

Getting Started with the Insteon Starter Kit

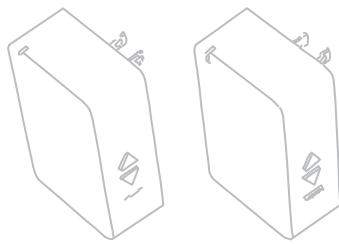

insteon.com/get-started-2244-234

Get up and running quickly with the
Starter Kit setup video.

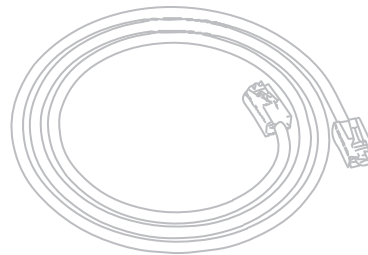

What's included in your Insteon Starter Kit

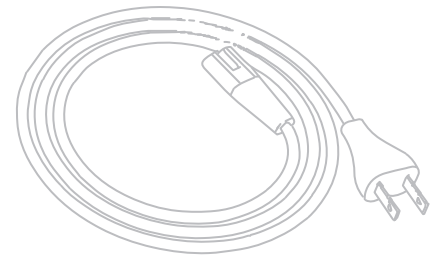

Insteon Hub

Dimmer Modules

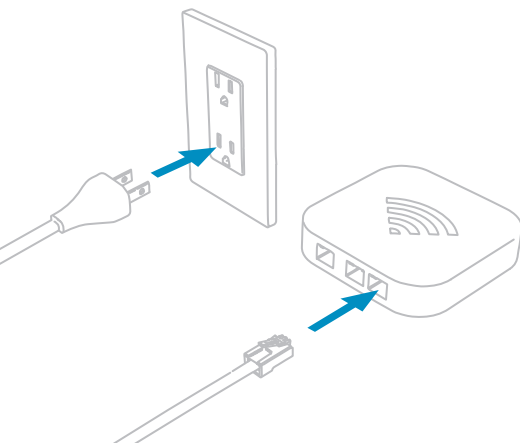

Ethernet Cable

Power Cable

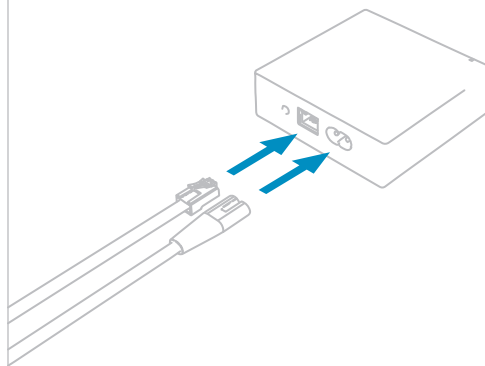

1

Connect the ethernet cable to your router and plug in power cable. Avoid switched outlets and power strips.

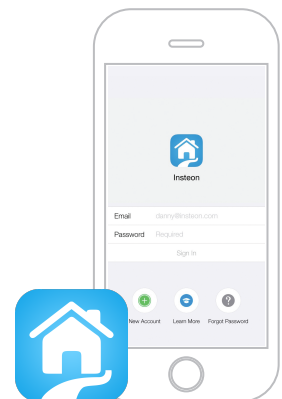

2

Connect the cables to Insteon Hub.

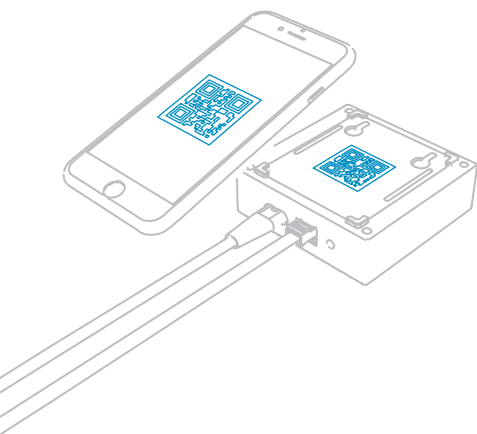

3

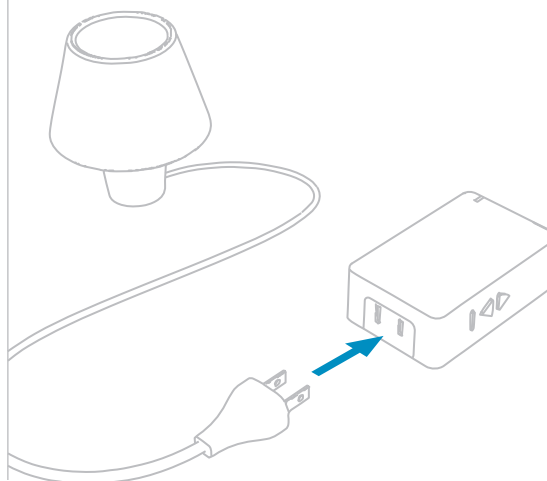

Download the **Insteon for Hub** app from your device's app store and create a new account.

- 4 Follow the on-screen instructions to scan the Setup Code and configure Insteon Hub.

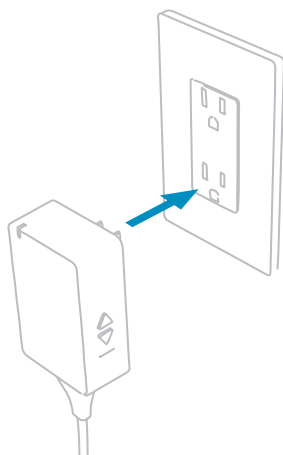

- 5 Turn on your lamp and connect its power cord to Dimmer Module.

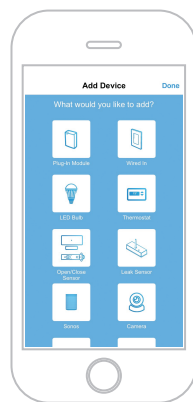

Only connect lamps with dimmable bulbs to Dimmer Module.

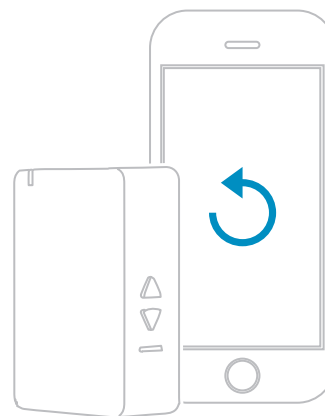

- 6 Connect Dimmer Module to a power outlet. Avoid switched outlets and power strips.

- 7 Return to the Insteon app, tap Plug-in Device and follow the on-screen instructions.

- 8 Repeat steps five through seven for the second Dimmer module.

Go further and create schedules to turn your lights on and off at specific times.
