

Compression sofa instructions(Universal version)

NOTE:

- 1.Remove packaging and lay the folded up sofa flat on the floor.
- 2.Remove the plastic bag avoid using sharp instruments or knives etc,scratching the fabric
- 3.After opening the sealed bag,the sofa will quickly regain its shape.Ensure the environment remains well-ventilated and dry,as this will assist the sofa in restoring its full elasticity.Within 72 hours, the sofa should rebound to over 90% of its original state.
- 4.Due to its compressed nature,there maybe obvious creases on the fabric cover when first opened.To flatten it faster,you can use an iron
- 5.During using,please avoid keeping the floor damp for a long time to prevent mold caused by lack of ventilation
- 6.If dirt/oil stains occur during use,please clean them with a specialized fabric cleaner
- 7.Any questions?please feel free to contact us;we will provide further assistance within 24 hours.
