
⁷ The maximum permitted weight of the vehicle; including driver, passengers, luggage and accessories.

TECHNICAL SPECIFICATION.

Dimensions.

The specifications of the vehicles produced by LEVC for sale in the UK will vary. The model shown in this brochure is for illustrative purposes only and incorporates optional equipment and accessories not fitted as standard. What is considered standard or optional equipment may also vary, and the configuration options of the individual models are likely to change after the publication date, from time to time and from territory to territory. For more information about country-specific vehicle versions, please contact your local LEVC dealer. Every effort has been made to ensure that the contents of this publication were accurate and up to date at the time of going to press. Information provided within this brochure applies to vehicles built from 1st February 2023. LEVC vehicles are equipped with components manufactured by various GEELY Group operating units and outside suppliers. The Company reserves the right to make modifications to the vehicles, alter pricing specifications, equipment and withdraw products from sale without notice. Any such alterations will be notified to LEVC dealers at the earliest opportunity, however please consult your local retailer for the latest information.

In order to implement Directive 2000/53 / EC on end-of-life vehicles, the end-of-life vehicle law and the end-of-life vehicle regulation contained therein stipulate that the last owner should hand over their end-of-life vehicle to a recognised collection point or a recognised dismantling company. The proof of recovery to be presented to the registration office for the final decommissioning of the vehicle is issued there. You can find more information on taking back and recycling end-of-life vehicles below.
