FISHERMAN CLOTHING

- The fisherman's clothing updates with changes in the Outdoor Temperature from the sensor on channel 1.

BAROMETRIC PRESSURE

Pressure Number: Displayed as Absolute Pressure which may be lower than your local reporting station.

History: Press the HISTORY button to view pressure history.

Graph: Pressure trend over past 12 hours. Read from left to right. Graph will scroll continually.

WEATHER FORECAST

Forecast Icons: Predict weather in the next 6-12 hours. Allow 7-10 days for accuracy.

Tendency Arrows: Shows rising, falling, or steady pressure.

INDOOR COMFORT STATEMENT

WET: Humidity is above 70%

COMFORTABLE: Humidity is between 40% and 70%

Temperature is between 68°F and 82°F. Outside this temperature range "comfortable" will not show.

DRY: Humidity is below 40%

BACKLIGHT

- Press the SNOOZE/LIGHT button to activate the blue backlight for 5 seconds.

CITY SELECTION FOR SUNRISE & SUNSET TIMES

Select a city location closest to you in a North/South line. This will provide the most accurate sunrise/sunset times for your location.

- Hold the CITY button to enter city selection.
- Press the + or - buttons to adjust the selection.
- Press the CITY button to confirm and move to the next item.

Selection order: • Country • State • City

Note: When either Canada or Mexico is chosen, you skip state and move directly to city selection. Preset City abbreviations are below and on the next page.

NEED MORE HELP?

If you require additional support, call our friendly customer support representatives based out of our office in La Crosse, Wisconsin.

Phone: 1.608.782.1610

Our knowledgeable customer support team is available Monday-Friday, 8am-6pm CST.

SPECIFICATIONS

Indoor:
Temperature Range: +32°F to +122°F (0°C to 50°C)
Humidity Range: 10%-99% (RH)
Interval: About every 30 seconds

Outdoor:
Temperature Range: -40°F to 140°F (-40°C to 60°C)
Note: Temperatures below - 20°F (-28.8°C) require Lithium batteries in the outdoor temperature/humidity sensor.
Humidity Range: 10%-99% (RH)
Distance: Over 300 ft. (91 meters) RF 433MHz (open air)
Interval: About every 50 seconds

Power:
Forecast Station: 3-AA, IEC, LR6 batteries (not included)
TX142THv2 Sensor: 2-AA, IEC, LR6 batteries (not included)

Battery Life: Battery life is over 24 months

Dimensions:
Forecast Station: 5.12" L x 2.36" W x 5.12" H (130 x 60 x 130 mm)
TX142THv2 Sensor: 1.57" L x 0.79" W x 5.12"H (40 x 20 x 130mm)

SENSOR WEATHER SHIELD-Not Included

The Sensor Weather Shield is designed to protect your outdoor sensor from rain and snow. This shield will offer limited protection from the sun's heat. Purchase at: <http://bit.ly/925-1418>

CARE + MAINTENANCE

- Do not mix old and new batteries.
- Do not mix Alkaline, Lithium, standard, or rechargeable batteries.
- Always purchase the correct size and grade of battery most suitable for intended use;
- Clean the battery contacts and also those of the device prior to battery installation;
- Ensure the batteries have with correct polarity (+ / -)
- Remove batteries from equipment that will not to be used for an extended period.
- Promptly remove expired batteries.

WARRANTY INFO

La Crosse Technology, Ltd. provides a **1-year limited time warranty** (from date of purchase) on this product relating to manufacturing defects in materials & workmanship.

For Full Warranty Details, Visit:
www.lacrossetechnology.com/support

CANADA STATEMENT

This device complies with CNR Industry Canada license -exempt devices. Operation is subject to the following two conditions:
(1) This device may not cause interference; and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!
The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.
All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences. All trademarks and patents are recognized.
