More accurate data display

Heart rate monitoring

Check your heart rate
details at any time

Full-scene sleep protection

Comprehensive monitoring
from falling asleep to waking up

Blood oxygen monitoring

Check your blood oxygen
saturation at any time

Daily exercise monitoring

Daily steps, calories, distance

Height up to 8 mm

No-feel wearing, more comfortable

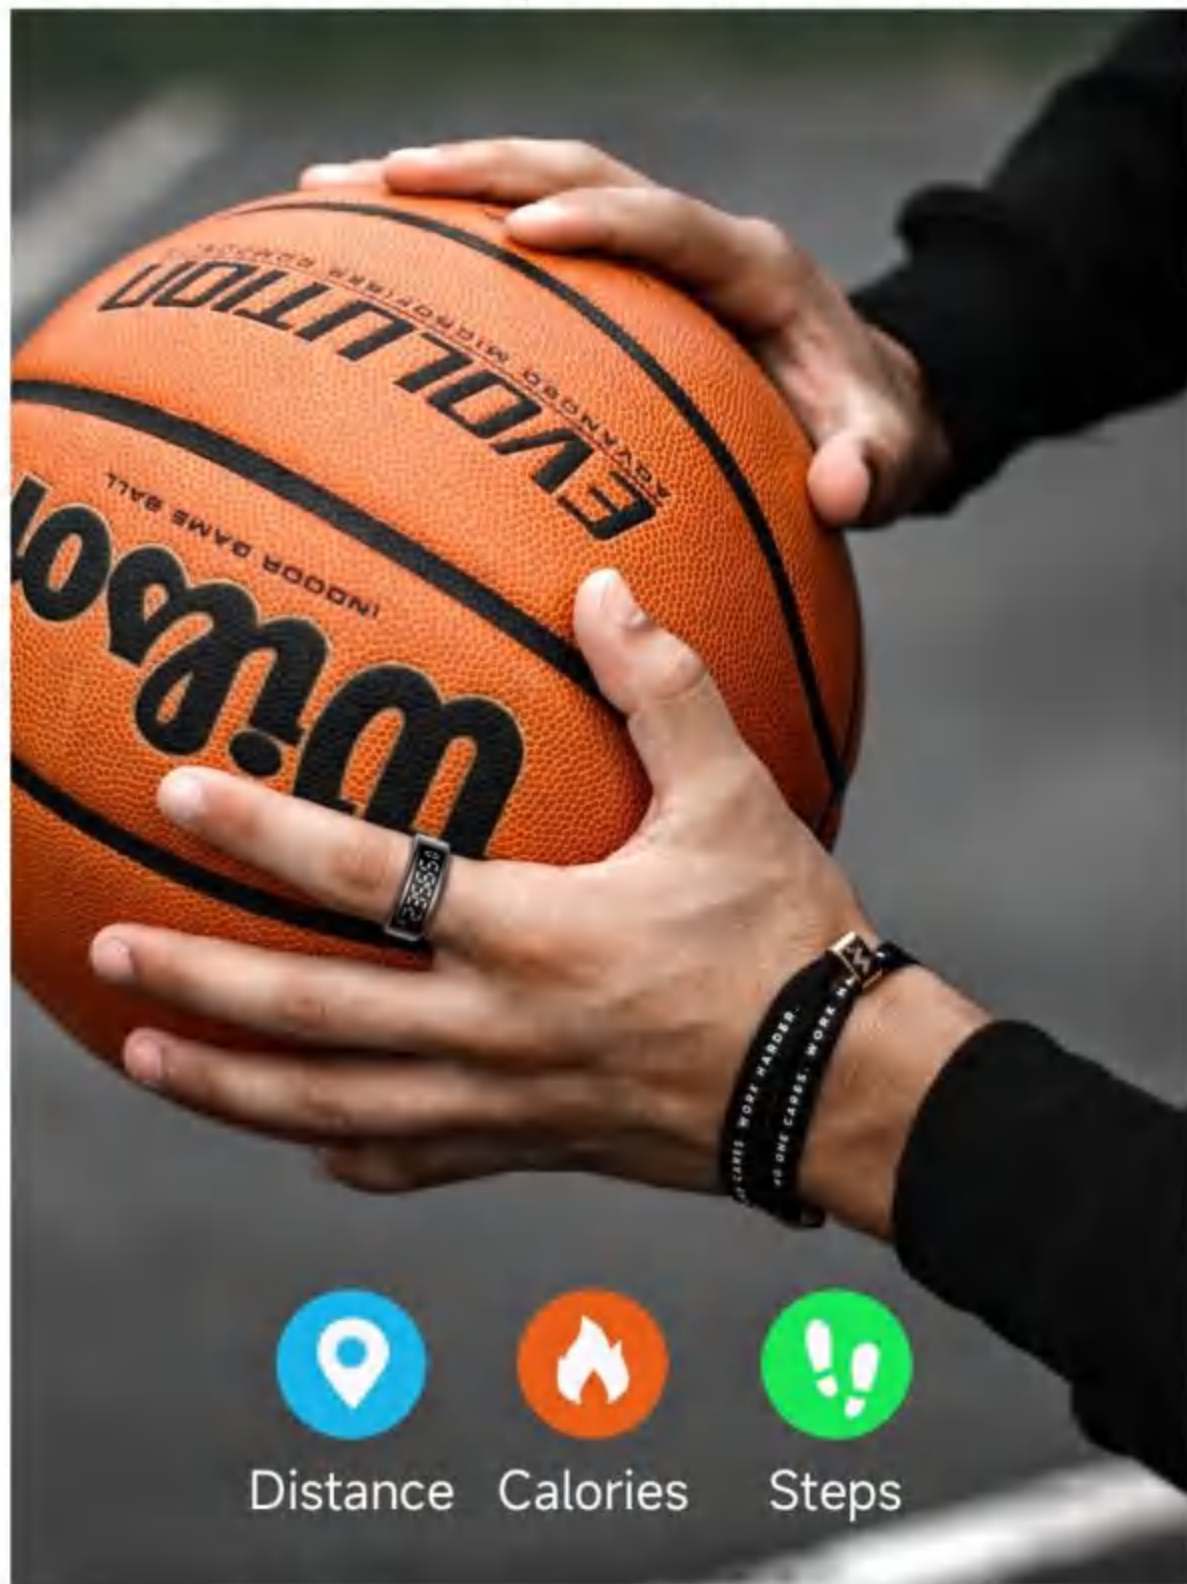

Gesture swipe video

Built-in motion gesture function, please wear the ring and quickly double-click your finger to switch videos

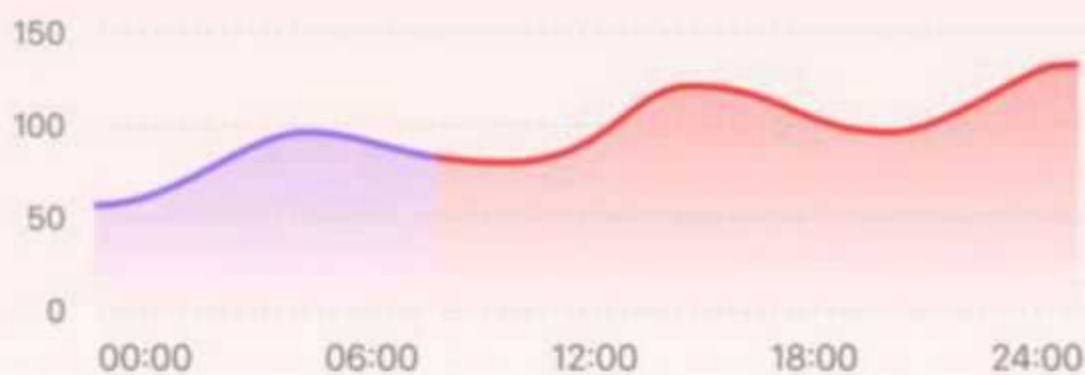

Accurately calculate every step

Active hours, exercise duration, and active calories, each data is clear at a glance. Provides intelligent reminders and incentives to help you achieve your daily goals efficiently. Weekly statistics clearly show the achievement of weekly goals, and there is a traceable way to develop exercise habits.

All-day health monitoring

By tracking your heart rate around the clock, you can understand your physical condition during exercise and relaxation during the day, and you can check your physical condition in advance when your heartbeat becomes irregular or too fast or too slow.

HRV Heart Rate Variability 24/7 heart rate monitoring

The fully upgraded heart rate algorithm can capture signals more sensitively, support 24/7 heart rate monitoring, and accurately track changes in health data.

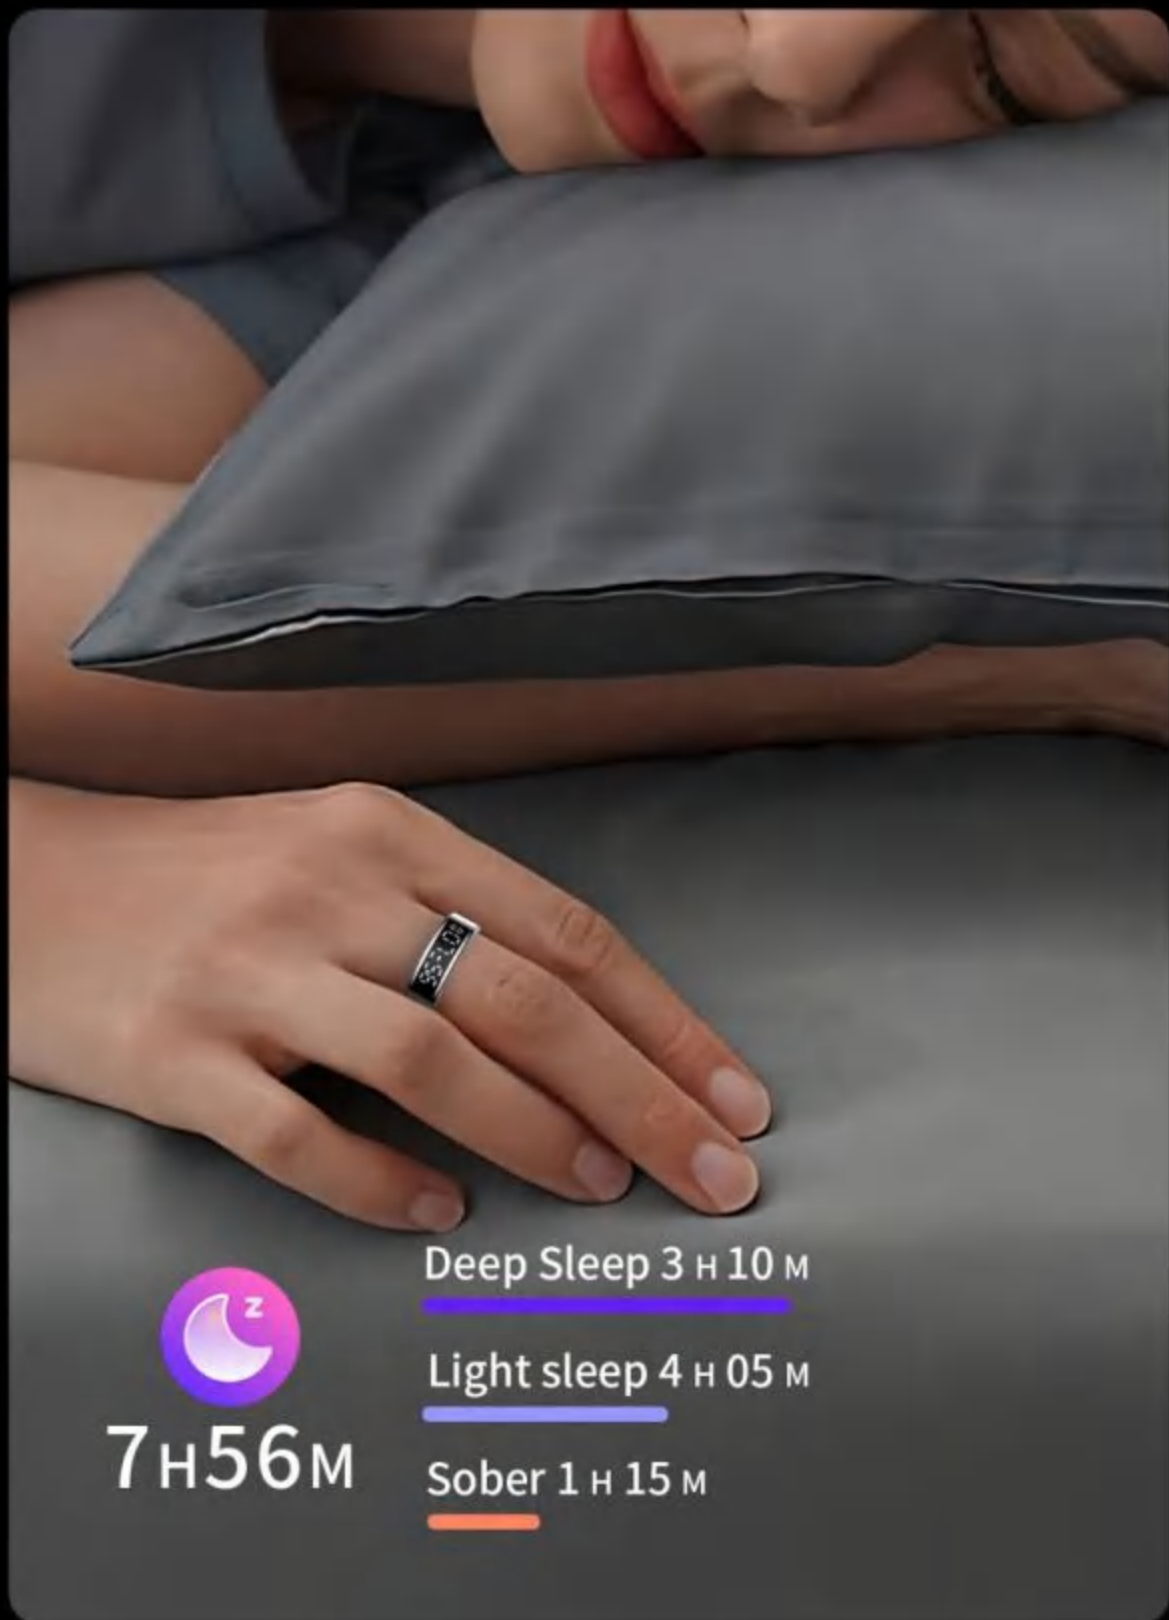

All-weather blood oxygen monitoring

Weather oxygen saturation detection allows you to easily check your blood oxygen level at any time and understand your physical condition.

Sleep monitoring record

Complete sleep structure

Understand your own sleeping status, the proportion of light sleep and deep sleep during the entire sleep period.
Good sleeping habits will lead to better health.

Light touch to achieve shutter freedom

Can control Android/IOS mobile phone to take photos and record videos

IP68+5ATM Waterproof technology

Ultra-long battery life, no more worries

A single battery life is about 3~4 days, and the charging case can be charged about 7 times when fully charged.

Recharge at any time

30days

Standby mode

3-4days

Normal Mode

Product Specifications

A variety of ring sizes, small or large, unique craftsmanship

Model	Inner diameter	Perimeter
No. 8	18.2mm	57.1mm
No. 9	19mm	59.6mm
No. 10	19.9mm	62.4mm
No. 11	20.7mm	64.9mm
No. 12	21.5mm	67.5mm
No. 13	22.3mm	70mm
No. 14	23.0mm	72.5mm

Inner diameter measurement

Step 1:

Take a long rope or paper and wrap it around your finger

Step 2:

Make the long rope or paper strip fit your finger precisely, avoiding being too loose or too tight, which may cause size deviation

Step 3:

Mark the intersection of the long rope or paper strip

Step 4:

Lay the long rope or paper flat. Measure the length and record the number of millimeters.

It is recommended to measure multiple times and take the middle value.
