Bluetooth Remote Control

1 Description

The Bluetooth Remote Control is designed to control remotely device's selected functions and to navigate its menu.

2 Specifications

Frequency
2.4 GHz
Standard
IEEE 802.15
Connection Range, m
< 3
Voltage / Battery
3V / CR2032
Dimensions, mm / inch
43x70x17.6 / 1.7x2.8x0.7
Weight, g / oz
39.5 / 1.39

3 Description of Control

 Power Button	<ol style="list-style-type: none"> 1) Powered on/off 2) Image calibration 3) Return to the menu
 Capture button	<ol style="list-style-type: none"> 1) Photographing/video recording 2) Enter the last menu
 E-zoom button	<ol style="list-style-type: none"> 1) Digital zoom 2) Enter the next menu
 Rangefinding mode	Rangefinder mode
 Menu button	<ol style="list-style-type: none"> 1) Enter the menu 2) Confirm option parameters and return to the previous menu

 + 	Freeze the picture
 + 	Laser marking center adjustment

4 Remote Control Activation

- Open Bluetooth of device;
- Automatically pair with the nearest remote control;
- ★ Connection Range: <3m;

Note: Only one remote control can be connected to the device at a time.

5 Battery Installation

Rotate to open the cover.

3.0V lithium battery coin cells

6 Installation

7 Legal and Regulatory Information

Frequency range of Bluetooth radio module:
2.400-2.4835GHz
Power of radio module: <20dBm

CE InfiRay Technologies Co., Ltd. declares that the Bluetooth Remote Control complies with the directives 2014/53/EU and 2011/65/EU.

User information on the disposal of electrical and electronic devices (private households)

 2012/19/EU (WEEE directive): Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points.

 2023/1542 (Battery Regulation): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union.

See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info

Regulatory information for USA

This device complies with part 15 of the FCC Rules. FCCID: 2AY3N-CRCL. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference,
- (2) This device must accept any interference that may be received without interruption of its operation.

2. Any Changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when this equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following suggestions:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

8 Safety Instructions for Use

- 1) Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate.
- 2) Even used batteries may cause severe injury or death.
- 3) Call a local poison control center for treatment information.
- 4) Compatible battery type CR2032.
- 5) Nominal battery voltage 3.0V.
- 6) Non-rechargeable batteries are not to be recharged.

50mm

- 7) Do not force discharge, recharge, disassemble heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- 8) Ensure the batteries are installed correctly according to polarity (+ and -).
- 9) Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- 10) Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- 11) Always completely secure the battery compartment. If the battery compartment does not close each time after using the product, remove the batteries, and keep them away from children.
