WHAT'S INCLUDED

Sunrise Alarm Clock

USB Cable

Adapter

User Manual

GET STARTED

1. Remove the Insulation Film from the Button Cell Compartment at the bottom.

2. Connect the Sunrise Alarm Clock to power with the USB Cable and Adapter provided.

Important:

This product has no power on/off button, and it will be on once you plug the power adapter into the socket.
To disconnect power, unplug the power adapter.

3. Loosen the tie that wraps the **FM Radio Antenna**, then unroll the wire for receiving strong signals when turning on the FM Radio.

OPERATION GUIDE

Note:

The Sunrise Alarm Clock will automatically save the current setting and exit from setting mode if the operation is not resumed within 15s.

Time —Buttons will be used [Setting/⌂] Time Setup/[+] / [-]

Before the first use, please set the time.

Step 1:

Press and hold **Setting/⌂** for 2 seconds until the Hour starts to flash on the LED display.

Step 2:

Press [+] / [-] to change the Hour, then press **Setting/⌂** to confirm and switch to Minute.

Step 3:

Press [+] / [-] to change the Hour, then press **Setting/⌂** to confirm and start to set the Click Format.

Step 4:

Press **+** / **-** to select the clock format from **24-hour clock** and **12-hour clock**, then press **Setting/Enter** to confirm and complete the setting.

Tip:

If the **12-hour clock** format is selected, **PM** or **AM** will be displayed accordingly.

Brightness of the LED Display — Buttons will be used (**Setting/Enter** Time Setup)

Press **Setting/Enter** to toggle the brightness of the LED Display among **Day Mode**, **Night Mode** and **OFF**.

Day Mode indicates the brightness level of the LED Display will be always the brightest even at night.

Night Mode indicates the brightness level of the LED Display will always be the lowest.

Setting

OFF means turning off the LED display.

Alarms —Buttons will be used (Alarm 1 /  / )

You could set **Alarm 1** and **Alarm 2** with the wake-up light.

We will take setting **Alarm 1** as an example to guide you how to set an alarm.

Step 1:

Press and hold **Alarm 1** /  for 2 seconds until the icon  and the Hour starts to flash on the LED display.

Step 2:

Press  /  to change the Hour, then press **Alarm 1** /  to confirm and switch to Minute.

Step 3:

Press **+** / **-** to change the **Minute**, then press **Alarm 1** / **☑** to confirm and start the **Ringtone Setting**.

Step 4:

Press **+** / **-** to select your favorite ringtone for **Alarm 1**, then press **Alarm 1** / **☑** to confirm and start the **Volume Setting**.

Tip:

S-00: Ringtone off

S-01 to S-07: Nature sounds

F-08: The last FM station you were tuned to before turning off the radio.

If you prefer another station, please turn on the FM radio to search and select the one you like, then set the alarm again.

Step 5:

Press **+** / **-** to adjust the ringtone volume, then press **Alarm 1** / **☑** to confirm and start the **Sunrise Light Setting**.

Tip:

U-01 to U-16: Volume levels

Step 6:

Press / to adjust the brightness level for the light, then press Alarm 1 / to confirm and start setting the sunrise time to turn on the light before the alarm rings.

Tip:

L-00: Light off

L-01 to L-20: Brightness levels

If you select L-00, there will be no sunrise light (but only ringtone) when Alarm 1 rings.

Step 7:

Press / to select the sunrise time from 10, 20, 30, 40, 50 and 60 MIN, then press Alarm 1 / to confirm and complete all the settings for Alarm 1. Alarm 1 is on after setup.

Tip:

If you select 10 MIN and the alarm time is 7:00 AM, the light will be on at 6:50 AM and gradually become brighter. When the alarm rings at 7:00 AM, the brightness level of the light will reach the level you set at Step 6.

Note:

To stop Alarm 1, just press the button when it's the alarm time;

To turn on/off the alarm 1, just press the button when it's not the alarm time;

*When Alarm 1 is turned on, the icon will display. When Alarm 1 is turned off, the icon will disappear.

Snooze — Buttons will be used ( Snooze/  )

When the alarm rings, press Snooze/  to activate **Snooze Mode** to delay the alarm for 9 minutes.

Note:

1. You can snooze up to 5 times.
2. Press the corresponding **Alarm Button**  /  to manually stop the alarm.
3. If you don't respond to it within 15 minutes after the alarm rings, the alarm will automatically stop for this time.

FM Radio — Buttons will be used ( FM Radio/  / )

Before the first use, please press and hold **FM Radio**/  for 2 seconds, and wait for the wake-up light to automatically search FM stations. Available stations will be saved as P-01, P-02, etc., in sequence.

Step 1:

Press **FM Radio**/  to turn on/off FM radio.

Step 2:

Press and hold  /  to go to next station.

Step 3:

Press  /  to adjust the volume.

Tip:

U-01 to U-16: Volume levels

Note: Please fully unwind the antenna and move it around until you receive the best reception.

Sleep Aid — Buttons will be used (Sleep Aid / /)

Sleep Aid simulates the process of sunset, aiming to help you fall asleep easily. After it's enabled, the sunset light will gradually dim, and the volume of the selected nature sound will decrease with time.

Step 1:

Press and hold Sleep-aid /  for 2 seconds, then press  /  to select a timer from 10 MIN to 120 MIN.

Step 2:

Press **Sleep-aid** (Sleep-aid icon) to confirm your selection, then press (+) / (-) to adjust the brightness level of the light.

Tip:

L-00: Light off

L-01 to L-20: Brightness levels

Step 3:

Press **Sleep-aid** (Sleep-aid icon) to confirm your selection, then press (+) / (-) to select your favorite sound to help you sleep.

Tip:

S-00: Sound off

S-01 to S-03: Nature sounds

F-04: The last FM station you were tuned to before turning off the radio.

If you prefer another station, please turn on the FM radio to search and select the one you like, then set again.

Step 4:

Press **Sleep-aid** (Sleep-aid icon) to confirm your selection, then press (+) / (-) to adjust the volume of the sound.

Step 5:

Press **Sleep-aid**/ to confirm your selection and complete all the setting for Sleep Aid. Sleep Aid is enabled after setup.

Tip:

Press  to turn on/off Sleep Aid mode.

Light — Buttons will be used ( LED Light/  / )

Bedside Light

Step 1:

Press **Light**/ to turn on/off the Bedside Light.

Step 2:

Press  /  to adjust the brightness level.

Atmosphere Light

Double press Light/[-] to turn on the **Atmosphere Light**, and the color of the light will change automatically.

Short press [+] / [-] to choose one solid color (7 colors are available).

Short press Light/[-] again to turn off the Atmosphere Light.
