La Crosse®

8-Inch Indoor/Outdoor Thermometer

Model: 104-120A
DC: 062822

Temperature Calibration

- Your thermometer has been pre-calibrated and should not need adjustment.
- Before adjusting your temperature, allow the thermometer to sit for at least 2 hours in the same location.
- To manually adjust your temperature, gently turn the temperature adjustment on the back until desired setting is reached.

1. Mounting Holes
2. Temperature Adjustment

Mounting Instructions

Hang the thermometer on a wall using nails, pegs, or hooks through the built-in mounting holes.

Outdoor Mounting

- Choose a location that is not subject to direct weather elements.
- Direct sunlight will cause high temperature readings and direct rain, hail, snow...etc. may damage to the thermometer.
- A shady, protected, north-facing location is often a great choice.

Indoor Mounting

- Choose a location away from heat sources such as windows and vents.
