JBL Club 6.5", 8", 10", and 12" Marine Speaker

THANK YOU FOR YOUR PURCHASE ...

Your JBL product has been designed to provide you with the performance and ease of operation you would expect from JBL.

EN

ABOUT THE MANUAL

This manual describes general installation guidelines. However, please note that proper installation of marine audio components requires qualified experience. If you do not have the knowledge and tools to successfully perform this installation, we strongly recommend consulting an authorized JBL dealer about your installation options. Keep all instructions and sales receipts for reference.

WHAT'S IN THE BOX

Club 6.5" and 8" speakers

Club 10" and 12" speakers

DIMENSIONS

Club 6.5" speaker

Club 8" speaker

Club 10" speaker

Club 12" speaker

SPEAKER SIGNAL WIRING

To send signal to the JBL marine speaker, connect the positive (+) and negative (-) speaker wires to the appropriate speaker outputs of your source unit or amplifier. Be sure to observe proper polarity.

SPEAKER LED WIRING

To provide power for the LEDs, plug the 24-gauge black (+), blue, green, and red LED wires from the speaker into the included female connector, then run the wires from the female connector to your compatible 12-volt power source or light controller (sold separately). If using a separate controller, be sure to connect each wire to the proper output.

If hardwiring the LEDs directly to your power source, you can choose the color of the LEDs by connecting the black wire to the positive (+) terminal, and the appropriate R, G, and/or B single wire or combination of wires to the negative (-) terminal.

There are 7 possible colors, depending on the wiring configuration you choose:

Wire connected to positive (+12V) terminal	Wire connected to negative (-) terminal	Color produced
Black	Red	Red
	Green	Green
	Blue	Blue
	Red + Green	Yellow
	Red + Blue	Purple
	Blue + Green	Aquamarine
	Red + Blue + Green	White

APPLYING FOAM SEAL

To help seal your installation against water, and to provide an airtight acoustic seal, apply the self-adhesive foam seal to the speaker frame.

MOUNTING THE SPEAKER

- 1. Use the included screws and drill bit to mount the speaker to the location. Use the included speed clips if necessary to provide a secure mount.

NOTE: It might be necessary to drill new speaker-mounting holes at the mounting location. Use caution when cutting and using screws with fiberglass to prevent scratches and cracks.

EN

- 2. Make sure that the sticker above the tweeter with the arrow and “TOP” printed on it is aligned with the arrow facing upward. This will ensure the speaker terminals are facing downwards to allow water to drain away from them, and that the grille orientation will be correct. Remove the sticker after speaker installation.

ATTACHING THE GRILLE

To attach either the white or grey grille, place it over the speaker at a slight angle and press down. Then twist it clockwise just a few degrees to lock into place. Make sure the JBL logo is at the bottom.

MOUNTING THE CLUB 10" OR 12" IN AN ENCLOSURE

The Club 10" and 12" subwoofers can be mounted in a free-air application, or in a sealed or ported subwoofer enclosure.

SEALED-BOX VOLUME (INCLUDES DRIVER DISPLACEMENT)

Speaker size	Enclosure size	Port length	Port diameter	Tuning frequency
12"	1.25 ft³ (35.4L)	11-13/16" (300mm)	2-5/8" (66mm)	27.8Hz
	2.25 ft³ (63.6L)	11-13/16" (300mm)	3-7/8" (97mm)	27.8Hz
	3 ft³ (85L)	9-7/8" (250mm)	4-1/2" (113mm)	27.8Hz

Пассивная акустическая система

Изготовитель: Харман Интернешнл Индастриз Инкорпорейтед, США, 06901 Коннектикут, г.Стэмфорд, Атлантик Стрит 400, офис 1500

Сделано в Китае

Импортер: ООО "ХАРМАН РУС СиАйЭс", Россия, 127018, г.Москва, ул. Двинцев, д.12, к. 1

Гарантийный период: 1 год

Срок службы: 3 года

Информация о сервисных центрах: www.harman.com/ru

Техническая поддержка: 8 (800) 700 0467

Организация, уполномоченная на принятие претензий потребителей: ООО "ХАРМАН РУС СиАйЭс"

Товар сертифицирован

Дата изготовления устройства определяется по двум буквенным обозначениям из второй группы символов серийного номера изделия, следующих после разделительного знака «-». Кодировка соответствует порядку букв латинского алфавита, начиная с января 2010 года: 000000-MY0000000, где «M» - месяц производства (А - январь, В - февраль, С - март и т.д.) и «Y» - год производства (А - 2010, В - 2011, С - 2012 и т.д.).
