The times when sound changed the world are the times when JBL changed sound. When sound first broke into movies? We were there. Grateful Dead's Wall of Sound? We were there. Woodstock? Grammys? Olympics? Been there. These big moments made us even more grounded in our smaller ones – the backyard barbeques, pool parties, garden picnics, house parties, you name it. For the last 75 years, JBL has been the audio expert in over 10,000 venues, 6000 pro studios and more, across 40 countries. And throughout it all, we have believed in making every moment epic, exciting, and OFF THE CHARTS!

## INTRODUCTION

Headphones have come a long way since the Walkman era. In fact, it's headphones today that pioneer the music world as we know it. With smart devices doubling up as movie theatres, arcades, and offices, headphones today extend their services beyond music. Apart from their functionality, they've also become an essential fashion accessory.

With noise cancellation, fit, colour, and budget being an important criteria with varying preferences, we know how hard it is to pick the perfect pair.

This is a brief buyer's guide to help you pick a pair of headphones that listen to you and your needs.

## FORMS & STYLES

**IN-EAR HEADPHONES:** Placed in the in-ear canal, these headphones seal the user from external noise. Designed to be small, lightweight and portable, they are also available in different size sleeves for a better fit.

**Upside:** The in-ear headphones are ultra-compact and lightweight in design as well as budget-friendly, making it an ideal choice for casual listeners. The compact design also ensures it doesn't interfere with your other accessories.

**Pro-tip:** Look for tangle-free flat cables, that can save you the mess and time you'll take to detangle them.

**ON-EAR headphones:** These headphones rest on the outer-ear of the user, making them very comfortable. Often made with a foldable mechanism, they're perfect for travel. These headphones come in open-back and closed-back designs.

**Open-back headphones:** With the back of the ear cups open, they aren't noise-cancelling but sound more natural and spacious.

**Closed-back headphones:** The sealed back ear cups in the headphones reflect the sound back into the ear of the user thus blocking the ambient sound and the external world completely.

**Upside:** With clear music and good bass, they're a popular choice among audiophiles. The foldable ear cups with memory foam and the detachable & tangle-free cable provides a hassle-free and unbeatable quality of sound.

**OVER-EAR:** These headphones cover your ears entirely and are often used by audiophiles. Their size and weight makes them harder to travel with, but they certainly are an urban-style accessory.

**Upside:** Extremely comfortable, these have excellent isolation and are a perfect solution for customers seeking audiophile quality.

## CONNECTIVITY CLASSIFICATION

**In terms of connectivity,  
headphones can be  
broadly classified  
into three categories:**

**Wired headphones:**

The gold-plated male 3.5 MM input pin ensures impeccable sound quality. The flat and detachable cables make it tangle-free as well as cost-efficient.

**Wireless headphones:**

These are battery operable Bluetooth based headphones. With no wires, it gives you the freedom to move to the rhythm of your music uninterrupted.

**Truly Wireless Headphones:**

These are completely cord free Bluetooth headphones. Packed with legendary JBL sound, it gives your playlists that extra punch.

In reference to usage,  
headphones can be  
classified based  
on their use-case:

**GAMING:** These headsets provide an immersive sound experience while in gaming mode. When accompanied by mics, they give gamers the edge they need in their gaming experience.

**CLUB:** These headphones are for EDM lovers who play their music like they live their life; loud, clear, and in style. Designed in consultation with the top musicians of the industry, these over-ear headphones also feature their preferred EQ settings.

**SPORTS:** These headphones are perfect for gym workouts and athletes; their soft and comfortable in-ear neckband design (with wireless functionality) prevents them from falling out.

**TRAVEL:** Headphones designed especially for travellers; they primarily block the unwanted ambient noise outside. These headphones use a built-in microphone to cancel external noise and allow the user to enjoy their music without raising the volume excessively.

**LIFESTYLE/COMFORT:** While noise-cancellation sounds ideal in an increasingly noisy world, it also blocks important sounds like car honks, doorbell rings, etc. JBL's Ambient-Aware technology lets you be aware of your surroundings while also semi-isolating you to enjoy your music.

True wireless in-ear headphones.

## STAY CONNECTED, STAY WIRELESS.

Feel at one with your music and your world with the ultra-comfortable JBL TUNE 215TWS.

### Feel the Bass

Powerful 6.0mm dynamic drivers that'll give you goosebumps.

### Freedom from Wires

Enjoy music that gets stuck in your head and not in your hair.

### Listen for Longer

Enjoy 25 hours (5 hours from the earbuds and 20 hours from the case) of loud, uninterrupted music.

### Either Ear or Both

Stream seamlessly and make calls on one bud or both with Dual Connect. Extend your playtime as the other bud recharges itself.

### Find your Style

With 4 different colours, the TUNE 215TWS keeps up with your vibe.

### Sleek, Convenient Charging Case

Inspired by a river stone, the soft body contains a curved lid that pops up to give you fast access to your buds.

**JBL Pure Bass Sound**  
Big bass, small size.

**True Wireless**  
No wires, just music.

**Bluetooth 5.0 Connectivity**  
For a solid long-range connection.

**Hands-free Stereo Calls**  
Never miss a call in the gym or on your hectic commute.

**Voice Assistant Compatibility**  
Google and Siri are always available at your beck and call with just a button.

**5H Playback for Earbuds +12H for Charging Case**  
Jam all out with 5 hours of playtime and 1 bonus hour after 15 minutes of quick charge.

## C105 TWS

True wireless in-ear headphones.

**WIRES GONE.  
MUSIC ON.**

Why spend ages de-tangling the knots when you can listen to music without wires? C105 TWS brings you a hassle-free and wire-free listening experience. Ergonomically designed earbuds with minimalistic design are all you need for a vibe check.

# TUNE 115TWS

True wireless in-ear headphones.

**PURE BASS.**  
**ZERO CABLES.**

If music is supposed to set you free, why let wires hold you back? Enjoy the freedom of music with the wireless TUNE 115TWS headphones.

## Feel the Bass

Incredible Pure Bass sound, delivered by the 5.8mm driver.

## Listen for Longer

Enjoy 6 hours of music and recharge 15 hours from the charging case. Get a top-up with just a 15-minute quick charge.

## Either Ear or Both

Stream seamlessly and make calls on one bud or both with Dual Connect. Extend your playtime as the other bud recharges itself.

## Comfort-fit

Accompanied by 3 sizes of ear tips to fit your size.

## Hands-free Calls and Access to Voice Assistant

Manage your calls or access your voice assistant with just a tap.

#### JBL Pure Bass Sound

Powerful bass delivered by the 5.8mm driver.

#### Truly Wireless

Listen to music and manage your calls with the ergonomically shaped wireless earbuds.

#### Hands-free Stereo Calls

Activate voice assistance and intuitive control for stereo hands-free calls with the push of a conveniently placed button.

#### 4H Playback for Earbuds + 12H for Charging Case

Get an extra hour of playback with a 15-minute charge on the elegantly designed charging case.

#### Affordable Stylish Design

Available in multiple, vibrant colours that match your personality.

## TUNE 120TWS

True wireless in-ear headphones.

**Pure Bass.**  
**Zero Cables.**

A design that is as bold and unique as you, the cord-free JBL TUNE 120TWS delivers your music in comfort and style.

## TUNE 125TWS

True wireless in-ear headphones.

# BASS THAT ROCKS, AND ROLLS, WITH YOU.

Packed with a powerful design, the JBL TUNE 125TWS provides unparalleled sound quality and bass.

### Feel the Bass

Incredible JBL Pure Bass sound brought to life.

### Freedom from Wires

Experience total freedom with no cords and no tangles.

### Listen for Longer

With up to 32 hours of battery life, breeze through your playlists from start to end.

### Fast Pair

Pairs seamlessly with your device in a single tap as soon as it's out of the case.

### Either Ear, Or Both

Stream seamlessly and make calls on one bud or both with Dual Connect. Extend your playtime as the other bud recharges itself.

### Find Your Style

Stand out or blend in? Choose a style that speaks your truth.

#### Feel the bass

12mm dynamic driver featuring JBL Pure Bass Sound.

#### 19 hours of combined playback

3 hours of nonstop sound plus another 16 hours from the charging case.

#### Stay connected, not wired

Compatible with both iOS and Android devices, stream seamlessly with Bluetooth 5.0.

#### Easy on-the-go controls

Switch tracks and take calls by tapping the buttons placed on the right and left earbuds.

#### Hands-free, fuss-free stereo calls

Switch back and forth with on-ear controls and go hands-free for stereo-mode calls.

#### Turn your style up

Take your pick with these classic colours that come with a sleek metallic finish and soft touch paint.

**TWS  
SERIES**

# QUANTUM SERIES

Gamers, it's time to plan,  
attack, and survive without  
missing any details.  
Play gloriously and win  
victoriously with our new  
Quantum series.

## Quantum 50

Wired in-ear gaming headset  
with volume slider and mic mute

**TAKE OVER  
THE GAME**

Hear your opponents loud and clear with Quantum 50 Gaming Headset. It comes with JBL QuantumSOUND and Twistlock™ technology to give you the ultimate sound and stability. Designed for mobile gaming, but get your game face on any way you like and unleash pure hell on your enemies.

### JBL QuantumSOUND Signature

Hear every move of your enemies in ultimate clarity with 8.6mm drivers.

### Absolute Control with Volume Slider and Mic Mute

Say no to complex controls and be in the zone.

### Inline Voice-Focus Microphone

Optimized for multi-player gaming. The microphone is close to the mouth and separated from the other controls, giving you superior voice pickup.

### Twistlock™ technology for Comfort and Stability

Ergonomically designed for super comfy and long gaming hours.

### All-platform Compatibility

Play your favourite games on the platform of your choice.

## Quantum 100

Wired over-ear gaming headset  
with a detachable mic

**PLAY LIKE  
A PRO**

Plan and plot. Strategize and improvise. Gaming is not a joke. Celebrate your game night with the Quantum 100 gaming headset. Hear the tiniest creak of your opponents with spatial sound and rally your troops with the detachable mic made for multi-player games.

### JBL QuantumSOUND Signature

Be at the centre of the game with the most realistic soundscape.

### Memory Foam Comfort

The lightweight headband and memory foam ear cushions were designed for the longest game sesh.

### Compatible with Windows Sonic Spatial Sound

Well suited for Windows 10 PCs and Xbox™ ONE consoles.

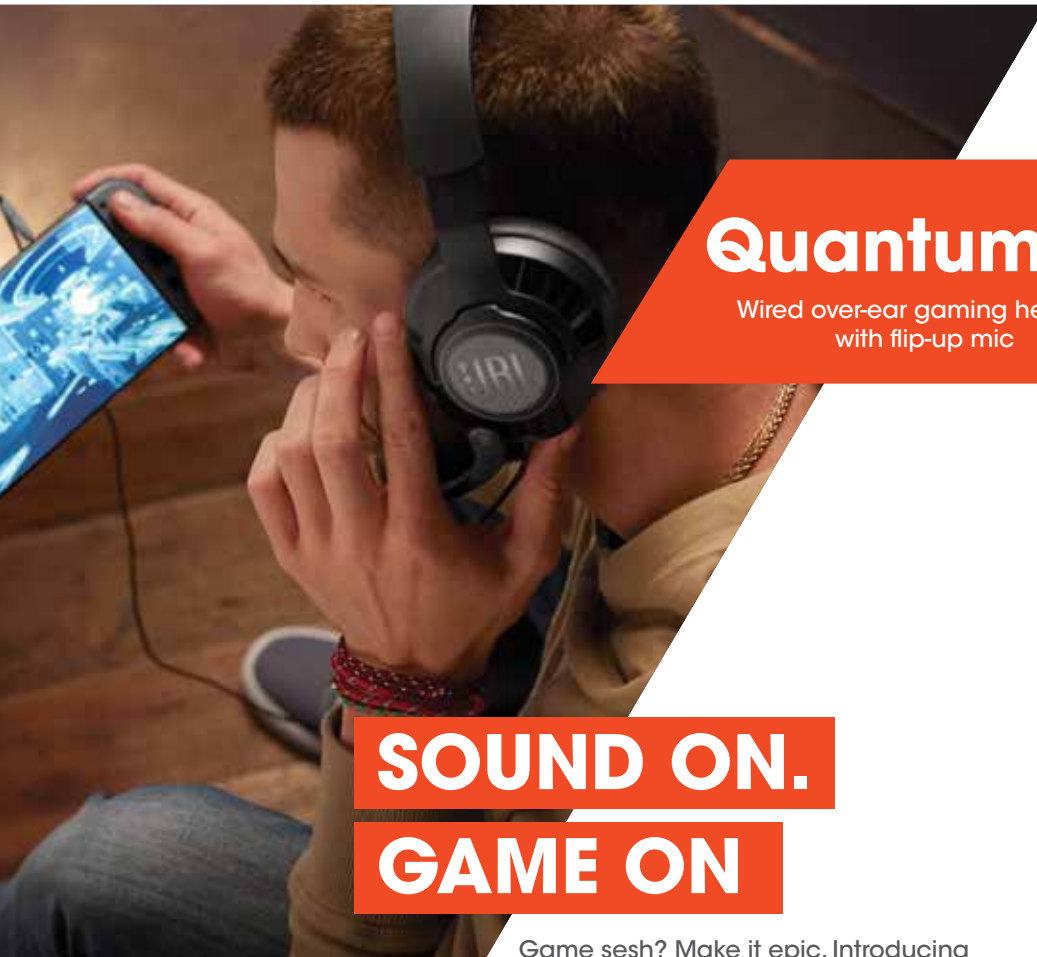

### Made for Your Favourite Platforms

PC, PlayStation™, Xbox™, Nintendo Switch™... the list is long.

### Voice Focus Detachable Boom Microphone

Lead your troops to victory with loud and clear sound.

## Quantum 200

Wired over-ear gaming headset  
with flip-up mic

**SOUND ON.  
GAME ON**

Game sesh? Make it epic. Introducing Quantum 200, because a special game night needs a special partner. Be in the middle of all the action with truly immersive sound and dominate the game by hearing the tiniest detail.

### JBL QuantumSOUND Signature

50mm drivers that amplify every move, every action.

### Memory Foam Comfort

Long and smooth gaming sesh. Thanks to super-comfy memory foam.

### Voice Focus Directional Flip-up Boom Microphone

Comes with auto-on/off mute features to let you rally the troops with crystal clear clarity.

### Made for Your Favourite Platforms

Via a 3.5mm jack you can connect the Quantum 200 to Xbox, Playstation, Nintendo Switch™, Mobile, Mac, and VR.

### Compatible with Windows Sonic Spatial Sound

Full compatibility with the native surround sound system built into Windows 10 PCs and Xbox™ ONE consoles.

## Quantum 300

Hybrid wired over-ear gaming headset with flip-up mic

**SURVIVAL  
MODE ON.**

A killer game sesh needs superior audio, realistic soundscape, and comfortable design. And we totally get that. Now, take your gaming experience to the next level with Quantum 300.

### Live the Game with JBL QuantumSURROUND™

Powered by the JBL QuantumENGINE PC software, it creates an incredibly realistic spatial soundstage and immerses you in the game.

### Be at the Centre of the Game with JBL QuantumSOUND Signature

50mm drivers deliver a sound curve that makes every scene more epic.

### Play Even Longer in Memory Foam Comfort

Late-night game sesh? You're all set.

### Voice Focus Directional Flip-up Boom Microphone

Is distorted audio ruining your gaming experience? Worry not, you are covered.

### Switch between All Your Favourite Platforms

Compatible with all gaming platforms.

### User-friendly JBL QuantumENGINE PC Software Suite

Play it as you like it. Personalize your gaming experience.

## Quantum 400

USB over-ear gaming headset  
with game-chat balance dial

## ONE STEP AHEAD OF THE GAME!

From the tiniest footstep to the loudest explosions, hear every action in ultimate clarity. Introducing the Quantum 400 gaming headset – for the pros out there who know that 'sound is survival.'

### Live the Game with JBL QuantumSURROUND™ and DTS

Be at the centre of the most immersive gaming experience with personalised surround sound. Also equipped with DTS headphone:X v2.0.

### JBL QuantumSOUND Signature Gives You a True Audio Edge

Be a cut above your opponent with signature sound delivering the most realistic audio.

### Play Even Longer in Memory Foam Comfort

Extremely light headband and comfy ear cushions designed for long gaming hours.

### Voice Focus Directional Flip-up Boom Microphone

Give clear instructions to your teammates seamlessly with auto-mute on/off.

### Game-chat Dial for Seamless Communication

Game-chat Balance Dial certified by DISCORD. Also compatible with TeamSpeak and other communication platforms.

### Made for Your Favourite Platforms

Play on a platform of your choice.

### User-friendly JBL QuantumENGINE PC Software Suite

Select your preferred surround sound settings and personalize your headset from a user-friendly dashboard.

## Quantum 600

Wireless over-ear performance gaming headset with surround sound and game-chat balance dial

## EXPERIENCE THE GLORY OF GAMING

Pro-level gaming deserves a pro-level headset. Introducing Quantum 600 for real gaming. Assemble your troops and give your opponents a taste of hell for 14 hours straight with the most realistic spatial surround sound out there.

### Live the Game with JBL QuantumSURROUND™ and DTS

Simulates stunning multi-channel audio to create an incredibly realistic spatial soundstage for an all-out immersive experience. Also equipped with DTS headphone:X v2.0.

### Be at the Centre of the Game with JBL QuantumSOUND Signature

The 50mm neodymium drivers make every detail come alive.

### Lossless 2.4GHz Wireless Headset

No lags, no wires. Game for 14 hours non-stop.

### Durable and Lightweight to Let You Play Even Longer

Designed for the longest gaming sessions, the lightweight headband and leather-wrapped memory foam ear cushions push you to win at all costs.

### Voice Focus Directional Flip-up Boom Microphone

Your commands heard crystal clear and the game sesh made more smooth with the auto-mute on/off button.

### Game-chat Balance Dial for Seamless Communications

Adjust audio levels while still engrossed in the game with DISCORD-certified game-chat balance. Also compatible with Teamspeak, Skype, and other communication platforms.

### Switch between All Your Favorite Platforms

Compatible via 2.4GHz wireless connection on PC, PS4, Mac, and VR. Compatible via 3.5mm audio jack with PC, PlayStation™, Xbox™, Nintendo Switch™, Mobile, Mac and VR.

### User-friendly JBL QuantumENGINE PC Software Suite

Customise your Quantum 600 gaming headset from a user-friendly dashboard.

A man with short brown hair and a light beard is shown in profile, smiling and looking towards the right. He is wearing a black earbud in his left ear, which he is touching with his index finger. The background is a blurred outdoor scene with green trees and a blue sky. The image is overlaid with a large red and white geometric design on the right side. The text "COMING SOON" is written in large, bold, white capital letters on a red background.

**COMING  
SOON**

# TOUR SERIES

With adaptive noise-cancelling  
and Smart Ambient technology,  
you can cancel the noise or get  
in touch with your surrounding  
the choice is yours.

## STAY IN CONTROL OF YOUR MUSIC

Own your day, your surroundings, your world with the JBL TOUR PRO+ TWS. Claim ultimate control of the sound around you with its adaptive noise-cancelling and Smart Ambient technology.

## TOUR PRO+ TWS

True wireless in-ear noise-cancelling headphones

### Adaptive Noise Cancelling

Comes with internal and external mics to minimize distractions and maximise clarity.

### Smart Ambient

Let the outside world in, or don't.

### JBL Pro Sound

Crisp, rich, dynamic sound.

### Up To 32 Hours of Total Music Playback, Wirelessly

With Qi-compatible wireless charging, and three power-ups in the case.

### Speed Charge

Get an hour's worth of playtime in a matter of minutes.

### Voice Clarity with 3-mic Technology

With two outer beamforming mics and a third to reduce wind and other distractions.

### My JBL Headphones App for Max Productivity

Create your own silent space with SilentNow. Auto-off switches off your headphones after a time period of your choice. Wake up with My Alarm. With Auto-Pause, your music pauses automatically when you take off your Tour Pro+ TWS.

### Dual Connect + Sync with Fast Pair

Ultra-stable connection from the moment you open the case.

### Independent Earbuds

Assign independent functions to both earbuds and take calls from either or both.

### Hands-free Voice Control

The world is just one click away with these voice assistant compatible headphones.

### Customize with the Free My JBLHeadphones App

Personalise your listening experience.

## BOLD SOUND FOR A BOLD YOU

Power up your productivity and power through the day with the TOUR ONE. Here's to taking control of your world for 50 hours straight with adaptive noise cancellation and Smart Ambient technology.

### TOUR ONE

Wireless over-ear noise-cancelling headphones

#### True Adaptive Noise Cancelling Speed Charge Battery

Don't let anything hold you back. Stay focused always.

#### JBL Pro Sound, Hi-Res Certified

Bold sound. Powerful bass.

#### Four-mic Technology for Crystal Clear Calls

2 adaptive beamforming mics and acoustic echo cancellation tech for noise-free calls.

#### Ambient Aware & TalkThru

Stay aware of your surroundings when outside and have a side convo without pausing your jams.

#### Boost Your Productivity with My JBL Headphones App

Welcome silence with SilentNow where NC is activated but music is off. Auto-Off works as a timer for your headphones. My Alarm helps you wake up. Auto-Pause automatically pauses the music when you take off your Tour One.

#### Up To 50 Hours of Music Playback

25 hours with noise cancellation on and 50 hours with Bluetooth only.

#### Hands-free Voice Control

One tap and the voice assistant is at your service.

#### My JBL Headphone App

Control your environment and customise your experience.
