

Large Toppling Tower®

Includes:

- 54 Blocks (27 Numbered and 27 Blank)
- Dry Erase Rules Board
- Carrying Case

Setup:

To setup the tower, the blocks should be stacked in rows of 3, with the direction of the blocks alternating for each row. There are 54 blocks, so there should be 18 rows to start. Make sure numbered blocks are always facing down. Stack blocks randomly so no player knows the location of any specific numbers.

Playing The Game:

Games can be played with **2 - 4 players**. The objective of the game is to remove blocks from the tower and replace it at the top, without the tower falling over during your turn. The tower will become more and more unstable as the game goes on. If a player knocks over the tower while removing a block or placing the block on the top, that player loses, ending the game.

Standard Rules:

- Players can only touch the block they are removing (you can't hold up the tower with your other hand)
- When replacing a block on top, alternate direction of that row from the row below
- Blocks cannot be taken from the top 3 rows at any time
- Once a player begins removing a block, it must be removed

Fun Rules: (Optional)

Add even more excitement to the game by using the numbers on the bottom of the blocks. Each number corresponds to a new fun rule when that number is picked.

- **#1** = Skip Next Player
- **#2** = Reverse Order
- **#3** = Take Another Block
- **#4** = Choose Player to Take Next Block
- **#5** = Next Player Must Use One Hand Only
- **#6** = Skip Your Next Turn
- **#7** = Next Player Has 10 Seconds to Pull a Block
- **#8** = Next Player Must Take First Block They Touch

Make Your Own Rules: (Optional)

We included a custom white board with the set so you can write in your own rules! Feel free to get creative and make the rules goofier or even make an adult themed game.

Quantities of # Blocks:

- **#1** = 5 Blocks
- **#2** = 5 Blocks
- **#3** = 5 Blocks
- **#4** = 3 Blocks
- **#5** = 3 Blocks
- **#6** = 3 Blocks
- **#7** = 2 Blocks
- **#8** = 1 Block

Warnings:

- Always wear closed-toed shoes during play.
- Do not setup on any surface that may be damaged by falling blocks. (glass tables, hardwood floors, tile floors, etc).
- At any time, the tower can be very unstable and fall without warning, only the player taking a block should be near the tower during their turn.
- Setup only on flat surfaces in an open space, free from obstacles or fragile items.
