

CALCIUM INCREASER

When Calcium Tests Low, Proper Addition of **CALCIUM INCREASER** Will:

- Raise Calcium Hardness in Water to recommended level
- Help Protect Pool Surfaces, Plumbing and Equipment from Corrosive Conditions

Active Ingredient:
Calcium Chloride 100.0%

KEEP OUT OF REACH OF CHILDREN
CAUTION: Eye irritant. Avoid contact with eyes, add only into water

See first aid and additional precautions on back panel

NET WT 25 LBS (11.3 kg)

APPROVED
By Annette Niemiec at 1:48 pm, May 15, 2024

This product is used to raise calcium hardness in swimming pool water. Low calcium hardness causes pool water to be corrosive and may result in staining and etching or distorting of the pool's finish. Plaster etched by low calcium hardness will become abrasive and uncomfortable for swimmers. Rough plaster increases algae problems and makes cleaning more difficult.
Calcium Hardness in pool water should be maintained in the 175-275 ppm range. Never allow calcium hardness to remain below 100 ppm.

DIRECTIONS FOR USE
Add this product directly to the pool water by scattering it over the water surface. Do not predissolve this treatment as heat is generated when this product contacts water. The addition of 4 lbs. of this product per 10,000 gallons of water will raise calcium hardness approximately 40 ppm. The addition of 10 lbs. of this product per 10,000 gallons of water will raise calcium hardness approximately 100 ppm.

STORAGE AND DISPOSAL
Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.
HAZARD WARNINGS: CAUTION: Contains calcium chloride. May cause eye and skin irritation. May be harmful if swallowed. Avoid contact with eyes, skin or clothing. Wear goggles or safety glasses and rubber gloves when handling this product. May be irritating to nose and throat. Avoid breathing dust. If product gets on clothing, remove and wash before reuse. For skin or eye contact, or if dust is inhaled, immediately follow First Aid statements. Do not mix with other chemicals.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
