[important]

- The USB memory devices listed in this document have been tested using actual equipment to confirm that image writing and related recording operations function correctly.However, it has not been possible to verify all potential effects that a USB memory malfunction or failure may have on the operation of the CCU unit.Therefore, we cannot guarantee full compatibility or flawless performance with all USB memory devices. We appreciate your understanding in this matter.
- To ensure proper recognition by the device, the USB memory must be formatted using the device itself. For detailed instructions on how to format the USB memory, please refer to the Instruction Manual.
