## Medline Regional Anesthesia Trays

### More Compact, More Efficient Trays

We know your storage space is at a premium; that’s why we’ve redesigned most of our trays to be 30% smaller so more fit on a shelf. It means less waste, too.

### More Value Than Ever

All our regional anesthesia trays now feature Medline brand needles. As a manufacturer and distributor of medical products, our economies pass on to you as savings.

### Medline Delivers More Reliably Than Ever

Our nationwide network of over 30 distribution centers lets us put trays and supplies close to where you need them. Our fleet of 200+ delivery trucks makes sure you have them on time.

### We Customize Everything

Start with your standard Medline tray and add or substitute any of these frequently used items. Don’t see what you’re looking for? Just ask. Custom items for anesthesia trays often include:

- Hustead, Metal Hub or Metal Stylet needles
  - Different strengths and volumes of Lidocaine, additional ampules, and a variety of other pharmaceuticals
  - Choice of drape material, dimensions, fenestration size
  - Different size LOR syringe, material or tip
  - Choice of prep agents including PVP, CHG and more
  - Extension sets
  - Gloves
  - Epidural filters: flat or round
  - Skin markers
  - Med cups
  - Sharps safety — needle counters, safety syringes, disposal containers
  - OR towels: disposable cotton, non-woven, natural

## 3M® Scotchcast® Plus Casting Tape

### A Cast for Everyday Life

For the professional user, Scotchcast Plus casting tape combines the benefits of synthetic tape with the handling ease of plaster. Over the years, it has been used in the treatment of millions of patients because it is proven to be safe, clean and easy-to-apply.

### Better for Your Patient

Your patients will appreciate your choice in using Scotchcast Plus casting tape, that provides them with increased comfort, enhanced mobility and a wide choice of colors.

### The Right Choice Everytime

**Simple Application** Water activated resin gives you control of the setting time and permits quick and easy cast application, thereby minimizing patient discomfort and optimizing the use of your time.

**Excellent handling characteristics** The combination of the knitted fiberglass construction and the slippery resin ensures superb conformably, moulding and lamination.

**Lightweight and comfortable** Weight bearing in 20 minutes. Compared to plaster, Scotchcast Plus casts are lighter, increasing patient mobility.

**Durable** Scotchcast Plus casts are strong, water resistant and hard-wearing.

### Aluminum Crutches

- Our push-button crutches are lighter than wood crutches thanks to their aluminum construction
- Double-extruded, center tube provides load-bearing strength where it is needed the most
- Special footpiece utilizes durable rivets to secure the aluminum tubing from the inside, providing more stability than plastic connectors
- 300 lb (136 kg) weight capacity, 250 lbs (113 kg) for child
