- This Quick Start Guide provides support for everyday use and handling the appliance.
- Read the full operating instructions and the safety notes contained therein.
- This Quick Start Guide is for: SRFvh 40../55..
- Scanning the QR code will open the full operating instructions:

Intended use

This laboratory refrigerator is suitable for professional storage of products at temperatures between 3 °C and 16 °C.

Foreseeable incorrect use

Do not use the appliance for the following applications:

- Storage and refrigeration of:
 - Chemically unstable, flammable or corrosive substances
 - Blood, plasma or other body fluids for the purpose of infusion, application or introduction in the human body
- Use in potentially explosive atmospheres
- Use outdoors or in areas exposed to dampness and splashing water

When stocking, observe the following points:

- ☐ Position grid shelves according to the height required.
- ☐ Observe maximum load.
- ☐ When the storage temperature has been reached, load the appliance (compliance with cold chain).
- ☐ Keep the ventilation slots of the recirculation fan free in the interior.
- ☐ Produce for cooling must not come into contact with the evaporator on the rear wall.
- ☐ Keep liquids in closed containers.
- ☐ Leave space when storing refrigerated goods to ensure good air circulation.
