## 10kg Series 7 Top Loader Washer, UV Sanitise

Series 7 | Top load

This top loader is easy-to-load and has a specially designed pillow drum for gentle wash action to help you take better care of your clothes.

- Auto-dose mode dispenses just the right amount of liquid detergent based on the size of your load
- Specialised UV Sanitise wash modifier to kill more than 99.99% of bacteria\*
- Auto load sensing uses just the right amount of water for best wash results
- Impressive 4.5 star energy and 4 star water rating

 Eco wash option reduces energy and water consumption for a more optimised wash

#### **DIMENSIONS**

Height	1095 mm
Width	640 mm
Depth	650 mm

#### **FEATURES & BENEFITS**

#### Health And Hygiene

The specialised UV Sanitise wash option uses UV light to help kill more than 99.9% of bacteria for long-lasting fabric care.\*

#### **Auto Load Sensing**

Intelligent sensors determine load size and soil level before using just the right amount of water for best wash results and optimal fabric care.

#### Star-Rated Energy And Water

This top loader washing machine boasts a 4.5-star energy rating and a 4-star water rating.

#### Efficient Water And Energy Usage

The Eco wash option uses less energy and water during a wash cycle making this top loader a great eco-friendly option. A bionic lint filter helps prevent lint, fibres and other debris going back into grey water, for more efficient cleaning and rinse cycles.

#### Easy To Use

This machine has a cycle to suit every type of load including Bulky, Extra Care and Wool. Select a cycle with the easy to use SmartTouch™ control dial.

#### Soft-Close Lid

The tough glass lid delivers quality and durability. Its soft close mechanism makes it family safe, avoids slamming and allows for hands-free operation.

#### **SPECIFICATIONS**

# Capacity 10 kg

#### Consumption

4.5 star	Energy rating
263kWh/year	Estimated Yearly Energy Usage (kWh)
160.5kgCO2e/ year	In-use energy carbon emissions estimate
102L	Water consumption per cycle
4 star (WELS)	Water rating

#### Controls

Control type	Capacitive touch
	display

#### **Features**

Advanced out of balance detection	•
Agitator	Low profile
Auto out of balance correction	•
Automatic water level	•
Child/Keylock	•

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
